Epidemiología clínica Alvaro Ruiz Morales,Luis Enrique Morillo Zárate,2004

Sistemas de archivo y clasificación de documentos ARRIBAS DEL POZO, MIGUEL,2025-02-17 Cuando hablamos de archivos pensamos en un lugar polvoriento donde reina el silencio absoluto, lleno de papeles por todos lados y donde se acumulan documentos históricos de épocas pasadas. Con este libro vamos a realizar una aproximación global y real al mundo de los archivos teniendo muy en cuenta aspectos como el creciente uso de las tecnologías para conseguir un uso responsable y eficiente de la información. Comenzaremos tratando puntos clave como son la ordenación y sistemas de clasificación de archivos, atendiendo a los procedimientos internos que se llevan a cabo en una institución, tales como la planificación de las funciones a nivel interno y el tratamiento al que se van a someter los documentos. Estudiaremos además la utilización de sistemas de gestión de archivos a través de aplicaciones informáticas de gestión documental, y la manera en que ayudan a su posterior tratamiento, haciendo un análisis de su entorno dentro del propio sistema operativo y de las herramientas que facilitan su manejo. Cada epígrafe se complementa con actividades de autoevaluación, cuyas soluciones están disponibles en www.paraninfo.es. Los contenidos desarrollados en este manual se corresponden con la UF0347 Sistemas de archivo y clasificación de documentos, incardinado dentro del módulo MF0987_3 Gestión de sistemas de información y archivos, transversal a los certificados Asistencia documental y de gestión en despachos y oficinas (regulado por el RD 645/2011, de 9 de mayo) y Gestión integrada de recursos humanos (RD 1210/2009, de 17 de julio, y modificado por el RD 645/2011, de 9 de mayo), ambos dentro de la familia profesional de Administración y gestión. Miguel Arribas del Pozo es diplomado en Biblioteconomía y Documentación.

Ergonomía en las granjas de producción agrícola Guillermo Neusa,Cristina Argoti,2023-11-23 La presente investigación tiene como objetivo identificar la exposición laboral del galponero de las granjas avícolas, con base en los subprocesos productivos, actividades y tareas a desarrollar durante la jornada laboral; la aplicación de herramientas específicas como el uso de software, que permita individualizar la metodología ergonómica al identificar el factor riesgo (IFR)

por biometría postural y biomecánica. Adicional, se realiza un cálculo de la muestra poblacional de estudio y, por un cuestionario y entrevista, un diagnóstico inicial de los TME presentes en la población. La implementación y análisis de vigilancia epidemiológica por ergonomía geométrica, metódico, antológico y dialógico, como contexto de literatura de casos para el control médico ocupacional en las granjas avícolas.

La Traducción y sus meandros Iris Holl, Beatriz de la Fuente Marina, 2022-05-20 Este volumen reúne una serie de artículos en torno a la traducción y la interpretación en el par de lenguas alemán-español. Se estructura en distintas secciones temáticas, como reflejo de los diversos enfoques a los que da cabida: teoría de la traducción, historia de la traducción, traducción literaria, traducción especializada, lingüística, didáctica de la traducción e interpretación. En estas páginas se encontrarán enfoques históricos como los que pasan revista a las traducciones de la obra romántica Peter Schlemihls wundersame Geschichte, de la tetralogía wagneriana El anillo del Nibelungo o de los cuentos más emblemáticos de los hermanos Grimm. En otros artículos, los autores reflexionan sobre sus propias experiencias de traducción, incluyendo la esfera de la autotraducción. Se adoptan también perspectivas novedosas, como el análisis de los textos periodísticos de temática medioambiental desde una perspectiva ecolingüística o la aplicación de las teorías queer al análisis de traducciones. No faltan tampoco las contribuciones en el área de la lingüística contrastiva, de la lingüística de corpus y de la traducción especializada (catalogación de errores en la traducción biosanitaria, la fraseología en los textos jurídicos y médico-farmacéuticos, la hibridez textual, los neologismos relacionados con el terrorismo y los eufemismos de la crisis económico-financiera). Se abordan asimismo cuestiones relacionadas con la didáctica, como una reevaluación del método de gramática y traducción o el estudio de los argumentos elaborados por los estudiantes en los comentarios de traducción. Finalmente, los artículos dedicados a la interpretación estudian la comunicación intercultural en la antigua colonia alemana de Namibia, el lenguaje no verbal en la interpretación para los servicios públicos o el humor en conexión con la interpretación simultánea. Les deseamos un placentero viaje por estos meandros de la traducción e interpretación en el par de lenguas alemán-español.

The PDCA Cycle for Industrial Improvement Arturo Realyvásquez Vargas, Jorge Luis García Alcaraz, Suchismita Satapathy, José Roberto Díaz-Reza, 2023-03-27 This book provides a conceptual description of the PDCA cycle and the tools that support it. A brief literature review is given for each tool, indicating the timeline according to Scopus, the main areas in which they are applied, the main authors and the journals that most publish on these topics. It reports three industrial applications, one focusing on cost reduction, the second on optimizing a manufacturing company's raw material receiving process, and the third one on eliminating waste and increasing performance.

Publicación científica biomédica Josep Jiménez Villa, 2010 1. La literatura científica biomédica. PARTE I. ELABORACIÓN DE UN MANUSCRITO: 2. Preparativos para la redacción de un manuscrito. 3.
