Reparenting the Inner Child Nicole LePera,2026-03-26 From the internationally bestselling author of *How to Do the Work* and *How to Be the Love You Seek* comes a groundbreaking guide to healing our childhood wounds and rediscovering our full potential As adults, we often fall into patterns that feel irrational or out of character-shutting down, lashing out, people-pleasing, or self-sabotaging. Beneath those reactions lies our inner child, a younger part of us still trying to get its needs met the only way it knows how. We all carry the imprint of our earliest years. Childhood is brief, yet its impact is

lifelong. Some parts of us were met with love while other parts were met with silence, criticism, or disapproval. To survive, we learned to adapt-learning to over perform, to hide, or stay small. Most of us made it through with a mix of love and lack. And many of us still protect the parts of ourselves that once felt unsafe. While we can't change what happened, we can change how it lives within us and impacts our lives today. Reparenting the Inner Child offers a clear, compassionate path to self-integration, combining practical exercises, somatic tools, and guided reflections to help us create the safety, love, and boundaries we've always needed. Through her holistic framework that models individual development, Dr. LePera explains how we can cultivate the emotional maturity and regulation to respond calmly instead of reacting, to embrace desire instead of shame, and to question the stories we've long believed about who we have to be. Enlightening, empowering, and clarifying, Reparenting the Inner Child is a book that will stand the test of time as a comprehensive guide for personal development and healing, and a resource that will forever change the way we understand ourselves.

practical, reader-friendly, and inspiring primer on how to extend true connection and love to others.” —Gabor Maté M.D., New York Times bestselling author of *The Myth of Normal* From the author of the #1 New York Times bestseller *How to Do the Work* comes this paradigm-shifting guide to healing your relationships, beginning with the one you have with yourself. Relationships have always been essential to human survival. Our bodies and brains are programmed to seek out connection, whether familial, romantic, or platonic. And yet, these vital bonds are often at the root of our deepest suffering. While our hearts are primed for compassionate connection, our nervous systems—which store all our past hurts and disappointments—are wired for threat and negativity. For decades, leading relationship advice has maintained that successful relationships require a specific compromise—that we must change our authentic expression to better meet the needs of others, and vice versa. It may sound reasonable in theory, but as Dr. LePera explains, this approach is nothing less than a recipe for a lifetime of resentment. In *How to Be the Love You Seek*, #1 New York Times bestselling author Dr. LePera—whose integrative, holistic approach to psychology has attracted an international audience of millions—offers a new path to healing our relationships. Harnessing the latest scientific research, she teaches us to recognize how unmet needs from our earliest relationships create our current, dysfunctional relationship patterns, and leave us in a state of constant internal threat, even with those closest to us. This book, the last in her “How To” trilogy, illuminates the way out of trauma bonds and into relationships rooted in mutual respect and compassion. In it, you will learn how to create safety in your own body and mind; identify your unmet needs; develop emotional resilience; cultivate heart coherence to build deep emotional connections with others; and maintain healthy interdependence in our communities. Whether you struggle to maintain the kinds of relationships you want, or are facing a specific challenge with a spouse, partner, parent, sibling, child, friend, or colleague—Dr. LePera teaches us how to break painful cycles and reconnect with the wisdom, appreciation, and compassion that lives in each of our hearts. It is our heart’s innate capacity to love that is the true source of all healing. When we tap into that power, we can become the love we seek. Complete with stories, exercises, journal prompts, and other practical tools, *How to Be the Love You Seek* offers a healing roadmap for all generations of cycle-breakers.

#1 Cognitive Behavioral Therapy (CBT) is a standardized approach based on the theory that our thoughts affect and cause our emotions and behaviors. CBT works to identify the thought processes that cause troubled behaviors. However, Dr. Nicole LePera found that her patients were more complex than CBT could account for. #2 Holistic psychology looks at all aspects of a person, including their biological and sociocultural backgrounds. LePera found this extremely enlightening when looking at substance-abuse patients. She recognized their addiction included cycles of emotions, like always avoiding or seeking out certain emotions when dealing with trauma. #3 When LePera opened her own holistic psychology practice, she immediately began to see a pattern in her clients. All of them had underlying physical symptoms along with their own psychological issues. LePera found the connection startling, yet it was deemed unscientific by mainstream Western medicine. #4 Since the twentieth century, mainstream Western medicine has believed in genetic determinism, which states that our genes, along with any subsequent health problems, are determined at birth. It seemed extremely fatalistic to LePera, as all she could do for her patients was recommend them to psychiatrists for drug therapy.
