Film Reboots Herbert Daniel Herbert, 2020-08-18 Bringing together the latest developments in the study of serial formatting practices - remakes, sequels, series - Film Reboots is the first edited collection to specifically focus on the new millennial phenomenon of rebooting. Through a set of vibrant case studies, this collection investigates rebooting as a practice that seeks to remake an entire film series or franchise, with ambitions that are at once respectful and revisionary. Examining such notable examples as Batman, Ghostbusters, and Star Trek, among others, this collection contends with some of the most important features of contemporary film and media culture today.

The Literary Filmography Leonard Mustazza, 2006-05-17 From the very infancy of the film industry, filmmakers have relied heavily upon literature as the foundation for their movie material. Well-known literary works such as Dickens's A Christmas Carol and Hawthorne's The Scarlet Letter were adapted to film in the silent era, as were such books as Thomas Dixon's Jr.'s The Klansman, basis for the film Birth of a Nation. In recent years, Nick Hornsby's About a Boy and each of Helen Fielding's Bridget Jones's Diary novels were the basis for popular movies bearing the same names. A guide to English-language works that have been adapted as theatrical and television films, this volume includes books (both fiction and non-fiction), short stories, newspaper and magazine articles and poems. Entries are arranged alphabetically by literary title with cross-listings for films made under different titles. Each entry includes the original work's title, author, year of first publication, literary prizes, and a brief plot summary. Information on film adaptation(s) of the work, including adaptation titles, director, screenwriter, principal cast and the names of the characters they portray, major awards, and availability in the most common formats (DVD, VHS), is also offered.

Neo-Gothic Narratives Sarah E. Maier, Brenda Ayres, 2020-03-31 Neo-Gothic Narratives defines and theorises what, exactly, qualifies as such a text, what mobilises the employment of the Gothic to speak to our own times, whether nostalgia plays a role and whether there is room for humour besides the sobriety and horror in these narratives across various media. What attracts us to the Gothic that makes us want to resurrect, reinvent, echo it? Why do we let the Gothic redefine us? Why do we let it haunt us? Does it speak to us through intertextuality, self-reflectivity, metafiction, immersion, affect? Are we reclaiming the history of women and other subalterns in the Gothic that had been denied in other forms of history? Are we revisiting the trauma of English colonisation and seeking national identity? Or are we simply tourists who enjoy cruising through the otherworld? The essays in this volume investigate both the readerly experience of Neo-Gothic narratives as well as their writerly pastiche.

Unplugging Popular Culture K. Shannon Howard, 2018-12-07 Unplugging Popular Culture showcases youth and young adult characters from film and television who defy the stereotype of the digital native who acts as an unquestioning devotee

to screened technologies like the smartphone. In this study, unplugged tools, or non-digital tools, do not necessitate a ban on technology or a refusal to acknowledge its affordances but work instead to highlight the ability of fictional characters to move from high tech settings to low tech ones. By repurposing everyday materials, characters model the process of reusing and upcycling existing materials in innovative ways. In studying examples such as Pitch Perfect, Supernatural, Stranger Things, and Get Out, the book aims to make theories surrounding materiality apparent within popular culture and to help today's readers reconsider stereotypes of the young people they encounter on a daily basis.

Rhetorical Audience Studies and Reception of Rhetoric Jens E. Kjeldsen,2017-11-10 This book examines the reception of rhetoric and the rhetoric of reception. By considering salient rhetorical traits of rhetorical utterances and texts seen in context, and relating this to different kinds of reception and/or audience use and negotiation, the authors explore the connections between rhetoric and reception. In our time, new media and new forms of communication make it harder to distinguish between speaker and audience. The active involvement of users and audiences is more important than ever

before. This project is based on the premise that rhetorical research should reconsider the understanding, conceptualization and examination of the rhetorical audience. From mostly understanding audiences as theoretical constructions that are examined textually and speculatively, the contributors give more attention to empirical explorations of actual audiences and users. The book will provide readers with new knowledge on the workings of rhetoric as well as illustrative and guiding examples of new methods of rhetorical studies.
