*Social Enterprise in Latin America* Luiz Inácio Gaiger,Marthe Nyssens,Fernanda Wanderley,2019-05-22 In the absence of a widely accepted and common definition of social enterprise (SE), a large research project, the International Comparative Social Enterprise Models (ICSEM) Project, was carried out over a five-year period; it involved more than 200 researchers from 55 countries and relied on bottom-up approaches to capture the SE phenomenon. This strategy made it possible to take into account and give legitimacy to locally embedded approaches, thus resulting in an analysis encompassing a wide diversity of social enterprises, while simultaneously allowing for the identification of major SE models to delineate the field on common grounds at the international level. These SE models reveal or confirm an overall trend towards new ways of sharing the responsibility for the common good in today's economies and societies. We tend to consider as good news the fact that social enterprises actually stem from all parts of the economy. Indeed, societies are facing many complex challenges at all levels, from the local to the global level. The diversity and internal variety of SE models are a sign of a broadly shared willingness to develop appropriate although sometimes embryonic—responses to these challenges, on the basis of innovative economic/business models driven by a social mission. In spite of their weaknesses, social enterprises may be seen as advocates for and vehicles of the general interest across the whole economy. Of course, the debate about privatisation, deregulation and globalised market competition—all factors that may hinder efforts in the search for the common good—has to be addressed as well. The second of a series of four ICSEM books, *Social Enterprise in Latin America* will serve as a key reference and resource for teachers, researchers, students, experts, policy makers, journalists and other categories of people who want to acquire a broad understanding of the phenomena of social enterprise and social entrepreneurship as they emerge and develop across the world.

Anarchism and Syndicalism in the Colonial and Postcolonial World, 1870-1940 ,2010-11-11 Narratives of anarchist and syndicalist history during the era of the first globalization and imperialism (1870-1930) have overwhelmingly been constructed around a Western European tradition centered on discrete national cases. This parochial perspective typically ignores transnational connections and the contemporaneous existence of large and influential libertarian movements in Africa, Asia, Latin America, and Eastern Europe. Yet anarchism and syndicalism, from their very inception at the First International, were conceived and developed as international movements. By focusing on the neglected cases of the colonial and postcolonial world, this volume underscores the worldwide dimension of these movements and their centrality in anti-colonial and anti-imperialist struggles. Drawing on in-depth historical analyses of the ideology, structure, and praxis of anarchism/syndicalism, it also provides fresh perspectives and lessons for those interested in understanding their resurgence today. Contributors are Luigi Biondi, Arif Dirlik, Anthony Gorman, Steven Hirsch, Dongyoun Hwang, Geoffroy de Laforcade, Emmet O'Connor, Kirk Shaffer, Aleksandr Shubin, Edilene Toledo, and Lucien van der Walt. With a foreword by Benedict Anderson.
