Noriko Gamblin, Karen Jacobson, Flintridge Foundation

Empowered Sarah Banet-Weiser, 2018-10-25 In *Empowered* Sarah Banet-Weiser examines the deeply entwined relationship between popular feminism and popular misogyny as it plays out in advertising, online and multimedia platforms, and nonprofit and commercial campaigns. Examining feminist discourses that emphasize self-confidence, body positivity, and individual achievement alongside violent misogynist phenomena such as revenge porn, toxic geek masculinity, and men's rights movements, Banet-Weiser traces how popular feminism and popular misogyny are co-constituted. From Black Girls Code and the Always #LikeAGirl campaign to GamerGate and the 2016 presidential election, Banet-Weiser shows how popular feminism is met with a misogynistic backlash of mass harassment, assault, and institutional neglect. In so doing, she contends that popular feminism's problematic commitment to visibility limits its potential and collective power.

The Logical Foundations of Social Theory Gert H. Mueller, 2014-08-20 *The Logical Foundations of Social Theory* describes Gert Mueller's argument that physical, biological, social, moral, and cultural reality form an asymmetrical hierarchy of founding and controlling relationships that condition social reality rather than mechanically determining it. This book analyzes social stratification as labor, wealth and power, the moral order as solidarity, ideology and morality, and culture systems as art, science, and religion.

System of Positive Polity: Social dynamics; or, the general theory of human progress Auguste Comte, 1876
System of positive polity: Social dynamics Auguste Comte, 1876

Foundation and outline of a historical theory of society Balogh István, 2024-12-16 After his first great deed of creating history, man now seems to be working on another great deed of equal importance, but perhaps the last: to destroy himself by eliminating the conditions of his existence. Aware of the consequences, he continues to destroy his living environment, to wage war against each other, to pursue his self-destructive passions. In the face of the clamorous contradiction expressed in the characterisation 'they know but do not do', the question arises with compelling force: what are the 'driving forces' and where do they arise, which determine the actions of individuals and groups of people, as well as the functioning of the majority of social institutions, with such force that they ultimately override the motives, the instinct and the discernment of life, as well as the conscious sense of danger, which are essential to the survival of human life. Is there any chance of taming this vexing contradiction?

Rohit Parikh on Logic, Language and Society Can Başkent,Lawrence S. Moss,Ramaswamy Ramanujam,2017-03-01 This book discusses major milestones in Rohit Jivanlal Parikh's scholarly work. Highlighting the transition in Parikh's interest from formal languages to natural languages, and how he approached Wittgenstein's philosophy of language, it traces the academic trajectory of a brilliant scholar whose work opened up various new avenues in research. This volume is part of Springer's book series Outstanding Contributions to Logic, and honours Rohit Parikh and his works in many ways. Parikh is a leader in the realm of ideas, offering concepts and definitions that enrich the field and lead to new research directions. Parikh has contributed to a variety of areas in logic, computer science and game theory. In mathematical logic his contributions have been in recursive function theory, proof theory and non-standard analysis; in computer science, in the areas of modal, temporal and dynamic logics of programs and semantics of programs, as well as logics of knowledge; in artificial intelligence in the area of belief revision; and in game theory in the formal analysis of social procedures, with a strong undercurrent of philosophy running through all his work.This is not a collection of articles limited to one theme, or even directly connected to specific works by Parikh, but instead all papers are inspired and influenced by Parikh in some way, adding structures to and enriching "Parikh-land". The book presents a brochure-like overview of Parikh-land before providing an "introductory video" on the sights and sounds that you experience when reading the book.
