The Works of the British Dramatists ... Selected from the Best Editions, with ... Notes, Biographies, and a Historical Introduction Sir John Scott Keltie,1870

Dear Sarah Coralou Peel Lassen,1999-11-22 An epistolary portrait of the life and times of a Civil War soldier and family man as he transformed from simple Michigan country boy to seasoned fighter. Cpl. John H. Pardington, a member of the 24th Michigan Infantry of the famous Iron Brigade, was an articulate and observant soldier. The 80 letters collected in this volume are filled with patriotic dedication to the Union cause, longing for his wife and baby, details of camp life, and reflections on the Battle of Fredericksburg, the Battle of Chancellorsville, and other engagements. Their intimacy and warmth are made even more poignant by the knowledge that Pardington will be killed at the Battle of Gettysburg. Pardington reveals the stresses of war and comments on the heroics of everyday life, whether at home or on the battlefield. In messages to his sister and father-in-law, he shares his opinions of President Lincoln and the changing leadership of the Army of the Potomac, as well as his hopes for the outcome of the war. Full of wisdom and insight, this collection draws back the curtains on an ordinary life during the most extraordinary of times.

The Armed Forces and American Social Change Troy Mosley, 2021-10-04 The Armed Forces and American Social Change is a powerful depiction of black Americans' struggle for equality told through the lens of uniformed military service. Troy Mosley uses superb storytelling, personal vignettes, and historical examples to show how millions of Americans have lifted themselves from oppression through opportunities gleaned from military service. Collectively, these efforts exerted positive outward pressure on American society, which by and large has resisted social change. One unique aspect of combat is that rarely are Americans more equal than when thrust into harm's way. It has been said there are no atheists in combat; similarly, racism, sexism, and homophobia quickly go by the wayside when under enemy fire. Yet in the 19th century and well into the 21st, America's military policies regarding the use of manpower could best be described as an awkward attempt to balance the requirement to win the nation's wars while supporting a socio-political caste system. President Harry Truman signed Executive Order 981 on July 26, 1948 in response to police violence perpetrated against black veterans. His actions broke this trend and set the military on the path toward true meritocracy. Today, retired General Lloyd Austin is the first black American Secretary of Defense in part due to the barriers broken down by those who served before him. The armed services fiercely resisted integration, gender equality, and LGBTQ equality, but over time have grown to value America's wellspring of diversity as a strategic and operational advantage. Under the Trump administration, many military policies supporting transgender inclusion were reversed. This reversal thrust the U.S. military, among other institutions, into the ideological tug of war that lies at the heart of present-day polarization in American society. This ideological divide is the crux of the public discourse surrounding Critical Race Theory, America's racist and sexist past, and how we contextualize our history going forward for the betterment of the nation. As far as America has come, we still have work to do for Truman's vision of equality of opportunity to become a reality for all Americans. Join this thought-provoking narrative that celebrates brave American military pioneers and challenges us all to continue pushing for a better expression of America.
