Discover the dark side of Charles Lindbergh--one of America's most celebrated heroes and complicated men--in this riveting biography from the acclaimed author of *The Family Romanov*. First human to cross the Atlantic via airplane; one of the first American media sensations; Nazi sympathizer and anti-Semite; loner whose baby was kidnapped and murdered; champion of Eugenics, the science of improving a human population by controlled breeding; tireless environmentalist. Charles Lindbergh was all of the above and more. Here is a rich, multi-faceted, utterly spellbinding biography about an American hero who was also a deeply flawed man. In this time where values Lindbergh held, like white Nationalism and America First, are once again on the rise, *The Rise and Fall of Charles Lindbergh* is essential reading for teens and history fanatics alike.

*Lindbergh* A. Scott Berg, 2013-08-01 Lindbergh was the first solo pilot to cross the Atlantic non-stop from New York to Paris, in 1927. This awe-inspiring flight made him the most celebrated man of his day--a romantic symbol of the new aviation age. However, tragedy struck in 1932, when his baby was kidnapped and found dead. The unbearable trial forced Lindbergh into exile in England and France. However, his soon fascination and involvement with the Nazi regime, resulted in public opinion turning against him. His life was at the forefront of pioneering research in aeronautics and rocketry. Also, his wife became one of the century's leading feminist voices. This biography explores the golden couple who have been considered American royalty.

**Flight** Robert Burleigh, 1991-01

*An American Hero* Barry Denenberg, 1996 A profile of Charles Lindbergh follows his history-making endeavors and reveals lesser-known aspects of his private life.

**Charles Lindbergh** Heather Lehr Wagner, 2003 Charles Lindbergh flew alone over the Atlantic Ocean for more than 33

hours in May 1927, becoming the first person to fly successfully from New York to Paris. That short period of time -- little more than a single day -- would forever change his life, and the future course of aviation. However, the successful transatlantic flight was only the beginning of Lindbergh's achievements. Charles Lindbergh offers a fascinating peek into the evolution of aviation -- from the early days of daredevil pilots to the successful development of commercial passenger service and the modern airports we know today. Learn more about Lindbergh's story of triumph and tragedy -- the triumph of a pioneer who dreamed of new adventures and then made them come true, and the tragedy of a solitary man burdened by sudden, overwhelming celebrity. **The Wartime Journals of Charles A. Lindbergh** Charles Augustus Lindbergh,1970 Includes index.

**We by Charles A. Lindbergh** Charles A. Lindbergh,2015-09-13 This is the autobiography of the famous flier, Charles A. Lindbergh, written almost immediately after his famous flight across the Atlantic Ocean from New York to Paris on May 20-21, 1927. This historic flight by Charles Lindbergh took him from being a little known US Postal Service Air Mail pilot and made him into one of the most famous if not the most famous person in the world. The main impetus for the flight was the \$25,000 Orteig Prize offered by the French-born New York hotelier Raymond Orteig. He offered the prize to be awarded to the pilot of the first successful nonstop flight made in either direction between New York City and Paris. The book, which was also soon translated into most major languages, remained at the top of best-seller lists well into 1928, with more than 650,000 copies sold in the first year, and earned Lindbergh more than \$250,000. The book's great commercial success was considerably aided by its publication coinciding with the start of his three-month tour of the United States in the Spirit on behalf of the Daniel Guggenheim Fund for the Promotion of Aeronautics. The nation became obsessed with Lindbergh during the tour in which he was seen in person by more than 30 million Americans, a quarter of the nation's then population. No other author before or since ever had such an extensive, highly publicized tour that helped promote a book than did Lindbergh's We of himself and the Spirit during their 22,350-mile tour of the US. He visited 82 cities in all 48 states during which the nation's nascent aviation superhero delivered 147 speeches and rode 1,290 miles in parades.

The Flight of the Century Thomas Kessner,2010-07-20 In late May 1927 an inexperienced and unassuming 25-year-old Air Mail pilot from rural Minnesota stunned the world by making the first non-stop transatlantic flight. A spectacular feat of individual daring and collective technological accomplishment, Charles Lindbergh's flight from New York to Paris ushered in the modern age of commercial aviation. In The Flight of the Century, Thomas Kessner takes a fresh look at one of America's greatest moments, explaining how what was essentially a publicity stunt became a turning point in history. Kessner vividly recreates the flight itself and the euphoric reaction to it on both sides of the Atlantic, and argues that Lindbergh's amazing feat occurred just when the world--still struggling with the disillusionment of WWI--desperately needed a hero to restore a

sense of optimism and innocence. Kessner also shows how new forms of mass media made Lindbergh into the most famous international celebrity of his time, casting him in the role of a humble yet dashing American hero of rural origins and traditional values. Much has been made of Lindbergh's personal integrity and his refusal to cash in on his fame, but Kessner reveals that Lindbergh was closely allied with, and managed by, a group of powerful businessmen--Harry Guggenheim, Dwight Morrow, and Henry Breckenridge chief among them--who sought to exploit aviation for mass transport and massive profits. Their efforts paid off as commercial air traffic soared from 6,000 passengers in 1926 to 173,000 passengers in 1929. Kessner's book is the first to fully explore Lindbergh's central role in promoting the airline industry--the rise of which has influenced everything from where we live to how we wage war and do business.

*Charles A. Lindbergh* Randy W. Roberts, David Welky, 2003-07-18 Charles Lindbergh was the biggest celebrity of the first half of the twentieth century, and the first to be exposed to the full and unrelenting glare of the modern mass media. His name and face were everywhere - on movie screens, on the radio, in books, in magazines, in newspapers - after his transatlantic flight suddenly transformed the quiet and shy young Minnesotan into a national icon. In 1927, Americans hailed their new hero as both an apostle of modernity and a bastion of traditional values. When his baby was kidnapped and killed during the lowest days of the Great Depression, the nation wondered whether it was a sign of its moral shortcomings. As World War II broke out in Europe, Lindbergh became one of the first to use his celebrity to promote a cause. His impassioned speeches against American involvement in the war illuminate the intense debate over intervention in the late 1930s. Using documents culled from a variety of sources, Roberts and Welky explore the significance observers found in Charles Lindbergh at the height of his fame and examine the power and peril of modern celebrity. In doing so, they add depth to our understanding of American interwar culture.
