Education for Social Workers in the Correctional Field Elliot Studt,1959

Social Work in Juvenile and Criminal Justice Settings Albert R. Roberts,David W. Springer,2007 In this completely revised and updated classic, Professors Roberts and Springer, along with 51 justice-oriented and forensic experts, have set the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders, and their families. The second edition of Social Work in Juvenile and Criminal Justice Settings was published almost ten years ago in 1997, and was also translated to Chinese. Now Dr. Roberts, Dr. Springer, and their team of 51 prominent chapter authors have done such a thorough job of updating and finding new authors, that the end result is a comprehensive new book. In this third edition, 16 of the 31 chapters are new and specially written for this book. A growing number of mental health professionals are recognizing the need to examine current evidence-based program developments, assessment, and treatment practices with crime victims and offenders. This book focuses on the multiple roles and practices of justice social workers, also known as forensic social workers and crisis counselors. Many professional social workers, counselors and field placement students work in corrections and probation, forensic mental health, addictions treatment, juvenile justice, victim assistance, and police social work settings. In the words of Dean Barbara W. White (former President, Council on Social Work Education, and NASW) in her laudatory Foreword to this edition: This groundbreaking book provides the necessary blueprints and guidelines for best practices with crime victims as well as juvenile and adult offenders in institutional, community- based, diversion, and aftercare programs. . . . This is the first all-inclusive, authoritative, exceptionally well-written volume on social policies and social work practices in both juvenile justice and criminal justice settings. . . . This book is a landmark achievement. An increasing number of offenders and victims have been found to be

Offenders or Citizens? Philip Priestley, Maurice Vanstone, 2012-12-06 The punitive prison currently dominates the practice of Anglo-American criminal justice, stigmatising its victims as perpetual 'offenders' and failing to change a majority of them for the better. Books of academic 'readings' sometimes profess neutrality over the controversies they invigilate. *Offenders or Citizens?* sits on no such fences, its pages reflect the fiercely partisan nature of the contest between rehabilitation and punishment. Probation, social work, youth justice, law, corrections, criminology, journalism, philosophy, politics, popular culture, psychology, anthropology, and sociology – the voices of participants, professionals, and writers from many realms are all represented in this lively selection. Its aim – to stimulate and furnish a debate about the proper place of rehabilitation within a plural, morally defensible, and effective response to crime. This book will be essential reading for both students and practitioners within criminal justice, who have an interest in the rehabilitation of convicted individuals, and providing an essential broader context to the 'what works' debate.
