Politics of the Periphery Pierre Hamel,2024-01-31 New urban forms characterizing contemporary metropolises reflect a certain continuity with the patterns of the past. They also include unexpected forms of settlement and design that have emerged in response to social and economic needs and as a way of leveraging new technologies. *Politics of the Periphery* sets out to explore sub/urban governance in diverse contexts in order to better understand how materiality and space are shaped by the possibilities and constraints of confronting actors. This collection, edited by Pierre Hamel, examines the empirical aspects of collective action and planning in eight urban regions around the world - across North America, Europe, Asia, and Africa - and reveals the impacts and consequences of various structures of suburban governance. The case studies feature a diverse range of local actors facing both the specificity of their respective milieus and the broader context of extended urbanization as metropolitan regions cope with new territorial challenges. The book focuses on suburbanization processes that characterize most of these post-metropolitan regions and questions whether it is possible to improve suburban governance in the face of growing uncertainties arising from structural and subjective transformations. Paying close attention to the relationship between the local and the global, *Politics of the Periphery* challenges the planning processes of evolving metropolitan regions.

and science fictional modes across South and Southwest Asia and North Africa (SSWANA), examining their historical connections, inter- and intra-regional entanglements, overlaps, and differences. Conceptualizing science fiction and fantasy (SFF) as a mode rather than a genre, this volume challenges the putative boundaries between literary and genre fiction through critical studies and essays focusing on SFF from Bangladesh, Egypt, India, Iran, Pakistan, Palestine, Sri Lanka, and Turkey. It demonstrates the ways in which science fictional modes of thinking and imagination function as critical tools for addressing social, cultural, and political issues beyond genre conventions and expectations. Bringing together articles by leading scholars of SFF and think-pieces by acclaimed authors of contemporary SF, this volume focuses on central themes such as the relationship between aesthetics and politics, alterity, world-building, memory, trauma, colonialism and decolonization, ecology, gender, religion, and mythopoetics. It engages with the past, present, and future of speculative traditions in SSWANA, and compares the visions that emerge from these seemingly disparate--but historically connected--entities. Part of the Studies in Global Genre Fiction series, this volume will be of great interest to academics, students, and practitioners in the fields of genre studies (notably, SF, SFF), comparative literature, media and popular culture, area studies, postcolonial studies, and future studies, as well as to readers who are interested in exploring SFF works from the Global South.

The Bruce B. Lawrence Reader Bruce B. Lawrence, 2020-12-18 Over the course of his career, Bruce B. Lawrence has explored the central elements of Islamic civilization and Muslim networks. This reader assembles more than two dozen of Lawrence's key writings, among them analyses of premodern and modern Islamic discourses, practices, and institutions and methodological reflections on the contextual study of religion. Six methodologies serve as the organizing rubric: theorizing Islam, revaluing Muslim comparativists, translating Sufism, deconstructing religious modernity, networking Muslims, and reflecting on the Divine. Throughout, Lawrence attributes the resilience of Islam to its cosmopolitan character and Muslims' engagement in cross-cultural dialogue. Several essays also address the central role of institutional Sufism in various phases and domains of Islamic history. The volume concludes with Lawrence's reflections on Islam's spiritual and aesthetic resources in the context of global comity. Modeling what it means to study Islam beyond political and disciplinary borders as well as a commitment to linking empathetic imagination with critical reflection, this reader presents the broad arc of Lawrence's prescient contributions to the study of Islam.
