Hit Makers Derek Thompson,2017-02-07 “Enthralling—full of ‘aha’ moments about why some ideas soar and others never get off the ground. This book picks up where The Tipping Point left off. —Adam Grant Nothing “goes viral.” If you think a popular movie, song, or app came out of nowhere to become a word-of-mouth success in today’s crowded media environment, you’re missing the real story. Each blockbuster has a secret history—of power, influence, dark broadcasters, and passionate cults that turn some new products into cultural phenomena. Even the most brilliant ideas wither in obscurity if they fail to connect with the right network, and the consumers that matter most aren’t the early adopters, but rather their friends, followers, and imitators—the audience of your audience. In his groundbreaking investigation, Atlantic senior editor Derek

Thompson uncovers the hidden psychology of why we like what we like and reveals the economics of cultural markets that invisibly shape our lives. Shattering the sentimental myths of hit-making that dominate pop culture and business, Thompson shows quality is insufficient for success, nobody has good taste, and some of the most popular products in history were one bad break away from utter failure. It may be a new world, but there are some enduring truths to what audiences and consumers want. People love a familiar surprise: a product that is bold, yet sneakily recognizable. Every business, every artist, every person looking to promote themselves and their work wants to know what makes some works so successful while others disappear. Hit Makers is a magical mystery tour through the last century of pop culture blockbusters and the most valuable currency of the twenty-first century—people’s attention. From the dawn of impressionist art to the future of Facebook, from small Etsy designers to the origin of Star Wars, Derek Thompson leaves no pet rock unturned to tell the fascinating story of how culture happens and why things become popular. In Hit Makers, Derek Thompson investigates: * What Taylor Swift, the printing press, and the laugh track have in common * The secret link between ESPN's sticky programming and the The Weeknd's catchy choruses * How advertising critics predicted Donald Trump * The 5th grader who accidentally launched Rock Around the Clock, the biggest hit in rock and roll history * How Barack Obama and his speechwriters think of themselves as songwriters * How Disney conquered the world—but the future of hits belongs to savvy amateurs and individuals * The French collector who accidentally created the Impressionist canon * Quantitative evidence that the biggest music hits aren't always the best * Why almost all Hollywood blockbusters are sequels, reboots, and adaptations * Why one year--1991--is responsible for the way pop music sounds today * Why another year --1932--created the business model of film * How data scientists proved that “going viral” is a myth * How 19th century immigration patterns explain the most heard song in the Western Hemisphere

A Charter School Principal's Story Barbara Smith,2017-12-05 What happens when a Canadian principal, guided by the teachings of Fullan and Hargreaves, takes on the role of school leader in an inner-city charter school in the United States? This inside story of a principal in the DC charter school system, reveals much about the desire for educators and students to experience more than a life of multiple-choice testing that tends to be so commonplace in these schools. While such a case adds to the mound of research that supports the ‘change takes time’ findings, it nevertheless demonstrates the reality, on a day-to-day basis, of what’s worth fighting for in schools. Student and teacher engagement and empowerment matter, and to get to such ends, a school must fiercely focus on targets well beyond test scores. This book speaks about how a budget reveals school values, and by shifting resources to support staff and student development, a school, coping with regular

turnover, can be filled with more confident and capable community members. A school crawling with leaders emerged as more student, teacher and non-instructional staff were supported in new roles, aimed at building an inspired culture, with the talent and capacity to move others to action. The old ways of 'doing school' do not address the needs of the 21st century learner, and while many forces with limited views of education were at play, this story does provide an example of what promising things can and should happen to increase engagement and learning in more charter schools across America. "Dr. Barbara Smith's narrative of her times in public charter schools offers all of us insights into the struggle to create schools of high academic quality and compassionate care, worthy of her educational mandate and mission." - David Booth, Professor Emeritus, The Ontario Institute for Studies in Education, University of Toronto "Dr. Smith's message inspires me to be an advocate for education and her work will inspire you as well!" - Jalen Rose, Chair of Board of Directors, Jalen Rose Leadership Academy, Detroit, Michigan, ESPN Commentator "This inside look provides an opportunity for innovation in a field that has held to aging standards for far too long!" - Diane C. Manica, Former Director, Leadership and Accreditation, University of Detroit Mercy

CyberLit Marilyn Dover Newman,2004 Elementary school media specialists and teachers routinely use children's picture books in their lessons. These books add depth and vitality to the curriculum because they are written and illustrated by some of the world's most gifted writers and artists. Yet, educators are finding it increasingly harder to insert this pleasant and important activity into the busy school day due to increased pressures to improve test scores, to implement a standards-driven curriculum, and to stay abreast of new technologies to deliver instruction. This book helps educators continue to incorporate literature into the school day in spite of these obstacles. CyberLit is a book for those who work with, or teach others who work with, children in the primary grades. It is for those who use trade books to supplement and enhance health, science, creative writing, history, geography, reading, math, language arts, character education, multicultural studies, holidays, citizenship, and the fine arts. It's for those who love children's literature and book illustration. With this book, you no longer need to get lost in cyberspace! The information has already been searched, collected, assessed, and compiled. Easily accessible and at your fingertips, this directory can help you to get biographical information about authors and illustrators, and to learn how they get ideas for stories, how illustrations are created, how to extend the books into the curriculum, and where to find time-saving lesson plans and book-related activities for classroom projects and units. These outstanding websites of children's authors, illustrators, and storybook characters were selected based on their educational value and for the fact that they contain a minimum of commercialization. They are exemplary examples of authors, publishers, and scholars who understand and acknowledge the roles of teachers and librarians. Like little gems in cyberspace, they go beyond the ordinary content for busy educators.
