One Rough Man Brad Taylor, 2011-02-17 The first Pike Logan novel from New York Times bestselling author Brad Taylor. They call it the Taskforce. Commissioned at the highest level of the U.S. government. Protected from the prying eyes of Congress and the media. Designed to operate outside the bounds of U.S. law. Trained to exist on the ragged edge of human capability. Pike Logan was the most successful operator on the Taskforce, his instincts and talents unrivaled—until personal tragedy permanently altered his outlook on the world. Pike knows what the rest of the country might not want to admit: The real threat isn't from any nation, any government, any terrorist group. The real threat is one or two men, controlled by ideology, operating independently, in possession of a powerful weapon. Buried in a stack of intercepted chatter is evidence of two such men. The transcripts are scheduled for analysis in three months. The attack is mere days away. It is their bad luck that they're about to cross paths with Pike Logan. Because Pike Logan has nothing left to lose.

Ring of Fire Brad Taylor, 2017-12 Former Delta Force officer and New York Times bestselling author Brad Taylor delivers a relentlessly fast-paced, gripping thriller featuring Taskforce operators Pike Logan and Jennifer Cahill as they come face-to-face with an insidious threat to strike terror into the heart of America. Fifteen years ago, in order to win a contract in the Kingdom, a desperate defense contractor used a shell company to provide a bribe to a wealthy Saudi businessman. Now a powerful player in the defense industry, he panics when the Panama Papers burst onto the public scene. Providing insight into the illicit deeds of offshore financing, they could prove his undoing. To prevent the exposure of his illegal activities, he sets in motion a plan to interdict the next leak, but he is not the only one worried about spilled secrets. The data theft has left the Taskforce potentially vulnerable, leaving a trail that could compromise the unit. Back in the good graces of the new president, Pike Logan and Jennifer Cahill are ordered to interdict the next leak as well, in order to control the damage. Unbeknownst to either group, the Saudi has been using the shell company to fund terrorists all over the world, and he has a spectacular attack planned, coinciding with the fifteenth anniversary of 9/11. The information Pike and Jennifer uncover will put them on the trail of the imminent threat, but it's one that they might be unable to stop. Called Ring of Fire, it will cause unimaginable destruction across the United States, and it's already in motion. Pike Logan will be challenged like never before, and the ensuing chaos and terror will distract the Taskforce from a truth no one sees: The Panama Papers hold a secret more explosive than any attack, and Ring of Fire was only the beginning. The danger is far from over--lcProvided by

Hunter Killer Brad Taylor, 2020-01-07 Pike Logan tracks highly-trained Russian assassins to Brazil in this blistering, action-packed thriller from New York Times bestselling author and former Special Forces Officer Brad Taylor. “It’s an excellent read, and I greatly enjoyed it.” —Nelson DeMille Pike Logan and the Taskforce were once the apex predators, an unrivaled hunting machine that decimated those out to harm the United States, but they may have met their match. While Pike Logan and Jennifer Cahill prepare to join their team on a counter-terrorist mission in the triple frontier—the lawless tri-border region where Argentina, Brazil, and Paraguay meet—they are targeted in Charleston, South Carolina. A vicious explosion kills a friend, and the perpetrators have set it up to look like an accident. While the authorities believe this was not foul play, Pike knows the attack was meant for him. When he loses contact with the team in South America, Pike is convinced he and the Taskforce are under assault. His men are the closest thing to family that Pike has, which means he will do anything, even ignore direct orders to stand down, to find them. Pike and Jennifer head to Brazil to investigate their disappearance and run headlong into a crew of Russian assassins. Within days they are entangled in a byzantine scheme involving Brazilian politics and a cut-throat battle for control of offshore oil fields. Forged in combat, the Russians are the equal of anything the Taskforce has encountered before, but they make a mistake in attacking Pike’s team, because Pike has a couple of elite Israeli assassins of his own. And Pike will stop at nothing to protect his family.

Ghosts of War Brad Taylor, 2017-08-29 World war is on the horizon in New York Times bestselling author Brad Taylor’s tenth heart-pounding Pike Logan thriller. The Taskforce has stopped countless terrorist threats across the globe, operating outside of US law to prevent the death of innocents. But now, along the fault lines of the old Iron Curtain, the danger is far greater than a single attack. With Russia expanding its influence from Syria to the Baltic States, the Taskforce is placed on stand-down because of the actions of one rogue operator. Meanwhile, Pike Logan and Jennifer Cahill travel to Poland, hired to verify artifacts hidden for decades in a fabled Nazi gold train, only to find themselves caught amid growing tensions between East and West. A Russian incursion into Belarus under the facade of self-defense is trumped by a horrific attack against the United States, driving NATO to mobilize even as it tries to determine who is behind the strike. On the brink of war, Pike and Jennifer discover that there is a separate agenda in play, one determined to force a showdown between NATO and Russia. With time running out, and America demanding vengeance, Pike and Jennifer race to unravel the mystery before a point of no return is reached. Unbeknownst to them, there is another attack on the way. One that will guarantee World War III.

Days of Rage Brad Taylor, 2014 In former delta force operator and New York Times bestseller Brad Taylor’s latest Pike Logan thriller, the Taskforce must stop their most devastating threat yet—a weapon of mass destruction. The Taskforce is used to being the hunter, but this time they’re the hunted. Intent on embroiling the US in a quagmire that will sap its

economy and drain its legitimacy, Russia passes a potential weapon of mass destruction to Boko Haram, an extreme Islamic sect in Nigeria. A relic of the Cold War, the Russian FSB believes the weapon has deteriorated and is no longer effective, but they are wrong. Boko Haram has the means for mass destruction, which will be set loose upon a multitude of unsuspecting innocents on one of the world's grandest stages. Trying to solve the riddle of who might be stalking them, Pike Logan and the Taskforce have no idea what's been set in motion; but there's another secret from the Cold War buried in the Russian FSB, and exposing it will mean the difference between life and death—not only for Pike and his partner, Jennifer, but for perhaps millions more around the globe.

Daughter of War Brad Taylor, 2019-01-08 ****A New York Times Bestseller**** Former Special Forces Officer and New York Times bestselling author Brad Taylor delivers a heart-pounding thriller featuring Taskforce operators Pike Logan and Jennifer Cahill as they come face to face with a conspiracy where nothing is as it seems. Hot on the trail of a North Korean looking to sell sensitive US intelligence to the Syrian regime, Pike Logan and the Taskforce stumble upon something much graver: the sale of a lethal substance called Red Mercury. Unbeknownst to the Taskforce, the Syrians plan to use the weapon of mass destruction against American and Kurdish forces, and blame the attack on terrorists, causing western nations to reassess their participation in the murky cauldron of the Syrian civil war. Meanwhile, North Korea has its own devastating agenda: a double-cross that will dwarf the attack in Syria even as it lays the blame on the Syrian government. Leveraging Switzerland's fame for secrecy and its vast network of military bunkers, now repurposed by private investors for the clandestine storage of wealth, North Korea will use Red Mercury to devastate the West's ability to deliver further sanctions against the rogue regime. As the Taskforce begins to unravel the plot, a young refugee unwittingly holds the key to the conspiracy. Hunted across Europe for reasons she cannot fathom, she is the one person who can stop the attack--if she can live long enough for Pike and Jennifer to find her.

While on a routine security assessment in India, Taskforce operator Pike Logan foils an attempted attack on a meeting between the CIA and India's intelligence service. Both government agencies believe it's nothing more than a minor terrorist attack, but Pike suspects that something much more sinister is at play. After another terrorist operation at the Taj Mahal, he begins to believe that outside powers are attacking India in the gray zone between peace and war, part of a proxy war that leverages terrorist groups for economic gain and control of rare earth minerals. But the separatists conducting the operations have their own agenda. After a massive slaughter and kidnapping of hostages during an elaborate Indian pre-wedding party, two global powers are destabilized, and only Pike Logan and his team can de-escalate the tension by rescuing the captives. What follows is a race against the clock that winds through the bustling markets of Old Delhi, the luxurious resorts of Goa, and the epic halls of the Taj Mahal. It will take everything that Logan and the taskforce have to foil an intricate plot that leaves countless lives in the balance. Diligent spycraft, throat-clutching suspense, and military action that rips straight off the page. And this outing shows how political gamesmanship operates deep in the shadows, where nothing is

One that has done more for the United States in Afghanistan than anyone else. Pulled in to extract him, Pike collides headlong into a broader mystery: his covert company, along with every other entity in the Taskforce, has been hit with a ransomware attack, and there's some connection between the Taliban and the hack. Given the order to track down the perpetrators, he has no idea that the problem set is much, much larger and more dangerous than a simple attack on his organization. That hack was just a test-run, and the real one is coming soon, engendered by a former NSA specialist in the U.S. government. A man who wants to return to the bipolar world of the Cold War, the turncoat has cloaked his attack behind hackers from Serbia and Russia, and if successful, his target will alter the balance of power on the global stage. Operator Down Brad Taylor, 2018-01-09 • A New York Times Bestseller • Former Special Forces Officer and New York Times bestselling author Brad Taylor delivers a heart-pounding thriller where Pike Logan's search for a Mossad agent and ally puts him on a collision course with a ruthless military coup in Africa—and tests his loyalties to the Taskforce. It was to be a simple mission. Nothing more than assessing whether a merchant in the fabled Israeli Diamond Exchange was involved in a scheme that could potentially embarrass the state of Israel. But nothing is ever simple in the world of intelligence, as Aaron Bergman—a former leader of an elite direct action team under the Mossad—should have known. Executing the operation as a contractor, a cutout that gave the State of Israel plausible deniability, he disappears without a trace. Pike Logan and his team know none of this, but he's tracking an American arms dealer in Tel Aviv who may—or may not—be attempting to sell sensitive nuclear weapons components to the highest bidder. When Pike's team breaks up an attempt at killing Shoshana, Aaron's partner, they stumble upon much more than they expected—a concerted conspiracy to topple a democratic African country. Beginning to untangle a web that extends through both the American and Israeli intelligence community, Pike is

forced to choose between his Israeli friends and his Taskforce mission, even as the execution of the coup begins to form. At the heart of it is Aaron, and his disappearance is the one mistake the plotters made. Because Shoshana is the greatest killing machine the Mossad has ever produced, and she will stop at nothing to help Aaron, even if it means killing Pike Logan.
