Personal Names in Asia Yangwen Zheng, Charles J-H. Macdonald, 2010 The world's population negotiates a multiplicity of naming systems. Some are compatible with the normative system of the world of passports and identity cards but a great many are not. This is particularly true in Asia, a region with some of the most sophisticated naming devices found anywhere in the world, including nicknames and teknonyms, religious and corporation names, honor and death names, pseudonyms and retirement names, house names and clan names, local and foreign names, official and private names. People across the continent carry multiple names meaningful to different audiences. Some are used only in family relations while others locate individuals in terms of gender, ethnicity, religion, caste, class, and nation. The centrality of names to many of the crucial debates and preoccupations of the modern world—identity, hybridity, migration, nationalism, multi-culturalism, globalization—makes it particularly surprising that there has been little systematic comparative exploration of Asian names and naming systems. This path-breaking volume classifies and theorizes the systems underlying naming practices in Asia, especially in Southeast Asia where systems are abundant and fluid. Using historical and socio-anthropological perspectives, the authors of this exceptionally close collaborative effort show the intricate connections between naming systems, notions of personhood and the prevailing ethos of interpersonal relations. They also show how the peoples of Asia are fashioning new types of naming and different ways of identifying themselves to suit the demands of a changing world.

Something Like Hail Jay Bell, 2017-09-20 Sometimes it's up to us to make our own luck—and to give ourselves a second chance. Noah Westwood is tired of living on the streets, so he turns to Marcello Maltese, a man who owns a small empire that includes an escort service. Noah volunteers for this, but he's playing a dangerous game. A secret from his past could turn his new friends into enemies, and he isn't sure he can perform the duties he signed up for, especially when he's more interested in falling in love than hopping into the beds of clients. His situation is complicated further when hunky co-worker, Harold Franklin, seems to be interested in him. Noah is off the streets, but he'll have to travel down many more roads on his quest to find his happily-ever-after. Something Like Hail introduces a new character to the Something Like... series, one

whose life is intertwined with the previous books in an unexpected way.

Cinema of the Philippines Bryan L. Yeatter,2007-01-01 Although Filipino cinema dates to the early silent era and shares many characteristics with Western film, it has frequently been ignored by Western critics and audiences. This book offers a rare study of cinema in the Philippines. The first half of the work presents a history. Chapters cover lost pre-World War II films, the postwar cinema boom, the Philippines' unique relationship with the United States and its manifestation on film, and Filipino cinema's decline. The second half of the book is the most comprehensive published filmography of Filipino cinema to date.

Seventeenth-Century Events at Liliw Jean-Paul G. POTET,2016-06-25 This book is the translation and the analysis of the Paglayonan manuscript of ten folios from the collections of the Newberry Library. The document is a compilation of official deeds from the Laguna town of Liliw, Philippines. They report two events that took place in the Seventeenth Century: the one concerns the genteel Paglayúnan family, the other the making of an altarpiece for the church of San Juan-Bautista de Lilio by Chinese craftsmen from Sinilúan, another Laguna town. Both give insights into provincial life during the Early Spanish Period. The most striking feature is that the Tagalogs who wrote these texts used the term *hári*, generally translated as 'king', to refer to their parish priest.

have been published in recent decades.”—John Gray, New York Times Book Review Hailed as “a magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”— Charles Tilly, Columbia University
