ML Morrison

James Joyce's Early Works in Ireland's Textual Cultures Niels Caul, 2025-10-16 Putting Joyce back into dialogue with other Irish writers of his generation, this book shows that his experiments with narrative styles and structures were a renegotiation rather than a rejection of earlier Irish conventions. While Joyce is undoubtedly the best known, other Irish writers were also influenced by European movements in naturalism and decadence that were shaping European Modernism as it emerged in the 1890s. Reading Joyce's works in the context of often forgotten contemporaries such as George Moore, George Egerton, Hannah Lynch, Shan Bullock, Forrest Reid and Charlotte O'Connor Eccles enhances our understanding of their works as well as Joyce's, both thematically and stylistically, and shines a much-needed light on previously critically underexamined writers. By focusing on the transformation of Joyce from Irish writer to Modernist artist we gain crucial insights into why many of Joyce's contemporaries are not read today despite their initial popularity. This book utilises Joyce's troubled publication and reception history to identify the wider trends of the Irish short story cycle and Bildungsroman, thereby enhancing readers' understanding of the literary marketplace for Irish books in this period."

History on the Margins John Merriman, 2018-12 In his distinguished career as a historian of modern France, John Merriman has published ten books and scores of scholarly articles. This volume collects some of his most notable and significant explorations of French history and culture. In a wide-ranging introduction Merriman reflects on his decades of research and on his life, lived increasingly in France. At the beginning of his career he was determined to be not a narrow specialist but a historian who engaged with all the regions of France. So he set himself the goal of doing archival research in every single département of the country. A permanent resident of the small village of Balazuc in the Ardèche for more than twenty-five years, he laments what he sees as the over-professionalization of history at the expense of passion for one's field. Yet Merriman is no cranky, tweed-bound scholar. Beloved by generations of historians of France, many of whom he has mentored (both as a graduate advisor and more informally), Merriman offers reflections on his life in history that will be of interest to a broad audience of historians.

Soviet Literature in the Sixties Max Hayward, Edward L. Crowley, 2024-11-26 Soviet Literature in the Sixties (1965) examines the Soviet literary scene and its changes following the death of Stalin. Not least among these changes was the increasing freedom given to writers to protest against the injustices of Soviet life and to question the consistency of socialist realism.

The New International Dictionary of Quotations, 2000 Cross-referenced by subject and indexed by author, this volume serves as an indispensable guide to over 4000 quotes by famous authors and speakers.
