**Josep M. March Poquet, Antoni Sánchez Andrés**

**El poder** Steven Lukes, 2007-09 El poder es un concepto fundamental dentro de la ciencia social y política. La fecunda obra de Lukes, *El Poder: un enfoque radical*, sigue utilizándose ampliamente treinta años después de su publicación, y plantea la pregunta de cómo se asegura el poder sobre sujetos que lo aceptan voluntariamente. Esta nueva edición incluye: Un nuevo prefacio que explica el contexto en el que el libro de Lukes fue escrito. Dos nuevos capítulos que defienden la argumentación original de Lukes y analizan los principales debates sobre el poder que se han producido desde entonces. Una guía de lecturas complementarias y una extensa bibliografía.

*Labour Law Utopias* Nicolas Bueno, Beryl ter Haar, Nuna Zekic, 2024-07-17 *Labour Law Utopias: Post-Growth & Post-Productive Work Approaches* engages with new socioeconomic ideas that look beyond the current growth-driven competitive market economy. Building on analysis of economic growth, as well as the limits of the logic of human productivity and competitiveness for workers and the environment, it explores alternative approaches and what those will mean for work in general, and labour law in particular. The concept of 'post-growth' is used to rethink the purpose of the economy by looking beyond merely increasing wealth, consumption, and production, considering what this means for the position of work in society as well as the individual worker. The post-productive work approach is used to question the centrality of economically productive work and its regulation in labour laws. The chapters in this book take a progressive approach and discuss whether and how labour law can contribute to the emancipation of work from the constraints of growth and productivity by revisiting the value, organization, and impact of work. With these utopian ideas for labour law, the contributions in this book present inspirational 'dots on the horizon' that could guide the direction of changes in labour law as it navigates issues such as the implementation of digital and green solutions, the energy crisis, migration, rising inequality, and precariousness. **Organizaciones. Aproximaciones teóricas desde los estudios organizacionales** Olga Lucía Garcés-Uribe, 2020-04-01 Las reflexiones y disertaciones de este libro buscan propiciar un análisis de las dinámicas sociales en las organizaciones a partir de algunos marcos teóricos que le permiten al lector –específicamente al estudiante de pregrado y

posgrado de las áreas de la administración- tomar distancia de la mirada tradicional funcional-positivista. Abre así un espacio para pensar de manera distinta las organizaciones, pero, sobre todo, para contemplar las consecuencias éticas y sociales de su gestión, y establece un marco general que sirva para precisar conceptos, presentar su relación con el campo organizacional y exponer de forma general su clasificación. Ciertamente, muchas cosas quedarán por decir sobre los temas expuestos; no obstante, las limitaciones darán lugar a nuevos puntos de vista y nuevas discusiones.

**Presidential Elections in Mexico** Reynaldo Yunuen Ortega Ortiz,2017-07-06 This book analyzes the transformation of the Mexican political system during the last four decades, focusing on its presidential elections. As the country has shifted away from an authoritarian political system, ruled by a hegemonic party, it has become a more moderate, pluralistic society, marked by electoral competition between contestant parties. Using a mixed methodology, including historical and statistical analysis, the author argues that the fight for clean and fair elections in Mexico has a long history of contestation and conflict, entailing at once movements towards democracy yet also processes of de-democratization." /div

**Handbook of Critical Psychology** Ian Parker,2015-04-17 Choice Recommended Read Critical psychology has developed over time from different standpoints, and in different cultural contexts, embracing a variety of perspectives. This cutting-edge and comprehensive handbook values and reflects this diversity of approaches to critical psychology today, providing a definitive state-of-the-art account of the field and an opening to the lines of argument that will take it forward in the years to come. The individual chapters by leading and emerging scholars plot the development of a critical perspective on different elements of the host discipline of psychology. The book begins by systematically addressing each separate specialist area of psychology, before going on to consider how aspects of critical psychology transcend the divisions that mark the discipline. The final part of the volume explores the variety of cultural and political standpoints that have made critical psychology such a vibrant contested terrain of debate. The Handbook of Critical Psychology represents a key resource for researchers and practitioners across all relevant disciplines. It will be of particular interest to students and researchers in psychology, psychosocial studies, sociology, social anthropology and cultural studies, and to discourse analysts of different traditions, including those in critical linguistics and political theory.

Decrypting Power Ricardo Sanín-Restrepo,2020-05-19 Decrypting Power aims to reach a unifying concept that allows the connection of the fundamental theses stemming from critical legal studies, Subaltern studies, decolonization, law and society, global political economy, critical geopolitics and theories of de-coloniality. This volume proposes that this concept is the 'encryption of power', a category of analysis that reveals the weakness of political liberalism when it takes the place of the legitimate fundament of democracy, as well as its consummate capacity to conceal new mechanisms of global power. The theory of encryption of power understands that there is only a world where difference exists as the fundamental and sole order, but also that such a possibility is heavily obstructed by the concentration of power in forms of oppression. The world

hangs on the thread of this entangled reality, made up of difference and its denial, of democracy and its simulations, of truth and its codifications. The decryption of power is then, above all, a theory of justice essential to radical democracy, which comes fully-equipped to prevail over the conditions that deny the possibility of an egalitarian world.

*Intersectionality and the City* Lucie Bernroider, Anthony Miro Born, Christy Kulz, Sung Un Gang, 2025-06-06 This book combines intersectional perspectives and urban research to demonstrate the importance of intersectionality as a concept that can complement “refigurational” understandings of social change as the outcome of spatial conflicts. Showing how intersectionality enables us to grasp the intersecting categories of inequality in these spatial tensions, it remains attentive to the role of social difference and power in these processes, as well as to modes of normativity and resistance. With case studies gathered from a range of national contexts, it provides rich empirical insights into the relationship between urban spatialities, power dynamics, and embodied social inequalities, addressing the manner in which different conflicts are made manifest intersectionally in and through situated urban spaces. The chapters consider issues such as the gendering and racialization of urban spaces; urban marginality and environmental pressures; intersectional power dynamics in research; heteronormative and cisgender-centric structures in the city; aging in the city; young people, control, and insecurity; police violence; migrant emplacement and activism; racialized gentrification and commoning, and pandemic safety and protest, to explore the uneven outcomes of spatial planning and urban development. As such, it draws attention to the interplay of various forces in the production of exclusion and injustice and will therefore appeal to scholars of sociology, geography, and urban studies with interests in inequality, social change, and resistance to exclusion.

**Tomando en serio la teoría política** Isabel Wences, 2015 Tomando en serio la Teoría Política es un libro que recoge veintitrés trabajos realizados por profesores de distintas universidades españolas cuyas líneas de investigación se desarrollan en el marco de la Historia de las Ideas Políticas y/o la Teoría Política. Desde distintas perspectivas, el conjunto de estos investigadores reflexiona sobre el quehacer, objeto y facetas (primera parte), acción política (segunda parte) y algunas cuestiones relevantes de la actual política democrática (tercera parte) de la Teoría Política. A lo largo del libro el lector podrá advertir la importancia de la Teoría Política al ser ésta no sólo la que se encarga de la justicia y de las grandes preguntas, sino también la que proporciona las herramientas para reflexionar y potenciar el pensamiento y la interpretación crítica, otorgar significado a los fenómenos políticos y reflexionar sobre estrategias de acción. En definitiva, a través de todos los trabajos incluidos en el libro, se intenta demostrar que la Teoría Política es valiosa y necesaria para el estudio de la política, y que sin la Teoría Política y la Historia de las Ideas no podemos comprenderla adecuadamente.

Para una teoría de la democracia posible: pt. La democracia y lo democrático Carlos Strasser,1991 El presente volumen examina las dos cuestiones fundamentales de una teoría de la democracia: la primera se refiere al concepto mismo de la democracia y al análisis de la confrontación entre las grandes escuelas sobre las formas de gobierno y Estado. La segunda cuestión versa, no ya sobre la democracia, sino en lo democrático.
