The book covers a specific field of knowledge. This intends to cover not only two fields of knowledge—Education and Technology—but also the interaction among them and the impact/result in the job market and organizations. It covers the research and pedagogic component of Education and Information Technologies but also the connection with Society, addressing the three pillars of higher education. La gran transición Rafael Poch de Feliu,Rafael Poch,2003 Rusia es un «país-mundo» que ocupa la sexta parte de la superficie terrestre, está dotado de enormes recursos naturales y en él se da todo el pluralismo civilizatorio -étnico, religioso y cultural- del planeta. Por eso su transición está siendo especialmente complicada y azarosa. Esa transición ha supuesto el hundimiento de un superestado multinacional y también el fin del orden mundial bipolar instaurado en 1945. Este es un libro excelentemente bien informado, escrito por el corresponsal de La Vanguardia en Moscú durante catorce años y testigo personal, por tanto, de ese complejo proceso de transición que diecisiete años después aún no ha concluido y cuyo desenlace gravita ominosamente sobre el mundo entero.
