A to Zoo Rebecca L. Thomas, 2018-06-21 Whether used for thematic story times, program and curriculum planning, readers' advisory, or collection development, this updated edition of the well-known companion makes finding the right picture books for your library a breeze. Generations of savvy librarians and educators have relied on this detailed subject guide to children's picture books for all aspects of children's services, and this new edition does not disappoint. Covering more than 18,000 books published through 2017, it empowers users to identify current and classic titles on topics ranging from apples to zebras. Organized simply, with a subject guide that categorizes subjects by theme and topic and subject headings arranged alphabetically, this reference applies more than 1,200 intuitive (as opposed to formal catalog) subject terms to children's picture books, making it both a comprehensive and user-friendly resource that is accessible to parents and teachers as well as librarians. It can be used to identify titles to fill in gaps in library collections, to find books on particular topics for young readers, to help teachers locate titles to support lessons, or to design thematic programs and

story times. Title and illustrator indexes, in addition to a bibliographic guide arranged alphabetically by author name, further extend access to titles.

Adventuring with Books: A Booklist for Pre-K National Council of Teachers of English, Urbana, IL, 2000 Books that expand children's horizons and stimulate their imaginations are the focus of this 12th edition, an annotated bibliography of selected children's books published between 1996 and 1998. The 20 chapters in the book contain traditional and nontraditional categories of literature: Stories of the Universe: From Questions and Observations to Discoveries and Inventions; Our Changing World; Exploring Our Past; Families; Struggle and Survival; School Life; Literacy; Picture Books; Mathematics; Poetry; Fine Arts; Sports, Games, and Hobbies; The Craft of Language: Passages, Profiles, and Puzzles; Fantasy Literature: Making the Impossible Possible; African and African American Voices and Experiences; Asian, Asian American, and Hawaii Pacific Voices and Experiences; Hispanic/Latino, Hispanic American, and Latino American Voices and Experiences; Native American Voices and Experiences; Gender Issues: Spunky, Clever, Caring, and Endearing Girls and Boys in Children's Literature; and Supporting Critical Conversations in Classrooms. New to this edition are extensive reviews of selected books, giving additional information on children's comments and reactions, ways the books have been used in the classroom, and other ideas about sharing the books with children. Introductions to each chapter (by the teachers, librarians, university faculty, school-age and university students, and parents who collaborated in choosing the books) share their processes, the issues they dealt with, and the decisions they made about the books in their section. Books are indexed by author, illustrator, subject, and title. (RS)
