General English for University Students Arief Eko Priyo Atmojo,2021-04-15 General English for University Students is a book which helps to learn General English or Basic English for non English Department/Major students at university level.

This book comprises six units which start from Hello World to Daily Routines. It can be used for 12 until 14 meetings in a semester. Furthermore, each unit can be taught for 2 until 3 meetings. It is because each unit comprises many sub-units including objectives, reading, vocabulary, grammar focus, writing, exercise, and speaking. This book is designed to be more practical rather than theoretical. There are several reading texts for each unit. The reading texts have been adapted to Indonesian culture and norms. There are also many exercises to deepen students' knowledge and skills. Useful phrases, meaningful words, and grammar focus are provided to maximize students' language input. In addition, writing and speaking are available to train students' productive skills. Finally, the author hopes that this book can bring many advantages for lecturers and students especially.

**Culture and Identity through English as a Lingua Franca** Will Baker, 2015-07-01 The use of English as a global lingua franca has given rise to new challenges and approaches in our understanding of language and communication. One area where ELF (English as a lingua franca) studies, both from an empirical and theoretical orientation, have the potential for significant developments is in our understanding of the relationships between language, culture and identity. ELF challenges traditional assumptions concerning the purposed 'inexorable' link between a language and a culture. Due to the multitude of users and contexts of ELF communication the supposed language, culture and identity correlation, often conceived at the national level, appears simplistic and naïve. However, it is equally naïve to assume that ELF is a culturally and identity neutral form of communication. All communication involves participants, purposes, contexts and histories, none of which are 'neutral'. Thus, we need new approaches to understanding the relationship between language, culture and identity which are able to account for the multifarious and dynamic nature of ELF communication.

*Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2019-01-04 In a diverse society, the ability to cross communication barriers is critical to the success of any individual personally, professionally, and academically. With the constant acceleration of course programs and technology, educators are continually being challenged to develop and implement creative methods for engaging English-speaking and non-English-speaking learners. *Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications* is a vital reference source that examines the relationship between language education and technology and the potential for curriculum enhancements through the use of mobile technologies, flipped instruction, and language-learning software. This multi-volume book is geared toward educators, researchers, academics, linguists, and upper-level students seeking relevant research on the improvement of language education through the use of technology.

**Grammar in ELT and ELT Materials** Graham Burton, 2023-06-06 This book investigates the content of the grammar syllabus typically employed in mainstream English Language Teaching. Using a mixed-methods approach, the author examines how the syllabuses used in coursebooks are actually constructed, how they evolved and how valid their contents

are as a basis for teaching. The research reported consists of a broad exploration of primary sources in order to outline the evolution of ELT pedagogical grammar; ten interviews with key ELT authors and publishing professionals, which allows for the investigation of the decision-making processes underlying the choice of grammar content in ELT teaching materials; and finally, the presentation of case studies which examine three areas of grammar, analysing the evolution of their treatment in ELT materials (both historical and contemporary) and comparing their current treatment to data on real learner use. This book contributes to the literature on syllabus design and pedagogical grammar and builds on existing research into materials design. It will be of interest to researchers and professionals working in the fields of applied linguistics, pedagogical grammar, curriculum design and materials design.
