An analysis of symbolic elements in the war poem "Dulce et Decorum est" by Wilfred Owen, 2021-02-15 Seminar paper from the year 2019 in the subject Didactics for the subject English - Literature, Works, grade: 2,3, University of Duisburg-Essen (Anglophone Studies), language: English, abstract: This term paper focuses on the Modern war poem "Dulce et decorum est" by Wilfred Owen. Although the majority of his poems became popular after the Second World War, Owen is considered as one of most influential war poets of his times as he set the tone for an entire generation. This paper will show that Wilfred Owen wrote his poem under the influence of French symbolism. The main goal of this paper is to analyze how Owen used symbolic elements in his poem in order to picture the experience of the First World War as so extremely cruel that it does not seem real, but like a nightmare in which the speaker is trapped.

The Human Record: Since 1500 Alfred J. Andrea, James H. Overfield, 1998

Sciences of Modernism Paul Peppis, 2014-02-28 *Sciences of Modernism* examines key points of contact between British literature and the human sciences of ethnography, sexology and psychology at the dawn of the twentieth century. The book is divided into sections that pair exemplary scientific texts from the period with literary ones, charting numerous collaborations and competitions occurring between science and early modernist literature. Paul Peppis investigates this exchange through close readings of literary works by Claude McKay, E. M. Forster, Mina Loy, Rebecca West and Wilfred Owen, alongside science books by Alfred Haddon, Havelock Ellis, Marie Stopes, Bernard Hart and William Brown. In so doing, Peppis shows how these competing disciplines participated in the formation and consolidation of modernism as a broad cultural movement across a range of critical discourses. His study will interest students and scholars of the history of science, literary modernism, and English literature more broadly.

Studies in English and American Literature John Levi Cutler, Lawrence Sidney Thompson, 1978 The book provides essays and articles that supplement *AN&Q*, a literary journal that focuses on American and European authors.

The Computer Culture Reader Joseph R. Chaney, Ken S. McAllister, Judd Ethan Ruggill, 2009-03-26 The Computer Culture Reader brings together a multi-disciplinary group of scholars to probe the underlying structures and overarching implications of the ways in which people and computers collaborate in the production of meaning. The contributors navigate the heady and sometimes terrifying atmosphere surrounding the digital revolution in an attempt to take its measure through examinations of community and modes of communication, representation, information-production, learning, work, and play. The authors address questions of art, reality, literacy, history, heroism, commerce, crime, and death, as well as specific technologies ranging from corporate web portals and computer games to social networking applications and virtual museums. In all, the essayists work around and through the notion that the desire to communicate is at the heart of the digital age, and that the opportunity for private and public expression has taken a commanding hold on the modern imagination. The contributors argue, ultimately, that the reference field for the technological and cultural changes at the root of the digital revolution extends well beyond any specific locality, nationality, discourse, or discipline. Consequently, this volume advocates for an adaptable perspective that delivers new insights about the robust and fragile relationships between computers and people.
