Pujol,2004-01-01 Entre los temas abordados se encuentran el estudio de los principales problemas que enfrentaría Cuba en un periodo de transición, el desarrollo de una economía de mercado en el nuevo escenario, el fenómeno de la globalización y su impacto en la transición de los antiguos países comunistas, la experiencia de las privatizaciones en la Europa Central y Oriental y en América Latina, la política comercial cubana en la transición, las políticas alternativas con el excedente de mano de obra durante la transición, las principales instituciones económicas que un gobierno post-Castro tendría que crear, las reformas institucionales durante la transición, el papel de las medianas y pequeñas empresas en el futuro de Cuba, el papel de las diásporas en las economías de transición y los estudios realizados por economistas cubanos residentes en la isla y actualmente en prisión.

*Anuario Estadístico de América Latina Y El Caribe 2012* United Nations: Economic Commission for Latin America and the Caribbean,United Nations,2013-06-06 The Yearbook comprises four chapters. The first covers demographic and social indicators, reflecting special efforts to mainstream the gender perspective in statistical information. The second chapter presents economic statistics relating to trade, balance-of-payments and prices, as well as national accounts. The third chapter provides the quantitative information available on the environment. While priority is given to data from international sources, the electronic version also includes the data available and compiled by the UN on each of the countries of the region. Given the abundance of different, sometimes conflicting, data now accessible to researchers through the Internet, special attention must be paid to the data sheets on which the source of the data, their definition and coverage are specified. This information is presented in the fourth chapter, supplementing the more specific information contained in the footnotes to each of the tables of this Yearbook.

Statistical yearbook for Latin America and the Caribbean United Nations: Economic Commission for Latin America and the Caribbean,2006 This annual publication contains a range of economic and social data for the countries of the Latin America & Caribbean region. This edition contains some important modifications, both in content and design, in order to incorporate technological and statistical developments, and it is organised into four chapters covering: demographic and social indicators; economic, trade and balance-of-payments statistics as well as national accounts; the environment and

natural resources; and issues relating to methodology and metadata. An electronic version of the yearbook is presented on the accompanying CD-ROM with additional tables giving more detailed information on the economic and social situation in each country.

Cuba, ¿hacia dónde? Cristina Xalma, 2007 Intentar responder a cuestiones cómo hacia dónde va Cuba, es algo más que reflexionar sobre el pasado, el presente y el futuro de la mayor de las Antillas. De hecho, debatir sobre Cuba es sólo fijar el marco de referencia de un debate mucho más amplio: el que afecta al modo en que debe construirse una sociedad y, más específicamente, a la forma que debe adoptar el marco de instituciones políticas y económicas en el que se moverán sus ciudadanos. En este contexto, el presente libro aborda estas cuestiones y lo hace marcándose un claro objetivo: acercar al lector a la compleja y contradictoria realidad cubana de hoy, y hacerlo dando las claves que van a determinar lo que posible o, al menos, probablemente, vaya a suceder en ese país. Conforme a ello, el libro profundiza en las transformaciones socioeconómicas y políticas acontecidas en Cuba desde finales de los ochenta hasta la actualidad. Asimismo, reflexiona sobre el modo en que elementos muy diversos de la coyuntura nacional e internacional -desde el relevo generacional hasta un cambio en el color político de la Administración estadounidense- van a influir sobre el devenir de la isla. Cristina Xalma es doctora en Economía Internacional y Desarrollo Económico por la Universidad de Barcelona (UB), especializada en economía cubana. Ha participado en distintos congresos internacionales y ha publicado en varias revistas, fundamentalmente latinoamericanas. Por motivos académicos y profesionales, ha vivido durante largos periodos en Cuba y, más recientemente, en Venezuela. Asimismo, ha realizado estancias en otros países de la región, como Guatemala y Nicaragua. Actualmente trabaja como consultora para ONGD y Organismos Internacionales.
