**Summary of Alan Cohen's A Course in Miracles Made Easy** Milkyway Media,2024-01-24 Get the Summary of Alan Cohen's A Course in Miracles Made Easy in 20 minutes. Please note: This is a summary & not the original book. A Course in Miracles Made Easy by Alan Cohen presents the dichotomy of fear and love, advocating for love as the path to miraculous outcomes. The book teaches that our true identity is spiritual, beyond worldly attributes, and that our subconscious mind shapes our experiences. It encourages seeing the world as meaningless to allow the truth to bring happiness and to reverse the world's inverted beliefs...

**A Course in Miracles - Explanations of Major Themes** Michael Dawson,2017-05-05 A Course in Miracles can be difficult to understand on first reading as it is written on quite a high intellectual level. It can help to read some introductory material alongside a study of the Course. This series of articles and diagrams is presented with that in mind. This eBook begins with some brief, introductory material covering how A Course in Miracles came, what it is and a summary with charts. It is followed by a collection of 33 articles and diagrams I have written over recent years; they explore many of the themes found in the Course, including the metaphysical and practical teachings. At the end of this book you will find two 'bonus chapters' ('Healing Ourselves' and 'The Ladder of Forgiveness') - excerpts from two of my other books (Healing the Cause and The Findhorn Book of Forgiveness). A Course in Miracles has been the inspiration for this book. What I have written is my own interpretation of some of the principles in the Course and, as such, it cannot match the depth and purity of the original teaching. If you find my writings of interest I would encourage you to study the Course's teaching, for which there can be no substitute.

**Cura Personalis** Antonia C. Johns,2013-02 The physician-patient bond is a significant relationship, intended to effect healing in our patient -- but is it the patient alone who benefits? We are all patients at some point. As a patient, how well do we know our self, how clearly do we communicate what troubles us to our doctor, to others? Even when we are feeling

healthy, we remain aware of some aspects of our lives that need healing. For many of us, it is our relationships that need healing. This book is an essential exploration into the challenges inherent in the physician-patient dynamic and extends the findings to other important encounters. The reason it is appropriate for everyone, physician or not, is because the principles adhered to in its writing are universal in reach and eternally relevant. Its sole purpose is to promote healing in our world, individually and collectively. Whatever our vocation we are each called to be an essential effective healer in some way that is natural to us, our gift to the world. Here we are reminded that when we promote conditions for healing in our relationships we manifest miracles naturally.

*Living with Miracles* D. Patrick Miller, 2011-05-12 The first comprehensive guide to studying A Course in Miracles, for readers at all levels of experience. The channeled writings of A Course in Miracles have touched millions of lives. And yet ACIM can be surprisingly difficult to navigate. From its often complex concepts about the nature of the ego, reality, and love; to the many intense, surprising, personal changes it can bring into readers' lives, ACIM presents a challenge for even the most motivated students. Now D. Patrick Miller-the leading historical chronicler of ACIM and a highly respected authority on its teachings-provides the definitive how-to manual for engaging with ACIM. His guide distills years of hard-won insights and helps students navigate the sometimes intense experience. *Living with Miracles* is designed to make even the novice comfortable when approaching ACIM. Miller leads the reader through the most common emotions, reactions, and questions that arise when studying ACIM; provides insights and tips about pacing yourself, as well as when and how to take breaks from study; and gives advice on working through early misconceptions and difficult later stages. He also provides useful, absorbing historical material, stories from practitioners around the world who reflect honestly on their experiences, and a resources section with ideas for those looking to continue their study of this remarkable spiritual teaching.
