Australian Sign Language (Auslan) Trevor Johnston, Adam Schembri, 2007-01-18 This is first comprehensive introduction to the linguistics of Auslan, the sign language of Australia. Assuming no prior background in language study, it explores each key aspect of the structure of Auslan, providing an accessible overview of its grammar (how sentences are structured), phonology (the building blocks of signs), morphology (the structure of signs), lexicon (vocabulary), semantics (how meaning is created), and discourse (how Auslan is used in context). The authors also discuss a range of myths and misunderstandings about sign languages, provide an insight into the history and development of Auslan, and show how Auslan is related to other sign languages, such as those used in Britain, the USA and New Zealand. Complete with clear illustrations of the signs in use and useful further reading lists, this is an ideal resource for anyone interested in Auslan, as well as those seeking a clear, general introduction to sign language linguistics.

The SAGE Deaf Studies Encyclopedia Genie Gertz, Patrick Boudreault, 2016-01-05 The time has come for a new in-depth encyclopedic collection of articles defining the current state of Deaf Studies at an international level and using the critical and intersectional lens encompassing the field. The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge of social sciences (including but not limited to Deaf History, Deaf Culture, Signed Languages, Deaf Bilingual Education, Deaf Art, and more) have served to expand the activities of research, teaching, analysis, and curriculum development. The field has experienced a major shift due to increasing awareness of Deaf Studies research since the mid-1960s. The field has been further influenced by the Deaf community's movement, resistance, activism and politics worldwide, as well as the impact of technological advances, such as in communications, with cell phones, computers, and other devices. A major goal of this new encyclopedia is to shift focus away from the "Medical/Pathological Model" that would view Deaf individuals as needing to be "fixed" in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society. By contrast, The Deaf Studies Encyclopedia seeks to carve out a new and critical perspective on Deaf Studies with the focus that the Deaf are not a people with a disability to be treated and "cured" medically, but rather, are members of a distinct cultural group with a distinct and vibrant community and way of being.

The Signs and Symbols of Primordial Man Albert Churchward,1913 Albert Churchward's famous study of Ancient Egyptian myths and symbology reveals how their mythological culture evolved over thousands of years, influencing other civilizations. The author was among the first Western scholars to investigate the connection between the religious symbols, deities and traditions of Egypt, and those which emerged in later societies. By studying the hieroglyphic texts preserved in the monuments and papyrus of the Egyptian society, Churchward uncovered the origins of legendary stories, the roles of Gods like Horus and Ptah, and the emergence of important symbols such as the triangle, cross and swastika. The religious and cultural influence of this ancient society, whose dynasties stretched across millennia, is revealed to be of staggering magnitude. This book pieces together the connections between Egyptian lore and that of the Hebrews, the Freemasons, the Mayans and various tribal societies. The depth of Churchward's enquiry is enormous; hundreds of drawings, symbols, and photographs accompany the narrative, that the reader may discover the myriad connections and wide-ranging influence of the Egyptians from antiquity onward. Frequent quotations and cites of accomplished workers in the field of Egyptology, such as Dr. Wallis Budge and Gerald Massey, further support the points established.

Women Who Light the Dark Paola Gianturco,2007-07 Across the world, local women are helping one another tackle problems that darken their lives - poverty, disease, discrimination, illiteracy, inequality. They possess a precious resource: imagination. Photojournalist Paola Gianturco takes readers on a journey - climbing Annapurna, eating lunch while soldiers carry sandbags to a roof, watching a healer at work, welcoming babies to the world. Her images are of 129 women from 15 countries and describe their lives, dreams and work.

Matters of the Heart Jacinta Nampijinpa Price, 2025-02-01 The moving story of an Indigenous woman who beat disadvantage and violence to become one of Australia's most influential political voices. Jacinta Nampijinpa Price was nine months pregnant and due to give birth the night she attended her high school formal. With her baby tucked in her arms, she completed year 12 from her hospital bed. Early in their relationship, she took her future husband, Colin, to the Alice Springs morgue to identify the body of a family member who'd been killed. Nothing about the life of this passionate and steely Warlpiri woman could ever be described as ordinary. In this remarkable memoir, Jacinta Nampijinpa Price candidly recalls her journey from the remote outback communities of Yuendumu and Alice Springs in the Northern Territory - a young girl with big dreams and the red dust of her ancestors under her fingernails - to the corridors of Canberra and beyond. Honest, raw and at times heartbreaking, **Matters of the Heart** is a deeply personal reflection of how a young Indigenous woman, growing up surrounded by violence and tragedy, beat the odds to become one of the most powerful political voices of our time. 'I've been to hell and back, and I've survived.'
