Cultural Initiatives for Sustainable Development Paola Demartini, Lucia Marchegiani, Michela Marchiori, Giovanni Schiuma, 2021-03-31 This book explores the relevance of new sources, dimensions, and characteristics of knowledge for supporting creative and cultural organizations and initiatives. Special emphasis is placed on cultural heritage, participatory approaches, and entrepreneurship in the cultural and creative sector. The role of cultural heritage and contemporary culture as a source of economically effective, socially sustainable development is also discussed. The authors examine new ways of developing and testing new and innovative models of management for cultural heritage assets. In line with the participatory approaches in culture heritage governance promoted by the EU, the authors analyze participatory approaches to cultural and creative initiatives. The role of public and private actors, as well as the way they interact with each other in order to achieve collective outcomes, is of particular interest in this section of the book. With regard to cultural and creative entrepreneurship, the book adds an innovative view of cultural ventures, offering some clues from an entrepreneurial ecosystem perspective.

The Art, History and Architecture of Florentine Churches Susan Bracken, 2016-12-14 Churches and palaces in Florence have been the subject matter of book-length, often multi-volume studies over the centuries. This book is a compendium of the main churches in Florence and has been written with two distinct audiences in mind: English-speaking students of Renaissance art, architecture, literature and history and the well-read traveller to Florence who wishes to place the works of art and architecture into the wider context of Italian culture. The choice of churches discussed here was influenced by the author's experience as teacher for several university programmes on site in Florence. The buildings described and analysed are those which students will most likely encounter in the course of their study-abroad stay in Florence, whether they wish to specialise in art, architecture or the history of the Florentine Renaissance. This book represents a textbook that offers concise information on the history, art, and architecture of 25 of the main Florentine churches, provides plans and photos of the façades, and introduces the student to some of the most important vocabulary and the main textual sources of the thirteenth to the seventeenth centuries.

149 Paintings You Really Need to See in Europe Julian Porter,2013-09-30 Visit some of Europe's greatest museums and galleries in the company of a knowledgeable tour guide. Who can resist an art critic with attitude? - Former Supreme Court of Canada Justice, Ian Binnie It was wonderful! Julian shared his enormous knowledge of the world's best art with a panache that is irresistible. - Justice Stephen Goudge, Ontario Court of Appeal This essential companion to all the major European museums and galleries discusses some of the world's greatest paintings from Giotto through to Picasso. Julian Porter's passion for art began with the seven years he spent as a student tour guide in Europe. Since then, he has conducted countless tours of Europe's famous galleries - The Louvre, The Prado, The Hermitage, The Rijksmuseum, the Sistine Chapel, and many others. In the usually pretentious arena of art connoisseurs, Porter's voice stands out as fresh and original. He finds the best of the best, which he describes with entertaining irreverence, and spares you hours of sore feet and superfluous information.
