The Qur'an Explained in Layman's Language P. Jainulabdeen, 2023-07-25 This book offers explanations to misconceived notions in the minds of some people about verses, words and phrases of the Quran. An essential clear understanding is imperative to imbibe the ideologies propounded by the authors and rightful owners of books containing the said ideology. Here the ideology known as Islam has its author as 'The Creator' and His prophets, any misunderstanding and misconceptions about the contents of the book by men would lead them to a disastrous end in their hereafter life. This compilation of explanations for the words, phrases and verses of the Quran by the Tamil Islamic Scholar widely known as PJ is unique and challenges some preconceived, ill-conceived notions of established, traditional thinking deeply seated in the minds of Muslims all over the world, and in Tamil Muslims in particular. May the Almighty bless all those who are rightly guided by him.

The Quran Speaks Bahis Sedq, 2018-02-14 Even those who dispute the Quran do not question that it is in its original form. This enables one to travel back in time to take a closer look at the Prophet Muhammad, who is amongst the most towering personalities in history. This book avails that priceless chance to reconstruct his life based on evidence as well preserved as the Quran. It also explores the Quran's message on issues ranging from justice and women to the treatment of other religions, to see if the disconnect between certain Islamic practices and the modern world is based on misreading of the Quran. Among other topics, the book assesses the claims that the Quran is a scientific miracle, contains no inconsistencies, and is a masterpiece of literature, and also discusses the controversial incident of the "Satanic" verses in light of disclosures in the Quran. The effort is to gain a holistic understanding of possibly the most influential book of all time. The author has chosen to write under a penname, Seeker of the Truth, but remains optimistic of disclosing his identity in the future. He does not doubt that a vast majority of Muslims would allow him to express the views noted in this book, which are founded on the Quran. "Sedq uses many different translations of the Quran to present the material as clearly and sensibly as possible. ... Bottom line: This is an intriguing, engaging look at a religion still misunderstood by many in the West. ... It is bound to provoke heated debate." -Blueink Review "A searching look at the teachings of the Quran. ... Sedq takes up several common assertions about the Quran and subjects them to a scholarly, thorough, and often refreshingly cant-free contemporary analysis that takes modern social norms and literary scholarship into account. ... Sedq offers an interpretative look at the

Quran that curious minds of all faiths will find fascinating.” -Kirkus Reviews What’s the most interesting or important book to come out recently about the Islamic world? “The Quran Speaks by Bahis Sedq: a hugely important book by a scholar of Islam who is, to my mind, the most sophisticated of all the dissidents in the Muslim world. He could be the Muslim Luther, if there were only a way to keep him safe.” -Ayaan Hirsi Ali in The New York Times

The Scientific Miracles In The Quran Alhassan Maliba ,2024-06-08 The Scientific Miracles in the Quran explores the fascinating connection between the Islamic holy book and modern scientific discoveries. For centuries, scholars and researchers have been amazed by the scientific accuracy of many Quranic verses, which were revealed over 1400 years ago. From the creation of the universe to the development of the human embryo, the Quran contains detailed descriptions that seem to anticipate many of the discoveries of modern science. In this book, readers will embark on a journey through the Quranic verses that address scientific topics, such as astronomy, geology, biology, and more. They will learn about the scientific theories and discoveries that have been confirmed by the Quran, as well as the mysteries that continue to baffle researchers. With a deep respect for both science and religion, The Scientific Miracles in the Quran presents a compelling case for the harmony between these seemingly disparate fields. It is a must-read for anyone interested in the fascinating intersection of faith and science, and the mysteries of the universe that continue to inspire wonder and awe.

Islamic Spirituality Seyyed Hossein Nasr,2013-11-05 Originally published 1987. The first part of the volume is concerned with The Roots of the Islamic Tradition and Spirituality. These are seen to include the Qu’ran as the central theophany of Islam, the Prophet who received the word of God and made it known to mankind and the rites of Islam. The second part examines the divisions of the Islamic community with their distinctive pieties and emphases: Sunnism and Shi’ism and female spirituality. Part III is devoted to Sufism – its nature and origin, its early development, its various spiritual practices and its science of the soul.

Jesus and Muhammad 2 Rays of the Same Light Karim Shabazz,2018-06-29 The book Jesus and Muhammad 2 Rays of the Same Light takes the reader on a journey through the authentic teachings of Jesus and Muhammad. During the course of this journey, each reader is presented with numerous themes and topics that were excellently addressed by Jesus in the New Testament and that were also superbly addressed by Muhammad in the Quran, thus illustrating profound similarities, complements, and parallels. Providing ample food for thought and reflection, the book provides numerous examples where the teachings of Jesus and Muhammad clearly demonstrate continuity, balance, and congruence. An excellent analysis is made of The Sermon on the Mount, also entitled The Beatitudes, from Jesus while on the mountain compared to The Farewell Sermon, also entitled The Final Sermon, of Muhammad, also delivered while on a mountain. The critical insights and synergy is compelling and indeed thought-provoking, as well as inspirational. The book brilliantly explores the subject of religious interfaith, providing scriptural support from Jesus, as per the New Testament, and from Muhammad, as per the Quran, as an

unbiased platform. The book does an excellent job of identifying numerous examples where the teachings of Jesus and Muhammad do indeed portray them as two rays of the same light!

Creation in Pairs Jamir Ahmed Choudhury, 2025-11-05 Truth is not a possession—it is the shared heritage of humanity. The right to education implies the right to communicate truth-based learning, aligning with Article 29 of the UN CRC and Section 29 of India's RTE Act (2009). NCERT affirms that science is neutral and universally accepted by the global scientific community. Yet, this book argues that today's global education system—shaped by UN-led governance—is flawed and self-contradictory. NASA-driven global systems and UNESCO-led curricula fail to deliver a truly neutral science, as they contain logical inconsistencies and ethical fallacies. Freedom of religion, internationally recognized, is inseparable from the right to communicate education grounded in natural truths, such as the principle of creation in pairs. Drawing upon both the Quran ("Kitaaba bil-Haq") and empirical evidence, the book urges policymakers and educators to adopt frameworks that reflect nature's equal and opposite a priori principles—an obligation reinforced by the UDHR and other human rights instruments. At its core, the book asserts that nature's equal and opposite a priori principle, evident in creation in pairs and further exemplified by Newton's Third Law, is fundamental to the universe. Reality is governed by balanced and reciprocal relationships—male and female, day and night, birth and death, action and reaction—that exist independently of human constructs. Recognizing and restoring this natural equilibrium is essential for humanity to reclaim its inherent rights and free itself from misleading global narratives. The denial of "creation in pairs" is, therefore, a denial of nature's universal and self-evident law of balance.

The Interpretation of the Secret Letters of the Noble Quran Sayed H Rohani, 2019-07-22 The biggest secret of the Holy Quran is not to keep a thing in secret but to reveal the truths, the mysteries, the concealed, the uncertainties, the unknown, and even to leave its door wide open to the interpretation of its enigmatic letters. When I started this book, I posed two questions: Am I capable of going after this enterprise? Am I allowed to go after it? Searching for the answers, I found them in the positive. I am convinced that whatever is in the Holy Quran is to be revealed and publicized so that the people should benefit from, including its enigmatic letters. The Almighty has not sent them to us to keep their interpretation concealed. Quran is a revelation to be delivered and disclosed to the people as a source of knowledge and leading light, not to go into hiding, which imports no significance. God has enough knowledge to hide from us, as He explains in His book: And if all trees in the earth were pens, and the sea, with seven more seas [were ink] to help it, the words of Allah could not be exhausted. Lo! Allah is Mighty, Wise (Quran, 31:27). Thus, Allah has a plethora of knowledge to keep it hidden from us, but what He has sent us down is not to go into hiding. I am convinced that good comes from Allah, and so does knowledge, which is good, as Allah has explained it in Quran: Whatever good comes to you is from Allah, and whatever evil comes to you is from yourself (Quran, 4:79). Therefore, on the basis of this verse, not only this good, but all other good deeds also have come and are to come from God. Wisdom, which is the greatest treasure, a special bounty, comes from God first and foremost, as it is explained in the Noble Quran: He gives wisdom to whoever He wills and whoever has been given wisdom has been given great good. But no one pays heed except the people of intelligence (Quran, 2:269).
