The Violinist ,1914

Classical and Romantic Music David Milsom,2017-07-05 This volume brings together twenty-two of the most diverse and stimulating journal articles on classical and romantic performing practice, representing a rich vein of enquiry into epochs of music still very much at the forefront of current concert repertoire. In so doing, it provides a wide range of subject-based scholarship. It also reveals a fascinating window upon the historical performance debate of the last few decades in music where such matters still stimulate controversy.

**And in the End** Sumit Mullick,1901 Is there evidence of some kind of existence beyond death, or is death the final destination...the end of everything? Ajit Singh, the custodian of the laws that govern the very fundamental basis of matter - atoms and subatomic particles, delves deep into the quantum world, which is at the essence of every component of the universe. Ajit discovers through his scientific research that death cannot exist in Quantum Physics and eventually decides on a radical option to prove his conviction to himself and the world. A remarkable scientific journey, explaining the mysteries of time and space, across multiple universes and across infinity, to discover the answers to the ultimate questions confronting us all - about life and death, and what could be in store for us beyond death. A saga with characters in real life situations, dilemmas, romantic liaisons, around whom the weird, counter-intuitive, concepts of the quantum world and astrophysics are enmeshed. But what remains to be seen is whether Ajit could prove what is there in the science and maths, or whether his sacrifice was in vain.
