Care at the Close of Life: Evidence and Experience Stephen J. McPhee, Margaret A. Winker, Michael W. Rabow, Steven Z.

Pantilat, Amy J. Markowitz, 2010-12-31 The world's leading source of evidence-based guidance on caring for patients at the end of life. Featuring the content of the world's most widely read medical journal, plus completely new, never-before-published content. Perfect for medical students, trainees, and clinicians alike. Market / Audience Medical students: 18000/yr US, 250,000 global NP and PA students: 25,000/yr US, 50,000+ global IM and FP residents: 30,000 US, 60,000 global IM and FP clinicians: 140,000 US, 300,000+ global Palliative medicine: 3000 US Oncology: 20,000 US, 60,000 global Social workers About the Book In the tradition of the User's Guides to the Medical Literature, and The Rational Clinical Examination, JAMA/Care at the Close of Life is based on a widely successful series of articles appearing over the course of the last ten years in JAMA, the world's most widely read medical journal. The series is directed by Stephen McPhee, a leading authority of end of life care, and the chief editor of our market leading Current Medical Diagnosis and Treatment text. The articles in the series cover fundamental topics and challenges in caring for patients who have been given a terminal diagnosis. Featuring a strong focus on evidence-based medicine, and organized by clinical cases, the articles are widely read by faculty, medical students, and clinicians who, frankly, have not been given a solid educational experience on this very important medical issue. The book will be physically modeled after The Rational Clinical Examination, in a full color format that highlights the clinical cases. It will be well suited for use as an required or recommended textbook for medical, PA, and NO students, and as a clinical reference text for trainees and practicing physicians and nurses. Key Selling Features Based on highly regarded content from the world's most widely read medical journal All content is completely updated, and extensive new, never-before-published content has been added Case-based, and evidence-based, so its a perfect fit for the way medical students and residents like to learn Focuses on practical, real-world issues for primary care physicians, and avoids esoteric issues of interest only to specialists in palliative care Full color format, modeled after the highly regarded Rational Clinical Examination Includes multimedia materials available on line: Power Point slides for teaching, and video interviews with patients in end-of-life care, so that faculty and students get supplemental resources for learning the art and science of care at the end of life Evidence-based guidance from the world's leading medical journal, on a critical topic that has been neglected in medical education and training until recently. Author Profile JAMA is the world's most widely read medical journal, and has a reputation for excellence in evidence-based medicine. Stephen McPhee has high visibility on account of his editorship of CMDT, and for his driving role in enhancing end of life care in medical education and training programs. He is: Professor of Medicine, UCSF School of Medicine, San Francisco CA

UICC Manual of Clinical Oncology Raphael E. Pollock, 2004-12-03 The Manual of Clinical Oncology provides a concise and accessible reference covering all aspects of clinical oncology and is of use to all who care for people with cancer. The new edition includes up-to-date summaries of all treatment modalities (medical, surgical, and radiation) for all tumour sites. It also contains the revised TNM classifications outlined in the new edition of TNM Classification of Malignant Tumours. The

new Edition includes a new chapter on cancer molecular genetics, focusing on genomics, proteomics, and microarray analysis as well as expanded coverage on cancer staging and prognostic factors.

After the ICU: Multidisciplinary Perspectives on Supporting Critical Illness Survivors Meghan Lane-Fall, David S. Shapiro, Lewis Kaplan, 2023-10-13 An essential guide to navigating the journey to recovery from critical illness Millions of patients are admitted to intensive care units (ICUs) each year, one third of whom need a ventilator machine to help them breathe. These critically ill patients may develop health problems related to their illness, injury, ventilator or other treatments. Such problems can continue after the patient leaves the hospital. **LANGE: After the ICU: Multidisciplinary Perspectives on Supporting Critical Illness Survivors** fills a gap in the existing literature on the subject. Arranged in three sections, the book addresses the ways in which care in the ICU can impact life afterwards and provides a framework for the recovery process. The early chapters feature personal stories from patients describing their life-threatening illness, journey to recovery, and the clinicians who helped them along the way. In the following chapters, clinicians, physicians, nurses, and patients' family members share their unique perspectives on the recovery process. Each chapter includes a specific section dedicated to tips for clinicians. • Includes key concepts of care across the arc of the ICU patient encounter • Evidence-based interventions are presented and summarized in a practical stepwise approach • Features accounts from patients, clinicians, physicians, nurses, and others involved in the care and recovery process

The Color Atlas and Synopsis of Family Medicine, 3rd Edition Richard P. Usatine, Mindy Ann Smith, E. J. Mayeaux, Heidi Chumley, 2019-01-07 The updated visual atlas of family medicine—enhanced by more than 2,000 illustrations A Doody's Core Title for 2021! The Color Atlas and Synopsis of Family Medicine, Third Edition, will be an invaluable addition to busy physicians' clinical libraries. Its wide-ranging topics covering the gamut of family medicine are thoroughly covered and efficiently organized for point-of-care use. This, as well as its useful and exceptional photographs, will make it a resource the clinician will reach for again and again during evaluation of unfamiliar conditions. Residents and students will find it particularly useful as they systematically broaden their experiences and fund of knowledge—well done! —Family Medicine The Color Atlas and Synopsis of Family Medicine simplifies and supports visual diagnosis like no other guide. The text is bolstered by more than 2,000 illustrations, consisting of state-of-the-art photos and drawings, most in full color. Page after page, the book's precise clinical images are integrated with evidence-based diagnostic pearls presented in bulleted text—ideal for time-pressed physicians. Sections highlight specific diseases and disorders, organized by anatomic and physiologic systems, with each chapter opening with a patient story to connect the photographs with real-life clinical scenarios. Every condition features a consistent format that includes the patient story, Epidemiology, Etiology and Pathophysiology, Diagnosis, Differential Diagnosis, and Management to aid the reader in navigating to the right section with ease and efficiency. **NEW TO THIS EDITION:** New chapters on Mental Health, the Opioid Crisis, Dementia, Sports-related

Head Injury, and LGBT health issues New chapter on Zika, Ebola and other emerging infections expand the insights in the Global Health chapter New Foundations of Dermatology section contains a dermoscopy chapter, plus chapters on dermatology terminology, topical and intralesional steroids, and biopsy principles and techniques Management section is now divided into first- and second-line therapies
