Ethics, Morals and Values in Education Plyson Manyani Muzumara, 2018-01-09 Ethics, Morals and Values in Education By: Plyson Manyani Muzumara Many people in our country feel children today are growing up in an environment of moral distortion and decay. Children are exposed to evil influences from different dimensions within and outside of their communities. It is not uncommon to listen to the news and hear of corruption, thefts, child defilement, examination malpractices, gender-based violence and similar vices. We see a gradual erosion of values and morals in our society, but little effort is being spent to change it. Reflecting upon our culture's history should give us the opportunity to prepare our teachers to assume the role of moral educators as well as the conveyers of subject content. This book focuses on the need to introduce and promote ethics, morals and values education in Zambia at both school and teacher education levels. It draws information generated by the author from schools, colleges of education and universities. Without a well-defined education policy in favour of promoting pupil and teacher ethics, morals and values in our learning institutions, efforts to promote the same in our education system are doomed to fail.

Ethics, Integrity and Aptitude General Studies-IV (GS-4) Solved Papers: Civil Services Mains (2013-2019) Team ARSu, 2020-01-21 This book contains model answers to the questions and case studies asked in General Studies-IV (GS-4) Civil Services Mains Paper from 2013 to 2019 with detailed information on the background/framework of the question/likely answer. It is important to note that as a subject in Civil Services Examination, GS-4 is the only subject where we have comparatively well defined syllabus and paper pattern. Because of this, each individual can score good marks in the paper with lesser efforts as compared to other General Studies Papers, i.e. if you dedicate 15-20 days to this subject, you will not just learn about the complete subject but you can score much more as compared to other General Studies paper, as they require much more time because of their dynamic nature. If we consider the previous year question Papers of General Studies-IV, the questions were divided into two parts as: 1. Theory-based Questions (based on the theoretical aspects of the ethics), and 2. Case Studies (based on the actual or probable life situations). The answers are divided into two portions with first one detailing about the framework of the answer or background of the question, giving details about the basic idea of the question or the form of case study. The second part is the model answer giving wider inputs on the question. We hope

that wider considerations will help the reader in understanding the question and how to structure the answer, based on the question.

Dictionary of Museology François Mairesse, 2023-04-05 The internationally focused Dictionary of Museology reflects the diversity of cultural and disciplinary approaches to theory and practice in the museum field today. The museum world is

changing rapidly, and the characteristics and social roles of the world's approximately 100,000 existing museums are constantly evolving. In addition to their traditional functions of preservation, research and communication, museums are increasingly addressing issues related to social inclusion, human rights, sustainable development and finances, all of which are explored in this dictionary. Drawing on the support of an international editorial committee, including influential figures from the US, Canada, Brazil, Japan, Spain, Germany, France and the UK, this collaborative work produced by over 100 researchers from around the world provides an overview of this unique field by defining over 1,000 terms relating to museology. The Dictionary of Museology is intended for a broad spectrum of museum professionals, academics, researchers and students. The book will be especially useful to those working with international partners, since a common lexicon that conveys the complex reality of current social and cultural values is particularly vital for those working across borders.

Speaking Management Stephen Keith McGrath, 2022-01-05 This book identifies ten linguistic traps in our everyday language usage and provides philosophical justification for a method of determining internally consistent definitions of groups of related terms that avoid all ten traps. Various examples and applications of this method are given throughout. The book demonstrates how the seemingly straightforward matter of our understandings of the meaning of words can have major implications for the exercise of power. This book illustrates how this insight originated from management research into project governance that found lack of agreement on the definition of that term, as well as on many other important management terms. To resolve this, the impacts of evolution, philosophy and linguistics upon our everyday language usage were investigated. The research documented in this book found that the human tool called language works well for describing physical objects but has difficulty producing a common understanding of the meaning of concepts - a problem not restricted to the management field. That field is simply a microcosm that exposes a much more widespread linguistic usage problem affecting our personal, religious and political lives; one that existed at the time of Plato and Aristotle and has laid hidden for millennia. This book includes a lexicon of 70 commonly used but confused or contested management terms, as well as a further 18 such project management terms, all developed by applying its definitional method. The terms include governance, power, ethics, leadership and their associated groups of terms. The book explores how disagreement can be resolved using these new clear definitions and extends this into an analysis of who 'good' ethics are good for. It also incorporates a section on "how to speak management and actually know what you are talking about", written in the style of an 'idiots guide' or 'guide for dummies'. This identifies common, everyday circumstances in which lack of agreed definitions cause avoidable confusion and provides the book's focus on conflict dissolution rather than on conflict resolution.

Constructing Blue Collar Leaders in a White Collar World LaMar Herndon, 2018-03-06 In Constructing Blue-Collar Leaders in a White-Collar World . . . Dr. LaMar Herndon considers a group of leaders often overlooked and occasionally denigrated-the-bivocational pastor. Constructing Blue Collar Leaders in a White Collar World integrates important

theoretical leadership concepts with spiritual and practical realities. Dr. Herndon explores important topics such as trends and issues facing the global church and its leaders, leadership models, values and ethics, character and integrity, cultural effects, creativity and innovation, reverse mentoring, and strategic planning. This book is a profoundly honest hands-on guide to what constitutes a true leader serving as a bivocational minister. -Dr. Gary Oster Regent University School of Business & Leadership, Virginia Beach, VA Down through my thirty plus years of education, ministry, and leadership I have read many books on the subject of leadership. Some have challenged me and inspired me, but none have done so at the level of *Constructing Blue Collar Leaders in a White Collar World*. As a State Minister, I work with many bivocational and blue collar Pastors. I will be using Dr. Herndon's book as a primary resource to assist me in working with those Pastors in challenging and inspiring them in their leadership development. -Dr. Darryl Allen State Minister KY Church of God Ministries, Adjunct Professor at Nazarene Bible College & Mid-America Christian University It [*Constructing Blue-Collar Leaders in a White-Collar World*] is an excellent presentation of leadership issues every pastor needs to understand to some degree. The chapter on Values and Ethics is worth the price of the book. Thanks for sharing the results of your many hours of study and hard work. -Ray Gilder National Coordinator Bivocational and Small Church Leadership Network, Bivocational Small Church Ministries Specialist Tennessee Baptist Convention Dr. LaMar Herndon presents leadership from a very down to earth and practical approach. This book seeks to help the bivocational church leader be effective while balancing these two worlds. I believe this book needs to be in every pastor, minister, and leaders library; whether bivocational or not. -Rev. Jewel D. Williams, M.R.E. (Church of God, Anderson, IN Author of *Fearfully and Wonderfully Made*, *Living our Theology*, and *the Path of a Preacher*

Ethics in Community-Based Elder Care Martha Holstein, 2001-10-11 Caring for elders outside of institutions is the fastest growing sector of US health care. Building on their research study at the Park Ridge Center, editors Holstein and Mitzen, together with a team of experts, examine the complexities involved in developing an ethics for community-based long-term care. They also challenge policymakers to make home care a more viable option for older people in need. Chapters address many of the ethical and practical problems that arise in the care of older people with physical and mental disabilities—including how to allocate scarce funds, how to keep good caregivers, how to balance concerns of autonomy, risk and safety, and worker stress. The volume is an excellent resource for practitioners, policymakers, and students.

Public Service Ethics James S. Bowman, Jonathan P. West, 2018-05-30 Ethics—in all its exemplary and exhausting forms—matters. It deals with the most gripping question in public life: What is the right thing to do? Now in a thoroughly

revised second edition, *Public Service Ethics: Individual and Institutional Responsibilities* introduces readers to this personally relevant and professionally challenging field of study. No matter the topic—the necessity of ethics, intriguing human behavior experiments, the role of ethics codes, whistleblowing incidents, corruption exposés, and the grandeur and decay of morality—there is no shortage of controversy. The book enables readers to: appreciate why ethics is essential to leadership; understand and apply moral development theory at the individual and organizational levels of analysis; differentiate between ethical problems and ethical dilemmas, and design creative ways to deal with them; develop abilities to use moral imagination and ethical reasoning—to appraise, argue, and defend an ethical position, and cultivate individual and institutional initiatives to improve ethical climate and infrastructure. Authors James Bowman and Jonathan West capture reader interest by featuring learning objectives, skill-building material, discussion questions, and exercises in each chapter. The authors’ narrative is user-friendly and accessible, highlighting dilemmas and challenging readers to own the book by annotating the pages with one’s own ideas and insights, then interacting with others in a live or virtual classroom to stretch one’s thinking about the management of ethics and ethics of management. The ultimate goal is to bolster students’ confidence and prepare them for the ethical problems they will face in the future, equipping them with the conceptual frameworks and context to approach thorny questions and behave ethically.
