The Promise of Higher Education Hilligje van't Land, Andreas Corcoran, Diana-Camelia Iancu, 2021-09-01 This book is a collection of short essays, accessible through open access, which takes the interested reader on a tour across the global higher education landscape. It addresses pertinent themes and challenges in higher education. To mark the 70th anniversary of the International Association of Universities (IAU) and its role in higher education since 1950, experts from around the world share their insights into higher education's recent past, present and future. The book is divided into six parts: Part I - "70 years of Higher Education Cooperation and Advocacy" looks back at key events in IAU's history, its mission and significant activities over time, and remarks on the current global context informing its quest to promote academic partnerships and solidarity on a global scale. Part II - "Facilitating International Cooperation" provides for different perspectives on the transformation of the internationalisation of higher education and the contribution of higher education to international cooperation. Part III - "Coding the Values" debates the values upon which higher education was, is and will have to be built to provide for a democratic and inclusive society. Part IV - "The Changing Landscape" analyses various aspects of the transformation of higher education in an evolving context across the globe. Part V - "The Promise of Education" reflects on the role of higher education, its ideals and shortfalls and what it must do to stay true to its promise to help shape our societies. Part VI - "Opening up - The Future of Higher Education" focuses on future scenarios of higher education and call on the reader to envision a different kind of higher education and reimagine the contribution of higher education to society, as well as future roles for the IAU. The book will be of interest to higher education policy makers and academics. It is also of interest to the general public, as it provides a comprehensive overview of the challenges higher education institutions currently face and suggests scenarios of what the future of education might look like.

This Thing Called Love Angela R. Camon, 2014-02-28 One of the most influential people in a girl's life is her father. Imagine growing up as a little child with an empty void in your heart longing for the love and acceptance of your father. It is unfortunate but many daughters, young and old alike, can identify with the pain of not having a father present in their lives.

The absence of fathers in the lives of their daughters has become an epidemic that has plagued our society and affects many families from all walks of life. Daughters that grow up with a healthy father-and-daughter bond are often less likely to become a teenage mother, experience depression, experiment with drugs and alcohol, develop body image problems and engage in criminal activity. Whereas daughters who do not have a father in their lives can experience a plethora of problems. *This Thing Called Love* is about a young girl who shares her story about her life and the various hardships that she experienced as a result of living with a father who is physically present but emotionally absent. Bewildered by his rude comments and his continuous expressions of his disapproval of her, she makes conscious efforts to shine in his eyes. In the pursuit of trying to achieve her father's love, she learns a great deal about God's love. As her relationship with God matures, her newfound faith ignites her determination to win her father over, not just for her personal gain, but for the benefit of the Kingdom of God.

Speak With Power and Grace Linda D. Swink, 1997 Public speaking can be a terrifying prospect for anyone, but for women it can be particularly painful. Whether giving a departmental presentation or a graduation address, women have often found themselves frightened and unprepared for the speech, despite a firm knowledge of their subject. *Speak with Power and Grace* covers all aspects of speech giving and will empower any woman who wants her words to be taken seriously.

Development in Unity Volume Two Daasebre Prof. (Emeritus) Oti Boateng, 2015-12-11 *Development in Unity Volume Two* represents an eclectic repertoire of over forty years exploits and profile of a renowned international scholar and an eminent cultural African leader, Daasebre Professor (Emeritus) Oti Boateng, to inspire a new generational philosophy of development. In this treatise, the author, a distinguished authority in statistics, a United Nations Commissioner, and recipient of several national and international awards, including recognition by the American Biographic Institute as one of the five hundred best thinkers of the twenty-first century, seeks to blend scholarship and culture as mutually inclusive prerequisites to underpin contemporary models in addressing pertinent development challenges. The book pioneers an alternative innovative root-based development model to harness the potential of indigenous institutions of governance in ensuring self-sustaining inclusive local economic development as a hedge against poverty, insurgency mobilization, migration, and radicalization in response to the demands of contemporary global development challenges. It elucidates the truth that development has manifold aspects, dealing with every aspect of human life, and addresses its intrinsic challenges from an eclectic and multidisciplinary perspective. In this respect, the book covers diverse areas ranging from

entrepreneurial collaboration for sustainable micro progress, gender sensitive statistics to democratic governance through credible elections. Other areas include harmonization of tradition and modernity in the chieftaincy institution, integration of ECOWAS statistical systems, space science and satellite technology, oil and gas exploration, construction of poverty profiles, religion, and the cocoa industry. Every section of the book is filled with leadership lessons to inspire a new development approach and intellectual assertiveness. This very penetrating book fills an important knowledge gap between theory and experiential learning in the development process. It is a melting pot of lessons for all readers.
