Prose Quotations from Socrates to Macaulay Samuel Austin Allibone, 1880

Music Borrowing and Copyright Law Enrico Bonadio, Chen Wei Zhu, 2023-10-19 This ground-breaking book examines the multifaceted dynamics between copyright law and music borrowing within a rich diversity of music genres from across the world. It evaluates how copyright laws under different generic conventions may influence, or are influenced by, time-honoured creative borrowing practices. Leading experts from around the world scrutinise a carefully selected range of musical genres, including pop, hip-hop, jazz, blues, electronic and dance music, as well as a diversity of region-specific genres, such as Jamaican music, River Plate Tango, Irish folk music, Hungarian folk music, Flamenco, Indian traditional music, Australian indigenous music, Maori music and many others. This genre-conscious analysis builds on a theoretical section in which musicologists and lawyers offer their insights into fundamental issues concerning music genre categorisation, the typology of music borrowing and copyright law's ontological struggle with musical borrowing in theory and practice. The chapters are threaded together by a central theme, ie, that the cumulative nature of music creativity is the result of collective bargaining processes among many 'musicking' parties that have socially constructed creative music authorship under a rich mix of generic conventions.

The Other Evangelicals Isaac B. Sharp, 2023-04-18 What's the first thing that comes to mind when you hear "evangelical"? For many, the answer is "white," "patriarchal," "conservative," or "fundamentalist"—but as Isaac B. Sharp reveals, the "big tent" of evangelicalism has historically been much bigger than we've been led to believe. In *The Other Evangelicals*, Sharp brings to light the stories of those twentieth-century evangelicals who didn't fit the mold, including

Black, feminist, progressive, and gay Christians. Though the binary of fundamentalist evangelicals and modernist mainline Protestants is taken for granted today, Sharp demonstrates that fundamentalists and modernists battled over the title of “evangelical” in post-World War II America. In fact, many ideologies characteristic of evangelicalism today, such as “biblical womanhood” and political conservatism, arose only in reaction to the popularity of evangelical feminism and progressivism. Eventually, history was written by the “winners”—the Billy Grahams of American religion—while the “losers” were expelled from the movement via the establishment of institutions such as the National Association of Evangelicals. Carefully researched and deftly written, *The Other Evangelicals* offers a breath of fresh air for scholars seeking a more inclusive history of religion in America.
