

# Las De Barranco

**Christian Drosten**

**An Analysis and Translation of Gregorio de Laferrère's Las de Barranco** W. Keith Leonard, 1961

**La Inmigración italiana y teatro argentino** Grupo de Estudios de Teatro Argentino, 1999

**Alton's Paradox** Nicolas Poppe, 2021-09-01 Alton's Paradox builds upon extensive archival and primary research, but uses a single text as its point of departure—a 1934 article by the Hungarian American cinematographer John Alton in the Hollywood-published *International Photographer*. Writing from Argentina, Alton paradoxically argues of cine nacional, The possibilities are enormous, but not until foreign technicians will take the matter in their hands and with foreign organization will there be local industry. Nicolas Poppe argues that Alton succinctly articulates a line of thought commonly held across Latin America during the early sound period but little explored by scholars: that foreign labor was pivotal to the rise of national film industries. In tracking this paradox from Hollywood to Mexico to Argentina and beyond, Poppe reconsiders a series of notions inextricably tied to traditional film historiography, including authorship, (dis)continuation, intermediality, labor, National Cinema, and transnationalism. Wide-angled views of national film industries complement close-up analyses of the work of José Mojica, Alex Phillips, Juan Orol, Ángel Mentasti, and Tito Davison.

**Behind Spanish American Footlights** Willis Knapp Jones, 2014-07-29 Across a five-hundred-year sweep of history, Willis Knapp Jones surveys the native drama and the Spanish influence upon it in nineteen South American countries, and traces the development of their national theatres to the 1960s. This volume, filled with a fascinating array of information, sparkles with wit while giving the reader a fact-filled course in the history of Spanish American drama that he can get nowhere else. This is the first book in English ever to consider the theatre of all the Spanish American countries. Even in Spanish, the pioneer study that covers the whole field was also written by Jones. Jones sees the history of a nation in the history of its drama. Pre-Columbian Indians, conquistadores, missionary priests, viceroys, dictators, and national heroes form a background of true drama for the main characters here—those who wrote and produced and acted in the make-believe drama of the times. The theatre mirrors the whole life of the community, Jones believes, and thus he offers information about geography, military events, and economics, and follows the politics of state and church through dramatists' offerings. Examining the plays of a people down the centuries, he shows how the many cultural elements of both Old and New Worlds have been blended into the distinct national characteristics of each of the Spanish American countries. He does full justice to

the subject he loves. A lively storyteller, he adds tidbits of spice and laughter, long-buried vignettes of history, tales of politics and drama, stories of high and low life, plots of plays, bits of verse, accounts of dalliance and of hard work, and sad and happy endings of rulers and peons, dramatists, actors, and clowns. A valuable appendix is a selected reading guide, listing the outstanding works of important Spanish American dramatists. A generous bibliography is a useful addition for scholars.

*Las de barranco* Gregorio de Laferrère,1909

Staging Buenos Aires Kristen L. McCleary,2024-07-15 Staging Buenos Aires centers theater as a source of historical inquiry to understand how nonelites experienced and shaped a city undergoing dramatic transformations. Commercial theater constituted the core of the city's public sphere, one in which middle-class playwrights and audiences assumed the leading role. Audiences and critics often disagreed about what was "acceptable" entertainment. Playwrights used theater to promote their own ideas of sociopolitical change, creating a space for working- and middle-class audiences to identify and push back against imposed regulations and attitudes. Cultural production on the city's stages revealed fissures and social anxieties about the expansion of the political system and of the public sphere as women became increasingly visible in urban spaces. At the same time, theater also gave structure and meaning to these rapid changes, providing the space for the city's playwrights and complex publics to play a key role in identifying, processing, and shaping the transforming nation. Plays helped audience members work through dramatic shifts in societal norms as urbanization and industrialization resulted in the visible decline of patriarchal social structures, made most visible in the urban sphere.
