Review of the Power of Now John Smith, 2016-03-16 please note this is not original book I would say that this book is very impressively striking across the numerous situation many people are going through and wish to completely get rid of. It gives a first-hand information which sets a high goal of challenge and belief that if it happened to a person (the author) and made it from the suicidal ties, then it possible with anyone else. The book is an inspiration as every sentence in it is as important as the book itself and every time you read it, it sounds as new as original with more meanings than you had not initially perceived. This is the book you cannot afford to miss. From the above, we can clearly get the different styles and themes as proclaimed in my book. In the book I have also included an explanation of the language styles that used. Also, different themes can be derived from my book not forgetting some characters within the books who have not been mentioned in the analysis. The point is, one can make different themes and styles in addition to the ones provided in this article as it will depend on the point of view of the analyst and his or her supportive argument on the subject under consideration. It is a nice article to open up the readers thinking and appreciate the work of literature
