Judicial Responses to Climate Change in the Global South Shuma Talukdar,Valéria Emília de Aquino,2023-12-13 This book explores how judiciaries in different parts of the world are responding to climate change and how climate change intersects with the law. It offers feminist approaches to the judicial responses to climate change in the Global South, providing both jurisdictional and thematic reviews. Climate change is one of the most pressing global issues facing humankind, and is currently reshaping geopolitics, governance, law, and international relations around the world. The book's originality lies in its endeavour to highlight judicial perspectives on climate change from prominent female researchers who have been working on this subject professionally and/or academically, bringing both regional and international views to the subject. The main objective is to give a new meaning to the study of climate change by bringing together the most recent aspects, including climate litigation, eco-constitutionalism and the environmental rule of law, climate and environmental justice, climate geopolitics and climate governance. The book will be of interest to students, academics, and scholars of climate law and environmental law around the world.

Women, Gender, and Constitutionalism in Latin America Francisca Pou Giménez,Ruth Rubio Marín,Verónica Undurraga Valdés,2024-04-30 This book discusses to what extent and how constitutional design and practice in Latin America have helped in combatting the subordination of women and LGBTQIA+ people. Covering 11 jurisdictions, the chapters identify the main elements of the constitutional gender order and survey jurisprudential and legislative developments in different areas, incorporating contextual analysis and references to history, political dynamics, social movements, feminist struggles, normative efficacy, and policy. In the context of a constitutionalism that has been celebrated as particularly innovative and socially engaged, the book assesses constitutional performance in the quest to supersede the separate gendered spheres tradition and the subordination of women and sexual minorities to heteronormative hegemony. It fills an important gap in the field of gender and constitutionalism, which has paid very little attention to Latin America compared to the Anglo-American legal world and continental Europe. It identifies regional trends, but also variables which account for the diversity of approaches in various jurisdictions. The book provides much-needed insight into matters that are

relevant for legal and socio-legal scholars, an ever-growing number of social actors and movements, and all those interested in comparative constitutionalism and in the intersections between law and gender.
