Crimes against Humanity in the Land of the Free Imani Michelle Scott, 2014-08-20 This vital book considers the compelling and addictive hold that racism has had on centuries of Americans, explores historical and contemporary norms complicit in the problem, and appeals to the U.S. government to improve race relations, rectify existent social imperfections, and guard against future race-based abuses. Despite an assertion by the founding fathers that all men are created equal and the Fourteenth Amendment to the U.S. Constitution that guarantees equal protection, the race-based oppression that has characterized most of America's history shows that in practice our society has rarely measured up to principle. Why has deep-seated racial conflict in America continued for so long? This unprecedented examination into the topic explores the evidence and consequences of what seems to be an addiction to racism in the United States, analyzing the related disconnect between our nation's stated moral principles and social realities, and assessing how U.S. citizens of all races can take individual action to start the long-needed healing process. The contributors to this work present interdisciplinary perspectives and discussions on American history, politics, philosophy, and 21st-century psycho-social conditions as they relate to the oppression, social injustice, and racism that have occurred—and continue to occur—in the United States. The discussions allow readers to grasp the serious challenges at hand and direct them towards recognizing the potential for conflict transformation and reconciliation through a non-conventional co-created Truth, Reconciliation, and Peace Process (TRPP) to begin resolving America's dysfunction. This is essential reading for anyone who seeks to understand the sources of perpetual racially based conflict, disparity, and hatred in the United States; identify the social injuries of exposure to centuries of racism; move America towards harmonious interracial relationships; and improve its international standing as a peace-building nation that is truly committed to human rights throughout the world.

The Plunder of Black America Calvin Schermerhorn, 2025-02-11 The long history of the racial wealth gap in America told through the stories of seven Black families who struggled to build wealth over multiple generations Wealth is central to the American pursuit of happiness and is an overriding measure of well-being. Yet wealth is conspicuously absent from African American households. Why do some 3.5 million Black American families have zero or negative wealth? Historian Calvin Schermerhorn traces four hundred years of Black dispossession and decapitalization—what Frederick Douglass called plunder—through the stories of families who have strived to earn and keep the fruits of their toils. Their struggles reveal that

the ever-evolving strategies to strip Black income and wealth have been critical to sustaining a structure of racialized disadvantage. These accounts also tell of the quiet heroism of those who worked to overcome obstacles and defy the plunder. From the story of Anthony and Mary Johnson, abducted from Angola and brought to Virginia in 1619, to the enslaved Black workers dispossessed by the Custis-Washington family, to Venture Smith (born Brotheer Furro), who purchased his freedom, to three generations of a family enslaved in the South who moved north after Emancipation, to the Tulsa massacre and the subprime lending crisis, Schermerhorn shows that we cannot reckon with today's racial wealth inequality without understanding its unrelenting role in American history.

Sustaining a Free Society Roger Soder, 2021-08-01 It is difficult to create a free society but even more difficult to sustain that free society over time. We want to sustain the essential elements of a free society, but at the same time, we must recognize that the world is always changing. How, then, to adjust to changes and to improve what we have, without losing sight of core values, is our focus in *Sustaining A Free Society*. The book first outlines in practical real-world terms fifteen conditions that must be in place to sustain a free society. One critical condition given extended consideration is the need for a long-term time perspective. Conditions do not exist in the abstract: they are created by people and the choices we make. Thus we need to consider the roles and responsibilities of those involved in a free society: citizens and those they choose as leaders. We are not born knowing our responsibilities as citizens and leaders: these matters have to be learned. *Sustaining a Free Society* moves to a consideration of the role schools must play in ensuring that future generations know and value a free society and are prepared to in turn assume their responsibilities.

Imagining Black America Michael Wayne, 2014-02-28 DIVScientific research has now established that race should be understood as a social construct, not a true biological division of humanity. In *Imagining Black America*, Michael Wayne explores the construction and reconstruction of black America from the arrival of the first Africans in Jamestown in 1619 to Barack Obama's reelection. Races have to be imagined into existence and constantly reimagined as circumstances change, Wayne argues, and as a consequence the boundaries of black America have historically been contested terrain. He discusses the emergence in the nineteenth century—and the erosion, during the past two decades—of the notorious “one-drop rule.” He shows how significant periods of social transformation—emancipation, the Great Migration, the rise of the urban ghetto, and the Civil Rights Movement—raised major questions for black Americans about the defining characteristics of their racial community. And he explores how factors such as class, age, and gender have influenced perceptions of what it means to be black. Wayne also considers how slavery and its legacy have defined freedom in the United States. Black Americans, he argues, because of their deep commitment to the promise of freedom and the ideals articulated by the Founding Fathers, became and remain quintessential Americans—the “incarnation of America,” in the words of the civil rights leader A. Philip Randolph./div

Letters from Black America Pamela Newkirk,2025-06-25 Letters from Black America fills a literary and historical void by presenting the pantheon of African American experience in the most intimate way possible—through the heartfelt correspondence of the men and women who lived through monumental changes and pivotal events, from the 1700s to the twenty-first century, from slavery to the war in Iraq. The first-ever narrative history of African Americans told through their own letters, this book includes the thoughts of politicians, writers, and entertainers, as well as those of slaves, servicemen, and domestic workers. From a slave who writes to his wife on the eve of being sold to famous documents like Martin Luther King, Jr.'s Letter from Birmingham Jail, these writings illuminate struggles and triumphs, hardships and glory, in the unforgettable words of the participants themselves. Letters from Black America is an indispensable addition to our country's literary tradition, historical understanding, and self-knowledge.

Teaching African American Learners to Read Bill Hammond,Mary Rhodes Hoover,Irving Pressley McPhail,2005 Despite many education reform efforts, African American children remain the most miseducated students in the United States. To help you mend this critical problem, this collection of original, adapted, and previously published articles provides examples of research-based practices and programs that successfully teach African American students to read. Thoughtful commentary on historic and current issues, discussion of research-based best practices, and examples of culturally appropriate instruction help you examine the role of education, identify best practices, consider the significance of culture in the teaching-learning process, and investigate some difficult issues of assessment.

The Development of the Self-Image in Black Autobiographical Writing (Frederick Douglass, W.E.B. Du Bois and Malcolm X) Moritz Oehl,2007-07-28 Thesis (M.A.) from the year 2006 in the subject American Studies - Literature, grade: 2,7, University of Bamberg (Professur f r Amerikanistik), 58 entries in the bibliography, language: English, abstract: In this thesis paper, each of the three black autobiographical writings will be discussed in chronological order. The paper begins with

Frederick Douglass's Narrative from 1845, continues with W.E.B. Du Bois's Darkwater from 1920 and finishes with The Autobiography of Malcolm X from 1965. The purpose of this chronological organization is to better trace the development of black autobiographical writing over the period of 120 years. Each autobiography's discussion is divided up into three distinguishable components. A summary of each memoir provides a background against which the further stylistic and thematic discussions can be attempted. Secondly, the historical circumstances, basic structure and narrative techniques of the respective eras of black autobiographical writing and of the specific works will be discussed. The purpose is to closely look at typical features (or, in the case of The Autobiography of Malcolm X, genres) of black autobiographical writings in each period and then, in a second step, analyze each work's specific stylistic and narrative peculiarities. The third and last component of each autobiography's discussion is a close textual interpretation. It shall analyze the development of the self-image of each author as presented in his autobiographical work. These observations will be synthesized in the Conclusion of this thesis paper. The eventual aim of this study is to prove the three thesis elements. First of all, it shall be demonstrated that African-Americans have written autobiographies to comment on the unjust societies they have been living in since slavery. Secondly, it shall be proven that the three distinguishable stages of black autobiographical writing are best represented by this selection of books. And finally, one will see that th

The Origins of African-American Interests in International Law Henry J. Richardson (III.),2008 This book explores the birth of the African-American international tradition and, particularly, the roots of African Americans' stake in international law. Richardson considers these origins as only formally arising about 1619, the date the first Africans were landed at Jamestown in the British North American colony of Virginia. He looks back to the opening of the European slave trade out of Africa and to the 1500s and the first arrival of Africans on the North American continent. Moving through the pre-Independence period, the American Revolution, the Constitutional Convention, and the Westward Migration, the book ends around 1820. This historical period also roughly corresponds to two other key historical phenomena greatly affecting the Atlantic Ocean basin: the rise of international law as a modern legal system (including European states and their Atlantic colonies) and the rise and flourishing of the international slave trade in African slaves to the Americas by European and New World governments and merchants. Only by placing African slavery in the British North American colonies in the context of

the international slave system encompassing and linking the New World can the voices, struggles, demands, claims, and decisions of slaves and Free Blacks in North America towards freedom, relative to their evolving interests under international law, be properly understood. These interests comprise no less than the birth of an African-American international jurisprudence. This magnificent study by Professor Richardson of the relevance of international law to the struggle of African Americans against slavery and the slave trade of the course of several centuries deserves the widest possible reading. Such an outstanding jurisprudential account of anti-slavery resistance from the perspective of slavery's captives fills a crucial gap in the scholarly literature. It is a great contribution. -- Richard Falk, Albert G. Milbank Professor of International Law and Practice Emeritus, Princeton University, and Visiting Professor of Global and International Studies, University of California at Santa Barbara Richardson presents a thorough analysis of African American interests in international law and how principles emanating from outside law have historically been linked to Blacks' appeals to quality and freedom. The book is most appropriate for the graduate and professional (law) level and would be suited for courses in African American/American History, Race and the Law, and American Legal History. -- Law & Politics Book Review Richardson has written a decidedly original and provocative volume that is a fascinating, intriguing, and tremendously informative read... [T]his book is a treasure trove of information... The depth of research, which must be commended, and Richardson's astute analysis make this volume a useful one for any library and an absolute necessity for institutional collections. -- The American Journal of International Law
