

Mark Fisher Ghosts Of My Life

Phil Hubbard

Ghosts of My Life Mark Fisher, 2014-05-30 This collection of writings by Mark Fisher, author of the acclaimed *Capitalist Realism*, argues that we are haunted by futures that failed to happen. Fisher searches for the traces of these lost futures in the work of David Peace, John Le Carre, Christopher Nolan, Joy Division, Burial and many others.

The Persistence of Melancholia in Arts and Culture Andrea Bubenik, 2019-07-04 This book explores the history and continuing relevance of melancholia as an amorphous but richly suggestive theme in literature, music, and visual culture, as well as philosophy and the history of ideas. Inspired by Albrecht Dürer's engraving *Melencolia I* (1514)—the first visual representation of artistic melancholy—this volume brings together contributions by scholars from a variety of disciplines. Topics include: *Melencolia I* and its reception; how melancholia inhabits landscapes, soundscapes, figures and objects; melancholia in medical and psychological contexts; how melancholia both enables and troubles artistic creation; and Sigmund Freud's essay *Mourning and Melancholia* (1917).

The Streaming of Hill House Kevin J. Wetmore, Jr., 2020-04-28 Netflix's *The Haunting of Hill House* has received both critical acclaim and heaps of contempt for its reimagining of Shirley Jackson's seminal horror novel. Some found Mike Flanagan's series inventive, respectful and terrifying. Others believed it denigrated and diminished its source material, with some even calling it a betrayal of Jackson. Though the novel has produced a great deal of scholarship, this is the first critical collection to look at the television series. Featuring all new essays from noted scholars and award-winning horror authors, this collection goes beyond comparing the novel and the Netflix adaptation to look at the series through the lenses of gender, architecture, education, hauntology, addiction, and trauma studies including analysis of the show in the context of 9/11 and #Me Too. Specific essays compare the series with other texts, from Flanagan's other films and other adaptations of Jackson's novel, to the television series *Supernatural*, Toni Morrison's *Beloved* and the 2018 film *Hereditary*. Together, this collection probes a terrifying television series about how scary reality can truly be, usually because of what it says about our lives in America today.

Contemporary Performance and Political Economy Katerina Paramana, 2025-02-18 *Contemporary Performance and Political Economy* examines haunting concepts, relations, and artworks that demand our attention. Under capitalism, political and ethical considerations are subordinated to economic ones, and this subordination creates ghost worlds. Performance

works, however, can offer insights into alternative politico-economic models. In this major contribution to the fields of contemporary performance and political economy, Katerina Paramana proposes that the investigation of performance works as economies can make the insights performance works offer visible. She positions the examination in relation to contemporary critiques of capitalism, neo-feudalism, and their by-products, and proposes and develops the notion of oikonomia as a means to theorize artworks which, through their house (oikos) rules (nomoi), propose ethico-political challenges to the economies in which they are embedded. For this, Paramana looks at politically positioned performance works created and presented in Cuba, Europe, Mexico, the UK, and the US. Her interest is in the politics, ethics, and effects of these works' house rules, and the insights they offer to the reconceptualization of political economy. Ultimately, this book aims to transform our understanding of economy's purpose. It contributes to the development of a new ethico-political paradigm upon which a reconceptualization of political economy can be based. This inspiring study seeks to keep the fire for change alive by demonstrating that political economies, much like performances, are experiments that can be changed. This work will be of great interest to students and scholars in performance studies, theatre, visual cultures, politics, cultural studies, dance, and visual arts, and critical theorists.

From the Ashes Sarah Jaffe, 2024-09-10 The politics of grief, in an era marked by loss, shows us how we can find our humanity once more. From one of our most vital and far-seeing social critics. Our era is one of significant and substantial loss, yet we barely have time to acknowledge it. The losses range from the personal grief of a single COVID death to the planetary disaster wrought by climate change. We are in an age of unraveling hopes and expectations, of dreams curtailed, of aspirations desiccated. What can we do? This is capitalism's death phase. It has become clear that the cost of wealth creation for a few is enormous destruction for others. The marginalized and the vulnerable have been feeling the crisis for a long time, but it is increasingly coming for all of us. At the same time, we are denied the means of mourning the futures that are being so brutally curtailed. At such a moment, taking the time to grieve is a radical act. Through in-depth reporting intertwined with memoir, Sarah Jaffe shows how public memorialization has become more than a refusal or a protest: it is a path to imagining a better world. When we are able to mourn the lives, the homes, the worlds we have lost, we are better prepared to fight for a transformed future.

Listening to Landscape Phil Hubbard, 2025-10-16 An exploration of national identity that considers how dominant, antiquated versions of Englishness are currently being challenged through contemporary, experimental, electronic music.

K-punk Mark Fisher, 2018-11-13 A comprehensive collection of the writings of Mark Fisher (1968-2017), whose work defined critical writing for a generation. This comprehensive collection brings together the work of acclaimed blogger, writer, political activist and lecturer Mark Fisher (aka k-punk). Covering the period 2004 - 2016, the collection will include some of the best writings from his seminal blog k-punk; a selection of his brilliantly insightful film, television and music

reviews; his key writings on politics, activism, precarity, hauntology, mental health and popular modernism for numerous websites and magazines; his final unfinished introduction to his planned work on Acid Communism; and a number of important interviews from the last decade. Edited by Darren Ambrose and with a foreword by Simon Reynolds.

The Weird and the Eerie Mark Fisher, 2017-01-31 A noted cultural critic unearths the weird, the eerie, and the horrific in 20th-century culture through a wide range of literature, film, and music references—from H.P. Lovecraft and Daphne Du Maurier to Stanley Kubrick and Christopher Nolan. What exactly are the Weird and the Eerie? Two closely related but distinct modes, and each possesses its own distinct properties. Both have often been associated with Horror, but this genre alone does not fully encapsulate the pull of the outside and the unknown. In several essays, Mark Fisher argues that a proper understanding of the human condition requires examination of transitory concepts such as the Weird and the Eerie. Featuring discussion of the works of: H. P. Lovecraft, H. G. Wells, M.R. James, Christopher Priest, Joan Lindsay, Nigel Kneale, Daphne Du Maurier, Alan Garner and Margaret Atwood, and films by Stanley Kubrick, Jonathan Glazer and Christopher Nolan.

The Wire, 2007

Udod 2020 Niles Jordan Breis, 2020 Anthology of short stories, prose and verse by a new generation of regional writers.

Futures Worth Preserving Andressa Schröder, Nico Völker, Robert A. Winkler, Tom Clucas, 2019 Cultures as well as individuals continually balance the demands of nostalgia and sustainability as they construct historical narratives of ›futures worth preserving‹. The aim of this volume is to explore those narratives and the underlying assumptions which inform them. Drawing on a range of disciplines from the humanities and social sciences, the chapters investigate cultural assumptions about which aspects of the past deserve to be remembered and which aspects of the present should be sustained for the future. In the process, they reveal how contemporary definitions of sustainability are informed by a nostalgic yearning for the past, and how nostalgia is motivated by a reciprocal longing to sustain the past for the future.

Post Punk Then And Now Gavin Butt, 2016-09-15 What were the conditions of possibility for art and music-making before the era of neoliberal capitalism? What role did punk play in turning artists to experiment with popular music in the late 1970s and early 1980s? And why does the art and music of these times seem so newly pertinent to our political present, despite the seeming remoteness of its historical moment? Focusing upon the production of post-punk art, film, music, and publishing, this book offers new perspectives on an overlooked period of cultural activity, and probes the lessons that might be learnt from history for artists and musicians working under 21st century conditions of austerity.

Vanity Fair, 2015

Postcapitalist Desire Mark Fisher, 2020-09-22 A collection of transcripts from Mark Fisher's final series of lectures at Goldsmiths, University of London, in late 2016. Edited with an introduction by Matt Colquhoun, this collection of lecture

notes and transcriptions reveals acclaimed writer and blogger Mark Fisher in his element -- the classroom -- outlining a project that Fisher's death left so bittersweetly unfinished. Beginning with that most fundamental of questions -- Do we really want what we say we want? -- Fisher explores the relationship between desire and capitalism, and wonders what new forms of desire we might still excavate from the past, present, and future. From the emergence and failure of the counterculture in the 1970s to the continued development of his left-accelerationist line of thinking, this volume charts a tragically interrupted course for thinking about the raising of a new kind of consciousness, and the cultural and political implications of doing so. For Fisher, this process of consciousness raising was always, fundamentally, psychedelic -- just not in the way that we might think...

The Weird and The Eerie (16pt Large Print Edition) Mark Fisher, 2017-04-28 What exactly are the Weird and the Eerie? In this new essay, Mark Fisher argues that some of the most haunting and anomalous fiction of the 20th century belongs to these two modes. The Weird and the Eerie are closely related but distinct modes, each possessing its own distinct properties. Both have often been associated with Horror, yet this emphasis overlooks the aching fascination that such texts can exercise. The Weird and the Eerie both fundamentally concern the outside and the unknown, which are not intrinsically horrifying, even if they are always unsettling. Perhaps a proper understanding of the human condition requires examination of liminal concepts such as the weird and the eerie. These two modes will be analysed with reference to the work of authors such as H. P. Lovecraft, H. G. Wells, M.R. James, Christopher Priest, Joan Lindsay, Nigel Kneale, Daphne Du Maurier, Alan Garner and Margaret Atwood, and films by Stanley Kubrick, Jonathan Glazer and Christopher Nolan.
