New terms are included from the fast-moving areas of current affairs (e.g. MiFID), Internet business and information technology and there is full coverage of the new Companies Act. With recommended web links for many entries, accessible and kept up to date via the Dictionary of Business and Management companion website, this edition is more informative than ever. This A-Z reference work is essential for business students, teachers and professionals, and useful for anyone needing a guide to business terminology.

Financial Reporting In The Pacific Asia Region Ronald Ma,1997-10-13 There is a dearth of good books on accounting in

China, East Asia and Southeast Asia. This book makes a valuable contribution towards filling the gap. The chapters in Part I of the book deal with the cultural influence and economic significance of East and Southeast Asia, and the interrelationships between these matters and accounting in Pacific Asia. Part II comprises chapters on accounting in individual countries (comprising China, Japan, Korea, Taiwan and Southeast Asia), written by academics who work and research in these countries. In particular, the authors focus on the extent of the harmonisation of domestic standards with international accounting standards and on the development of the accounting profession. Part III deals with the problems of and prospects for accounting harmonisation in the region.
