Huangqi Zhang

Meaning in Landscape Architecture and Gardens Marc Treib, 2011-03 This book offers the professional a rich source of ideas about the designed landscape, what these mean to us and how they acquired that significance. Key essays from landscape architects are presented with the authors' current reflections.

Progettare Paesaggio - Landscape as Infrastructure AA. VV., 2015-10-15T00:00:00+02:00 In questo lavoro "Progettare Paesaggio, Landscape as Infrastructure" si confrontano: da un lato le stimolanti proposte progettuali redatte dal gruppo di studenti della Harvard Graduate School of Design guidati dalla docente Paola Cannavò; dall'altro l'analisi del territorio portuense ed ostiense e delle possibili future trasformazioni del contesto paesaggistico determinate dai progetti infrastrutturali, in fase di realizzazione o di valutazione, con ipotesi di linee guida per la riqualificazione e la valorizzazione di questa area, intesa come complesso palinsesto storico e paesaggistico, al fine di rendere evidenti le modalità procedurali di quella reale tutela attiva e dinamica del paesaggio affidata al Ministero per i beni e le attività culturali e da sempre svolta. [ANTONIA P. RECCHIA - Direttore Generale, Direzione Generale per il paesaggio, le belle arti, l'architettura e l'arte contemporanee, MiBAC] The project "Progettare Paesaggio, Landscape as Architecture" combines the inspiring design proposals drafted by a group of students of the Harvard Graduate School of Design headed by the teacher Paola Cannavò with a study of the portuense and ostiense areas and how the landscape might change due to the construction of new infrastructure, either being completed or in the design stage. The study includes guidelines for the requalification and enhancement of the area considered as a complex historical landscape; it also highlights the past and present active and dynamic protection measures and procedures adopted by the Italian Ministry of Cultural Heritage and Activities. [ANTONIA P. RECCHIA - Director General, Directorate General for the landscape, fine arts, architecture and contemporary art, MiBAC] "Questa pubblicazione e la ricerca progettuale qui documentata, propongono una opportuna testimonianza delle sfide contemporanee della forma urbana, del processo ecologico e dello sviluppo economico affrontato dalla capitale italiana." "Evidenziando gli impulsi complessi e contraddittori di tipo ecologico ed economico di un paesaggio portuale attivo, Cannavò propone un nuovo ruolo chiave per l'architettura del paesaggio come strumento urbanistico. Così facendo promuove una posizione italiana all'interno del dibattito contemporaneo sul Landscape Urbanism e l'Ecological Urbanism fornendo al contempo una prospettiva futura per l'urbanistica, anche nell'area di Fiumicino." [CHARLES WALDHEIM - Direttore,

Dipartimento di Architettura del Paesaggio, Harvard Graduate School of Design] “This publication, and the design research that it documents, offers timely evidence of the contemporary challenges of urban form, ecological process, and economic development faced by the Italian capital.” “Highlighting the complex and contradictory ecological and economic impulses of a working port landscape, Cannavò proposes a renewed relevance for landscape architecture as a medium of urbanism. In so doing, she stakes an Italian position in the contemporary discourses of landscape urbanism and ecological urbanism, while pointing to a way forward for urbanism, even in the fields of Fuimicino.” [CHARLES WALDHEIM – Chair, Department of Landscape Architecture, Harvard Graduate School of Design]

Introduction to Landscape Design John L. Motloch,2000-08-25 Outstanding explorations of design concepts, principles, and processes This Second Edition of Introduction to Landscape Design offers even broader coverage of the environmental, human, technological, and aesthetic issues associated with landscape design than the first edition. Beginning with the way we perceive, manage, and design the landscape, it moves on to explore the forces that influence land design. An overview of landscape management, planning, and design includes a discussion of the roles and integration of the professions involved, modes of professional practice, and site scale design processes. The book explores the ecology of design and the integration of land design decisions into dynamic systems. This fully updated new edition: * Presents landscape design as a synergism of art and science * Addresses the interplay between buildings and sites * Provides insights into the breadth of people-environment relationships * Places special emphasis on our growing understanding of interrelationships between the landscape and human decisions A superb introduction for students as well as a useful reference for practicing professionals, this book is an excellent guide for anyone who wants to develop a better understanding of landscape design.

Cultural Landscapes Richard W. Longstreth,2008 Preservation has traditionally focused on saving prominent buildings of historical or architectural significance. Preserving cultural landscapes-the combined fabric of the natural and man-made environments-is a relatively new and often misunderstood idea among preservationists, but it is of increasing importance. The essays collected in this volume-case studies that include the Little Tokyo neighborhood in Los Angeles, the Cross Bronx Expressway, and a rural island in Puget Sound-underscore how this approach can be fruitfully applied. Together, they make clear that a cultural landscape perspective can be an essential underpinning for all historic preservation projects.
