Alexander Ortiz Ocaña,

Psicopatología de la violencia Eric García-López, El estudio de la huella de la memoria o los aportes de la neurociencia a la justicia restaurativa dan buena prueba del grado de sofisticación y amplitud que han alcanzado las ciencias sociales y del comportamiento. Por lo que Psicopatología de la violencia: aspectos jurídicos y evaluación criminológica hace excelentes aportaciones sobre la política criminal y se interroga sobre el modelo de la persona que está en la base de la valoración forense en el sistema penal, entre otros temas. Este volumen es una suma de su primer parte, Psicopatología de la violencia: repercusiones forenses. Ambos libros hacen del estudio de la psicopatología un gran aporte en la investigación interdisciplinaria (criminología, psicología, psiquiatría, neurociencias, derecho, trabajo social, derechos humanos, victimología, neuroimagen, estadística, entre otros), al tiempo que evalúan y trabajan el reto de aprender lo más “pequeño” (cómo funciona el cerebro en la toma de decisiones) y unirlo a lo más grande (la política criminal en el marco de las relaciones entre naciones). Es sin duda un aporte que el área de criminología, profesionales de psicopatología forense y psicología jurídica no pueden perderse.

Ejercicios para el desarrollo de la asignatura de competencia critica Ríos Ríos, Aura Josefina, Gómez Acosta, Carlos Andrés, 2009-07-16 Este texto tiene como objetivo presentar una propuesta para el desarrollo de esta habilidad en los estudiantes de Medicina y Ciencias de la Salud y en general de estudiantes de educación superior. Contempla dos escenarios: uno relacionado con los supuestos teóricos que soportan el desarrollo de competencias cognitivas en este caso la capacidad para pensar críticamente para formular preguntas pertinentes de manera clara y concisa y otro con la puesta en práctica de estos conocimientos; es decir la guía conduce al estudiante desde la valoración de sus propias habilidades para el pensamiento crítico pasando por la reflexión acerca de qué son éstas hasta llegar a la puesta en escena de las competencias tanto en esta asignatura como en otras y en la vida cotidiana. Para esto el documento entrega cinco talleres con ejemplos que ofrecen sólo esto: ejemplos. Cada docente puede buscar sus propios pre textos (películas artículos libros documentales entre otros) para su puesta en práctica. Igualmente tratándose del desarrollo de la competencia crítica se sugiere que las

situaciones académicas seleccionadas superen los puramente descriptivo/explicativo de manera que constituyan verdaderos potenciadores de habilidades cognitivas comunicativas y lingüísticas de nivel superior. Esta colección presenta textos académicos sobre problemáticas relacionadas con el proceso de enseñanza integral. Busca también ofrecer a los estudiantes diversos elementos de reflexión que les permita comprender algunos de los temas más relevantes de su proceso de formación profesional.

Conecta Gallo Amy, 2023-01-23 Conecta te plantea estas preguntas: ¿Por qué no puedes dejar de pensar en ese mensaje de e-mail tan desagradable? ¿Qué hay detrás del comportamiento de un compañero de trabajo problemático? ¿Cómo puedes arreglar las cosas si no hay cooperación? Lo has intentado todo, ¿y ahora qué? Las relaciones profesionales pueden ser complicadas. El estrés de tratar con personas difíciles disminuye nuestra creatividad y productividad, degrada nuestra capacidad de pensar con claridad y de tomar las decisiones acertadas. Es posible quedarse desvelado por la noche debido a la preocupación, que nos apartemos del trabajo o que reaccionemos de una manera que más tarde lamentaremos: poniendo los ojos en blanco en una reunión, contestando bruscamente a los compañeros o guardando silencio cuando deberíamos hablar, y sonreímos y soportamos como si no tuviéramos otra opción. Si te encuentras en esta situación, este libro es para ti. Amy Gallo identifica ocho perfiles de compañeros de trabajo que son difíciles y nos ofrece diversas estrategias adaptadas para tratar constructivamente con cada uno de ellos. Saber cuál es el camino correcto no es fácil, pero Gallo nos brinda una perspectiva crucial sobre cómo las relaciones en el trabajo realmente importan, así como la compasión, el estímulo y las herramientas útiles para prevalecer en tu trabajo sin necesidad de cambiar.

Familia, cultura y educación Lluís Samper Rasero, 2000 A partir del estudio de los cursos domésticos de dos poblaciones de la comarca del Priorat (Cataluña), este trabajo pretende mostrar la diversidad de una misma comunidad. Para ello, se estudian las variaciones de las formas de residencia en función de las transformaciones económicas y demográficas, en el contexto de una comarca vinícola que ha conocido a lo largo de los dos últimos siglos un incremento demográfico y una gran disminución demográfica.

Evaluación infantil Jerome M. Sattler, 2009-08-30 Ofrece información amplia y detallada sobre los retos que enfrenta el profesional al hacer evaluaciones, las competencias que éste debe desarrollar cuando realiza entrevistas; así como los aspectos éticos y legales básicos que debe conocer para desempeñar adecuadamente su trabajo. Asimismo, incluye un capítulo que explica de manera clara y precisa los conceptos estadísticos generales que son necesarios para entender e interpretar las Escalas que se presentan en esta obra. Sin embargo, la principal aportación de esta obra es la descripción

detallada de las Escalas Wechsler de Inteligencia: WISC-IV, WPPSI-III, WAIS-III; la Escala de Inteligencia Stanford Binet (SB5), y la Escala Diferencial de Habilidades (EDH-II). Para cada Escala se dedican capítulos donde se describen conceptos estadísticos como validez, confiabilidad y análisis factorial que fundamentan las subpruebas; explicación de las capacidades subyacentes a cada una de las subpruebas que componen las escalas y pautas para la interpretación de la información obtenida mediante las Subpruebas, Índices, Cocientes o CI. Finalmente, el texto ofrece una valiosa guía para uno de los mayores desafíos del evaluador profesional: la correcta redacción del reporte psicológico.
