Aristóteles - La Ética de la Excelencia Inteligencia Latina, 2025-07-25 Descubre la sabiduría práctica del filósofo más sistemático de la historia occidental en esta exploración profunda y accesible del pensamiento aristotélico desde una perspectiva latinoamericana contemporánea. Este tercer volumen de la colección Maestros del Pensamiento Universal presenta a Aristóteles de Estagira (384-322 a.C.) no solo como el discípulo de Platón y maestro de Alejandro Magno, sino como el arquitecto intelectual cuyas ideas sobre la ética, la política, la lógica y la naturaleza humana siguen siendo fundamentales para navegar los desafíos del siglo XXI. ¿Qué encontrarás en este libro? • Biografía completa: Desde sus primeros años en Estagira hasta la fundación del Liceo, explorando cómo sus experiencias formaron su pensamiento revolucionario • Sistema filosófico integral: Análisis profundo de su lógica, metafísica, ética de la virtud, teoría política y estética, presentados de manera clara y práctica • Conceptos clave aplicados: Las cuatro causas, la teoría del acto y potencia, el justo medio, las formas de gobierno y la verdadera naturaleza de la felicidad (eudaimonía) • 47 frases originales: Cuidadosamente seleccionadas y analizadas desde la perspectiva de Inteligencia Latina, conectando la sabiduría antigua con los retos contemporáneos de América Latina • Aplicación contemporánea: Cómo los principios aristotélicos iluminan dilemas modernos en liderazgo, educación, política, ética empresarial y desarrollo personal Aristóteles nos enseña que la excelencia no es un acto sino un hábito, que la felicidad verdadera es actividad virtuosa, y que los seres humanos somos animales políticos que nos realizamos en comunidad. En un continente donde la búsqueda del equilibrio entre tradición y modernidad, entre lo individual y lo colectivo sigue siendo central, las enseñanzas aristotélicas ofrecen herramientas invaluable para construir sociedades prósperas y virtuosas. Este volumen combina rigor académico con aplicabilidad práctica, ofreciendo tanto comprensión histórica como relevancia contemporánea. Ideal para estudiantes, profesionales, líderes y cualquier persona interesada en desarrollar la sabiduría práctica (phronesis) necesaria para tomar decisiones correctas en situaciones complejas. Edición Inteligencia Latina - Donde la sabiduría milenaria encuentra su aplicación en el contexto latinoamericano

del siglo XXI.

Manual de Ciencia Política: herramientas para la comprensión de la disciplina Daniel Bello, Esteban Valenzuela, 2024-10-01 Con el objetivo de mostrar los aportes de la Ciencia Política, los autores nos proponen, a través de una revisión histórica y una completa compilación de ensayos, conocer los alcances y las herramientas que fundamentan la disciplina en torno a los sistemas políticos, su influencia en el Estado en América Latina, su visión respecto a las corrientes políticas más influyentes, la presencia en los sistemas electorales y su surgimiento como ciencia «realmente existente». Se presenta como un libro imprescindible para entender y situar la importancia de esta ciencia en el desarrollo de las naciones y sus políticas, entregando claves para comprender sus alcances y desentramar su propia evolución en torno a los hechos que ocurren a diario.

El libro de la política (The Politics Book) DK, 2017-05-23 Grandes ideas, explicaciones sencillas Con un lenguaje claro, El libro de la política ofrece concisas explicaciones que desbrozan la jerga académica, esquemas que hacen sencillas las teorías más complejas e ingeniosas ilustraciones que juegan con nuestra comprensión de la política. ¿Debe ser derrocado

un gobernante injusto? ¿Es la democracia la mejor forma de gobierno? ¿Puede ser justa una guerra? A lo largo de la historia, estas y otras preguntas acerca de cuál es el mejor modo de gobernarnos han suscitado respuestas de grandes pensadores que hoy siguen dando forma al mundo. La política explicada de forma sencilla ¿Crees que la política existiría si todos pudiéramos tener lo que queremos cuando lo queremos? Sea cual fuere el significado exacto de esa actividad compleja llamada política -y, como expone este libro, se ha entendido de muchas formas distintas-, está claro que la experiencia humana nunca nos da todo lo que queremos. Hemos de competir, esforzarnos, pactar y, a veces, luchar por ello. Al hacerlo creamos un lenguaje para explicar y justificar nuestras demandas y para retar, contradecir o responder a las demandas de los demás. Este lenguaje podría ser, o bien un lenguaje de intereses, ya sean individuales o grupales, o bien de valores, como en el caso de los derechos y las libertades o de la igualdad y la justicia. Pero, desde sus inicios, lo primordial de la actividad política es la creación de ideas y conceptos políticos que nos ayuden a exigir y defender nuestros intereses. La defensa de intereses ha mutado a lo largo de los años y así lo ha hecho la ciencia de la política. Tanto el neófito como el estudiante o el experto aficionado encontrarán en este libro de política en español numerosos contenidos de su interés a través de los siguientes capítulos: • El pensamiento político en la antigüedad. 800 A.C.-30 D.C. • Política medieval. 30-515. • Racionalismo e ilustración. 1515-1770. • Ideas revolucionarias. 1770-1848. • La rebelión de las masas. 1848-1910. • Choque de ideologías. 1910-1945. • La política de posguerra. 1945-presente. El libro de la política, pertenece a la galardonada serie Grandes Ideas explica temas complejos de un modo fácil de entender mediante explicaciones claras y alejándose del academicismo tradicional. Su creativo diseño y los gráficos innovadores que acompañan al texto hacen de esta serie una introducción perfecta a una gran diversidad de materias para toda la familia.
