*The Complete Works of Oscar Wilde: The picture of Dorian Gray : the 1890 and 1891 texts* Oscar Wilde,2000 This is the first variorum edition of the 1890 and 1891 editions of Oscar Wilde's controversial novel, 'The Picture of Dorian Gray'. Drawing on manuscripts and a typescript, this volume reprints the thirteen-chapter and twenty-chapter versions of Wilde's narrative as separate works, enabling the reader to see the considerable changes that Wilde made to his famous story across a period of eighteen months. This variorum edition contains a comprehensive introduction that provides full bibliographical information about the two editions, as well as a detailed commentary that illuminates the extraordinarily wide range of references that Wilde makes to a broad repertoire of sources. This volume will be the definitive edition of 'The Picture of Dorian Gray' for many years to come.

Accessing the Classics La Vergne Rosow,2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature. Using a scaffolding approach, this guide leads readers from simple and engaging reads to more challenging texts, and simultaneously cultivates their interest and skills. An invaluable resource for middle and high school, ABE and ESL educators, as well as for readers' advisors. All readers—even those still learning to speak English—can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide. Rosow takes you on a journey through the history of Western literature, beginning with ancient myths and moving to medieval tales and classics of the Renaissance, Romantic Movement, and Modernism. Along the way, she shows you how to give readers easy access to some of the best literature of all time. Scores of collections focus on such ancient and enduring stories as Gilgamesh, Beowulf, the tales of Chaucer; historical masterpieces of William Shakespeare, Jane Austen, Edgar Allan Poe, Charles Dickens; and stellar names of more recent times, such as Virginia Woolf, John Steinbeck, Ernest Hemingway, and J.R.R. Tolkien. Each carefully selected collection lists an assortment of titles, ranging in reading level and arranged progressively from simple renditions, such as picture book re-tellings, through more advanced selections and readings where audio versions and simpler formatting support the reader, and on to the most challenging reads. Author profiles and narrative, as well as detailed descriptions of each title provide further insights into the story lines and features of the books; while building a scaffold of reading experience and knowledge to help readers better understand the texts. For example, the Mark Twain collection begins with a brief biographical sketch of the author, followed by descriptions of two illustrated books about the author and two readers' theatre skits based on his work. A collection of Twain's short stories is recommended next, and then several illustrated versions of his novels, and an illustrated edition of Twain's memoir, *Life on the Mississippi*, which is supported by an audiotape version. Each recommended title is rated as start here, next read, support here, or challenging read; and related reads, and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally available in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries; as well as an essential resource for readers' advisors, Adult Basic Education, and English as Second Language educators, and young adult educators and librarians. Young adult and adult or Grades 9 and up.

**The Turn of the Century** Christian Berg, Frank Durieux, Geert Lernout, 1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992. Starting point for the conference was the vagueness of the very terms 'modernism' and 'modernity'. In the first section a group of comparatists address the theoretical and terminological problems of modernism. Practical readings of modernist writers; discussions of different modernist movements; and, the work of critics who have contributed to debates about modernism make up the second section. The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective.
