Ceramic Sculpture: Making Faces Alex Irvine, 2014 This is a step-by-step guide to sculpting the human face. It is richly illustrated with both photographs and diagrams for creating detail. It comes from experienced sculptor and instructor Alex Irvine. Sculpting the human face presents a unique artistic challenge, but this richly illustrated guide thoroughly demystifies the process. Instructor Alex Irvine goes step-by-step, explaining everything from creating basic, rough outlines to surface refinements to finely detailed replicas, accompanied by photographs and sketches.

Self-taught Art Charles Russell, 2001 The first book to give self-taught art the same degree of scholarly attention and critical thinking that mainstream art traditionally receives

Making Ceramic Sculpture Raúl Acero, 2001 The introduction to a popular and under-published aspect of ceramics. For centuries, clay has been used not only to make vessels but also to create sculptures. For beginning clayworkers and for experienced potters who can't stand to make one more mug, here's a guide to sculpting figurative and nonfigurative forms in clay. Step-by-step color photos and easy-to-follow instructions explain how to make seven sculptures: a resting cat, a whimsical fish, a colorful bird in a tree pedestal, a mythological bird-human creature, an abstract head, a standing figure, and a relief wall piece. Learn how to handbuild hollow sculptures using slab, pinch, and coil. Discover which types of clay, firing techniques, and surface treatments work best with sculpture. For inspiration, there's a glorious color gallery of some of the best contemporary ceramic sculpture available today. oA hot new topic in ceramics oAppealing projects oHundreds of gallery photos

The Art of Polymer Clay Creative Surface Effects Donna Kato, 2007 Polymer clay has grown and grown and grown in popularity since the publication of Donna Kato's best-selling *The Art of Polymer Clay* in 1997. And there have been so many technical advances, too. Now poly-diva Donna Kato presents an all-new look at one of crafters' all-time favorite mediums. Donna Kato's *Polymer Clay Innovations* begins with the essentials of polymer clay, including its working properties, plus tools, curing, safety recommendations, and color blending (with full information on the now-indispensable Skinner Blend). Photo-packed chapters focus on exciting projects—beads, bracelets, pins, pendants, and boxes--and showcase new techniques, including image transfers, surface treatments such as stencils, stamps, paints, and inks, sculpting, inclusions, special effects, and finishing. Finished pieces by some of the biggest names in polymer clay, including Kathleen Dustin, Pier

Voulkos, and Nan Roche, plus Donna Kato herself, offer ideas and inspiration.

Roy Lichtenstein Julie Wolfe,2023-06-06 The first book-length study to examine the materials and techniques used in the fabrication and painting of the American pop artist Roy Lichtenstein's outdoor sculpture. Vibrant color was essential to the paintings of the American pop artist Roy Lichtenstein (1923-1997), and when he began exploring the creation of outdoor sculpture in the late 1970s, vivid hues remained an important part of his artistic vocabulary. Today, preserving these remarkable works after they have endured decades in outdoor environments around the world is an issue of pressing concern. This abundantly illustrated volume is based on extensive archival research of Lichtenstein's studio materials, interviews with his assistants, and a thorough technical analysis of the sculpture *Three Brushstrokes*. The book concludes with a chapter showing various options for the care, conservation, and restoration of his sculptural works, making this an essential resource for conservators, curators, and others interested both in the iconic artist and modern sculpture in general.

languages, identifications and networks, engaged in social debates, and contributed to the cultural renewal of Vienna, a major capital in Central Europe, between 1800 and 1938.
