**CH Cherryholmes**

**The Monkey Wrench Gang** Edward Abbey, 2011-08-19 A motley crew of saboteurs wreaks havoc on the corporations destroying America's Western wilderness in this "wildly funny, infinitely wise" classic (The Houston Chronicle). When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn't just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced Mormon polygamist, Hayduke's ready to stick it to the Man in the most creative ways imaginable. By the time they're done, there won't be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey's most popular novel, *The Monkey Wrench Gang* is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (Lonesome Dove) once dubbed "The Thoreau of the American West" has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los Angeles Times Book Review that we should all "praise the earth for Edward Abbey!" "Mixes comedy and chaos with enough chase sequences to leave you hungering for more."—The San Francisco Chronicle

**The Monkey Wrench Gang** Edward Abbey, 1985 Four irate rebels join forces to wage war on the stripminers, clear-cutters, and the highway and dam and bridge builders who are turning their natural habitat into a wasteland. A new Introduction by historian Brinkley puts this enduring cult classic in perspective by placing it at the forefront of an important historical movement.

**Monkey Wrench Gang** Edward Abbey, 1976-11-01 And just what the hell are they planning next? The bridge, bedecked with bunting, steamers and Day-Glo banners, was ready. the throng prepared to unloose a cheer or two. Suddenly the center of the bridge rose up and broke in two along a jagged zigzag line. A sheet of red flame streamed skyward... This is their last stunt, Governor. We're on their tail, sir. We have a good idea who they are, how they operate, and what they're planning next.

**Edward Abbey Bestsellers** Edward Abbey,2020-10-16 Three wild and suspenseful novels about standing your ground against the forces of destruction by the author of Desert Solitaire. From the beloved author and passionate advocate for the wilderness, these three novels follow some very memorable characters in their battles against strip miners, clear cutters, and government agencies destroying the environment: Fire on the Mountain: A New Mexico man faces off against everyone from the Atomic Energy Commission to the U.S. Air Force in a battle to keep his land . . . “One of the very best writers to deal with the American West.”—The Washington Post The Monkey Wrench Gang: A motley crew of saboteurs wreak outrageous havoc on the corporations destroying the wilderness in this “wildly funny” tale (The Houston Chronicle). “Mixes comedy and chaos with enough chase sequences to leave you hungering for more.”—The San Francisco Chronicle Hayduke Lives!: George Washington Hayduke, ex-Green Beret, was last seen clinging to a rock face in the wilds of Utah as an armed posse hunted him down for his eco-radical crimes. Now he’s back, with a fiery need for vengeance . . . “Abbey’s latter-day Luddites, introduced in his novel The Monkey Wrench Gang, are back—and not a moment too soon.” —The New York Times “I laughed out loud reading this book.” —Los Angeles Times Book Review

whether the disseminators have legitimate First Amendment rights. Larabee ends with an analysis of the 1979 publication of instructions for making a nuclear weapon, which raises the ultimate question: should a society committed to free speech allow a manual for constructing such a weapon to disseminate freely? Both authoritative and eye-opening, *The Wrong Hands* will reshape our understanding of the history of radical violence and state repression in America.

Ecological Restoration and the U.S. Nature and Environmental Writing Tradition Laura Smith,2022-01-12 This book presents a critical history of the intersections between American environmental literature and ecological restoration policy and practice. Through a storytelling—restorying—restoring framework, this book explores how entanglements between writers and places have produced literary interventions in restoration politics. The book considers the ways literary landscapes are politicized by writers themselves, and by conservationists, activists, policymakers, and others, in defense of U.S. public lands and the idea of wilderness. The book profiles five environmental writers and examines how their writings on nature, wildness, wilderness, conservation, preservation, and restoration have variously inspired and been translated into ecological restoration programs and campaigns by environmental organizations. The featured authors are Henry David Thoreau (1817–1862) at Walden Pond, John Muir (1838–1914) in Yosemite National Park, Aldo Leopold (1887–1948) at his family’s Wisconsin sand farm, Marjory Stoneman Douglas (1890–1998) in the Everglades, and Edward Abbey (1927–1989) in Glen Canyon. This book combines environmental history, literature, biography, philosophy, and politics in a commentary on considering (and developing) environmental literature’s place in conversations on restoration ecology, ecological restoration, and rewilding.

**Conserving Words** Daniel J. Philippon,2004 *Conserving Words* looks at five authors of seminal works of nature writing who also founded or revitalized important environmental organizations: Theodore Roosevelt and the Boone and Crockett Club, Mabel Osgood Wright and the National Audubon Society, John Muir and the Sierra Club, Aldo Leopold and the Wilderness Society, and Edward Abbey and Earth First! These writers used powerfully evocative and galvanizing metaphors for nature, metaphors that Daniel J. Philippon calls “conserving” words: frontier (Roosevelt), garden (Wright), park (Muir), wilderness (Leopold), and utopia (Abbey). Integrating literature, history, biography, and philosophy, this ambitious study explores how “conserving” words enabled narratives to convey environmental values as they explained how human beings should interact with the nonhuman world.
