Romantic Ecocriticism Dewey W. Hall, 2016-03-15 *Romantic Ecocriticism: Origins and Legacies* is unique due to its rare assemblage of essays, which has not appeared within an edited collection before. Romantic Ecocriticism is distinct because the essays in the collection develop transnational and transhistorical approaches to the proto-ecological early environmental aspects in British and American Romanticism. First, the edition's transnational approach is evident through transatlantic connections such as, but are not limited to, comparisons among the following writers: William Wordsworth, William Howitt, and Henry D. Thoreau; John Clare and Aldo Leopold; Charles Darwin and Ralph W. Emerson. Second, the transhistorical approach of Romantic Ecocriticism is evident in connections among the following writers: William Wordsworth and Emily Bronte; Thomas Malthus and George Gordon Byron; James Hutton and Percy Shelley; Erasmus Darwin and Charlotte Smith; Gilbert White and Dorothy Wordsworth among others. Thus, Romantic Ecocriticism offers a dynamic collection of essays dedicated to links between scientists and literary figures interested in natural history.

The Cinema of Sean Penn Deane Williams, 2015-11-17 Although best known as an Academy Award winning actor, Sean Penn's directorial works *The Indian Runner* (1991), *The Crossing Guard* (1995), *The Pledge* (2001), and *Into the Wild* (2007), consist of some of the most interesting and singular films made in the United States over the past twenty years. Each of Penn's directorial films and much of the cinema he has acted in are set in an immediate past in which a stalled time and a restricted locale apply narrative constraints. At the same time, these films all feature a sophisticated web of intertextual relations, involving actors, songs, books, films, and directors, and the political lineage to which Penn belongs, which reveal the deep cultural structures that concern each particular film.

Missouri's Confederate Christopher Phillips,2000 While most rural Missourians were proslavery, their southernization transcended such boundaries, with southern identity becoming a means by which residents sought to reestablish local jurisdiction in defiance of federal authority during and after the war. This identification, intrinsically political and thus ideological, centered - and still centers - upon the events surrounding the Civil War, whether in Missouri or elsewhere. By positioning personal and political struggles and triumphs within Missourians' shifting identity and the redefinition of their collective memory, Phillips reveals the complex process by which these once Missouri westerners became and remain Missouri southerners.--Jacket.
