Be Still Stacey Pylman,2022-07-14 In peace I will lie down and sleep, for you alone, Lord, make me dwell in safety. - Psalm 4:8 Pregnant mothers on bed rest are often fearful, anxious, bored, tired, uncomfortable, hurting, lonely, stressed, and feel helpless. Yet, they can only 'be still' for their unborn children. In this vulnerable state they need God most. This devotional will bring them close to God as He carries them through. Each devotion contains encouraging Bible verses, insights from a mom who has been there and felt God hold her in her weakness, song suggestions to lift spirits and prompt worship, and tips for surviving bed rest.

Impossible Bodies Christine Holmlund,2013-11-05 Impossible Bodies investigates issues of ethnicity, gender, and sexuality in contemporary Hollywood. Examining stars from Arnold Schwarzenegger and Clint Eastwood, to Whoopi Goldberg and Jennifer Lopez, Holmlund focuses on actors whose physique or appearance marks them as unusual or exceptional, and yet who occupy key and revealing positions in today's mainstream cinema. Exploring a range of genres and considering both stars and their sidekicks, Holmlund examines ways in which Hollywood accommodates - or doesn't - a variety of 'impossible' bodies, from the 'outrageous' physiques of Dolph Lundgren and Dolly Parton, to the almost-invisible bodies of Asian-Americans, Latinas and older actors.

Between Distant Modernities Brittany Powell Kennedy,2015-02-12 For centuries, Spain and the South have stood out as the exceptional other within US and European nationalisms. During Franco's regime and the Jim Crow era both violently asserted a haunting brand of national selfhood. Both areas shared a loss of splendor and a fraught relation with modernization and retained a sense of defeat. Brittany Powell Kennedy explores this paradox not simply to compare two apparently similar cultures but to reveal how we construct difference around this self/other dichotomy. She charts a transatlantic link between two cultures whose performances of otherness as assertions of selfhood enact and subvert their claims to exceptionality. Perhaps the greatest example of this transatlantic link remains the War of 1898, when the South tried to extract itself from but was implicated in US imperial expansion and nation-building. Simultaneously, the South participated in the end of Spain as an imperial power. Given the War of 1898 as a climactic moment, Kennedy explores the writings of those who come directly after this period and who attempted to regenerate what was perceived as traditional in an agrarian past. That desire recurs over the century in novels from writers as diverse as William Faulkner, Camilo José Cela,

Walker Percy, Eudora Welty, Federico García Lorca, and Ralph Ellison. As these writers wrestle with ideas of Spain and the South, they also engage questions of how national identity is affirmed and contested. Kennedy compares these cultures across the twentieth century to show the ways in which they express national authenticity. Thus she explores not only Francoism and Jim Crow, but varied attempts to define nationhood via exceptionalism, suggesting a model of performativity that relates to other exceptional geographies.

web limit state method identifies the basic instability of loads
and allocates a much greater factor of safety to live loads it
may be raised by 1.5 1.6 while it identifies that dead loads
are much nearer to what has been computed dead loads are
multiplied by 1.2
