Chasin' the Bird Brian Priestley, 2007-05 Priestley offers new insight into Parker's career, beginning as a teenager single-mindedly devoted to mastering the saxophone through his death at 34 in such wretched condition that the doctor listed his age as 53.

**Charlie Parker, Composer** Henry Martin, 2020 Charlie Parker, Composer is the first assessment of a major jazz composer's oeuvre in its entirety. Providing analytical discussion of each of Parker's works, this study combines music-theoretical, historical, and philosophical perspectives. A variety of analytical techniques are brought to bear on Parker's compositions, including application of a revised Schenkerian approach to the music that was developed through the author's prior publications. After a review of Parker's life emphasizing his musical training and involvement in composition, the book proceeds by considering the types of Parker pieces as categorized by overall form and harmony and the amount of preplanned music they contain. The historical circumstances of each piece are reviewed, and, in some cases, sources of the ideas of the most important tunes are explored. The introduction includes a discussion of the ontology of a jazz composition. The view is advanced that the Western concept of a music composition needs to be expanded to embrace practices typical of jazz composition and forming a significant part of Parker's work. While focusing on Parker's more conventional tunes, the book also considers his large-scale melodic formulas. Two formulas in particular are arguably compositional, since they are repeated in subsequent performances of the same piece. As part of the research for this book, all of Parker's copyright submissions to the Library of Congress were examined and photographed. The book reproduces the four of them that were copied by Parker himself--

*Annual Review of Jazz Studies 14* Edward Berger, Henry Martin, Dan Morgenstern, Evan Spring, George Bassett, 2009-06-01 The Annual Review of Jazz Studies (ARJS) is a journal providing a forum for the ever expanding range and depth of jazz scholarship, from technical analyses to oral history to cultural interpretation. Addressed to specialists and fans alike, all volumes include feature articles, book reviews, and unpublished photographs. This 14th issue contains four intriguing articles that to some degree contravene accepted precepts of jazz orthodoxy. John Howland traces the connection between Duke Ellington's extended works and the 'symphonic jazz' model of the 1920s as exemplified by Paul Whiteman and

his chief arranger, Ferde Grofé. Horace J. Maxile Jr. takes an unfashionably broad perspective of Charles Mingus's 'Ecclesiastics,' applying recent developments in cultural theory as well as the formal tools of traditional music theory. Brian Priestley's exploration of the ties between Charlie Parker and popular music challenges the canonical depiction of Parker as a lone revolutionary genius, instead underscoring the saxophonist's ties to the popular music of his time. Finally, John Wriggle presents an extensive examination of the life and work of arranger Chappie Willet, an unsung hero of the Swing Era. The book reviews cover a cross-section of the burgeoning jazz literature, and Vincent Pelote has again compiled a list of books received at the Institute of Jazz Studies.

Facebook Richard Terrill,2000 Writes Richard Terrill, The name facebook derives from recognition that a jazz musician who is improvising over a set of chord changes is 'faking,' making up his or her own melody. The facebook then is a place to start, the structure upon which music is completed. For this facebook, with its improvisations that pay homage to various greats like Stan Getz, Dexter Gordon, and John Coltrane, and with its exploration of how jazz works, jazz is the place to start in coming to terms with one's limits, in music and in life. After pursuing music as a young man--backing up celebrity performers at dances and county fairs, traveling with a rhythm and blues outfit, playing low paying jazz gigs in bars and lounges--Terrill concluded he'd never make it as a full time professional saxophonist. He became a published writer of memoir, poetry, and essays, followed a career as a teacher of writing, and for ten years never touched the horn. But then he took up playing again--almost as a whim at first, a self-dare--and soon rediscovered on weekend gigs the challenges, the despair and exhilaration, that jazz had always promised him. All of this he expresses in prose that glows with feeling and self-perception and makes this book a work of literary consequence and true inspiration.

**Charlie Parker** Brian Priestley,1984 An almost overwhelming influence from the 1940s onwards, Parker's brilliance has

rarely if ever, been surpassed since his death in 1955. He came into prominence with the bands of Jay McShann, Earl Hines and Billy Eckstine. With Dizzy Gillespie and Miles Davis he made his greatest recordings. His outrageous private life tended to obscure his genius at the time, but in spite of derision from the establishment critics, it shone through and his musical influence is felt more strongly today than it was even in his own lifetime.

**Aretha** Aretha Franklin, David Ritz, 1999 America's Queen of Soul recounts the story of her life, from her childhood as a minister's daughter in Detroit to her rise to success, offering insights into the faith and determination that have taken her to the top.
