Investing in the Educational Success of Black Women and Girls Lori D. Patton, Venus Evans-Winters, Charlotte Jacobs, 2023-07-03 “In the powerful essays that make up *Investing in the Educational Success of Black Women and Girls*, Black women and girls are listened to, appreciated and valued in recognition of the unrelenting challenges to our existence in a world that continues to be committed to stifling our voices. What these authors know intimately is that such stifling is not because what Black women and girls are saying isn’t important: It is precisely because it is. This book names the challenges Black women and girls continue to experience as we pursue our education and offers implications and recommendations for practitioners, teachers, administrators, and policymakers. [It] needs to be read widely and deeply studied as much for its formations and beautiful representations of Black women and girls as its recommendations. It is the truth-telling we need today and a groundbreaking resource we need today and beyond.”—Cynthia B. Dillard (Nana Mansa II of Mpeasem, Ghana), Athens, Georgia; and Cape Coast, Central Region, Ghana While figures on Black women and girls’ degree attainment suggest that as a group they are achieving in society, the reality is that their experiences are far from monolithic, that the educational system from early on and through college imposes barriers and inequities, pushing many out of school, criminalizing their behavior, and leading to a high rate of incarceration. The purpose of this book is to illuminate scholarship on Black women and girls throughout the educational pipeline. The contributors—all Black women educators, scholars, and advocates—name the challenges Black women and girls face while pursuing their education as well as offer implications and recommendations for practitioners, policymakers, teachers, and administrators to consider in ensuring the success of Black women and girls. This book is divided into four sections, each identifying the barriers Black girls and women encounter at the stages of their education and offering strategies to promote their success and agency within and beyond educational contexts. In Part One, the contributors explore the importance of mattering for Black girls in terms of redefining success and joy; centering Black girl literacy pedagogies that encourage them to thrive; examining how to make STEM more accessible to them; and recounting how Black girls’ emotions and emotional literacy can either disempower them or promote their sense of agency to navigate educational contexts. Part Two uncovers the violence directed toward and the criminalization of Black women and

girls, and how they are situated in educational and justice systems that collude to fail them. The contributors address incarceration and the process of rehabilitation and reentry; the outcomes of disciplinary action in schools on women who pursue college; and describe how the erasure and disregard of Black women and girls leaves them absent from the educational policies that deeply affect their lives and wellbeing. Part Three focuses on how Black women are left to navigate without resources that could make their collegiate pathways smoother; covers how hair politics impact their acceptance in college leadership roles, particularly at HBCUs; illuminates the importance of social/emotional and mental health for Black undergraduate women and the lack of adequate resources; and explores how women with disabilities navigate higher education. The final part of this book describes transformative approaches to supporting the educational needs of Black women and girls, including the use of a politicized ethic of care, intergenerational love and dialogue, and constructing communities, including digital environments, to ensure they thrive through their education and beyond.

Breaking Free Marcie Bianco, 2023-09-05 A bold argument that “equality” is a racist, patriarchal ideal that perpetuates women’s systemic oppression and limits the possibilities of feminism—with a plan to transform the movement. For more than a century, women have fought for equality. Yet, time and again, their battles have fallen short. Even so-called constitutionally-protected equal rights can be withdrawn by judges and undermined by legislators. But the greater problem is in the notion of equality itself. In *Breaking Free*, culture writer Marcie Bianco persuasively argues that the very concept of equality is a fallacy, an illusory goal that cannot address historic forms of discrimination and oppression. Starting with the campaign for women’s suffrage and traveling through modern history, she shows us how equality has been designed to keep women and disenfranchised communities chasing an unobtainable goal. Conditioned for generations to want equality, it has become an insidious mindset locking us into the gender binary and reductive identity politics. Bianco calls upon a long-overlooked lineage to argue that only freedom can liberate feminism from these constraints, and proposes three freedom practices for women to reclaim their bodily autonomy and power. What happens if we free ourselves of equality? Controversial and thrilling, *Breaking Free* guides readers toward new hope for the future of the feminist movement.

What's Wrong With Her Aaron Fields, 2021-05-27 It's important for black men to understand that not all, but most black women don't give a damn about you. Unfortunately since the vast majority of black women are easily susceptible to

manipulation, many of them have been contaminated and poisoned by many of these destructive ideologies society has put on them. In order for the black woman to heal, the black man has to know who he is and solidify his purpose in life so he can be able to elevate his level of existence in this society. In order to heal the black woman, the black man must get his life in order first. Sadly, the black community does not have a functional culture. A major reason why most black women love to promote chaos, confusion and anarchy is because they know that black men as a collective are not on the same page. In order for black men to regain their leadership, respect, and dignity, black men as a collective must have standards, boundaries, and a code of ethics to adhere to.

The Black Woman's Guide to Black Men's Health Collier Andrea King Edwards Willarda V,2014-05-21 This is a comprehensive medical guide for black women to help them improve the health of the black men they love. It is packed with valuable information, advice and personal stories from celebrity and non-celebrity women about their men's health issues.

What's Wrong With Her? A Black Man's Guide To Understanding, Evaluating & Healing The Black Woman Vol 3 Aaron Fields,2024-08-06 Gentlemen when it comes to understanding, evaluating, and healing the black woman, the first thing you must learn how to do is elevate your mind and your spirit. Focus on higher things and always remember that it's your responsibility to be a stable minded individual. As a collective, we must not intentionally bring instability or negativity into black women's lives. Keep in mind that many black women are going through a lot physically, emotionally, mentally, financially and spiritually. Therefore, it is essential for us as black men to provide guidance, stability, love and healing. We cannot leave it up to the black women in our community to solve the problems that are taking place within our culture. As black men, if we refuse to uplift ourselves and better our lives, we will never become the best version of ourselves.

What's Wrong With Her Vol 2 Aaron Fields,2022-07-10 It's important for the black man to understand how strong mentally, emotionally, psychologically, financially, and spiritually he must be in order to endure some of the issues that will transpire when interacting with the liberal black woman. If you're not prepared on how to deal with black women, you're going to lose your mind. The black man is so busy arguing and going back-and-forth with the black woman, he can't even be the best version of himself. The black woman is a blessing from God, but if you're not careful, she can be your greatest curse and a major distraction. Sadly, too many black women in our community are mentally fractured and psychologically disturbed largely due to the weakness of the black man's mindset. The black man doesn't realize that most of his issues with black women can be averted if he starts thinking and operating on an optimal level.

The Best Kind of Loving Gwendolyn G. Grant, 1996-01-05 It has often been said that if white America has a case of the sniffles, Black America catches walking pneumonia. When this credo is applied to relationships, common problems such as inadequate communication, commitment fears, financial struggles and infidelity carry an even greater weight. Yet, with hundreds of relationship books on the market, virtually none has explored the specific circumstances impacting relationships between African-American men and women. In *The Best Kind of Loving: A Black Woman's Guide to Finding Intimacy*, renowned psychologist Dr. Gwendolyn Goldsby Grant addresses head-on the complex challenges in African-American relationships. In addition to the social dynamics affecting male-female communications in general, as African-Americans, we carry the added burdens of myths and stereotypes that grow out of our real history of slavery, second-class citizenship and economic disenfranchisement, Grant explains. In writing *The Best Kind of Loving*, Grant has provided an invaluable resource for Black women searching to understand the choices they make, the men they love and how to make the most of their strength, intelligence and wit. Compulsively readable, *The Best Kind of Loving* is unique in its scope and vision; women of all races and backgrounds will laugh, sympathize and nod their heads in recognition as they read about others not unlike themselves. Giving both pragmatic and realistic advice, Grant serves both as an advisor and confidant; she knows which situations may not work out, but also gives women ways to make the best of less-than-ideal circumstances.
