Tratamiento paso a paso de los problemas psicológicos en adultos José Pedro Espada Sánchez, Mireia Orgilés Amorós, Francisco Xavier Méndez Carrillo, 2023-04-27 Se estima que una de cada cuatro personas adultas en España tiene o tendrá en el futuro un problema de salud mental. Atender los problemas y trastornos psicológicos de la población supone todo un reto para nuestra sociedad. La intervención psicológica en este ámbito requiere profesionales con dominio de las técnicas de evaluación y tratamiento psicológico que cuentan con la mayor evidencia científica. En esta obra se aúna la investigación y la práctica clínica. Por un lado, se describe con detalle la psicopatología, la evaluación y el tratamiento

psicológico de cada problema o trastorno desde el rigor científico de la investigación; por otro lado, se expone de manera didáctica y paso a paso el proceso de evaluación y tratamiento de un caso clínico, siguiendo el método científico en la intervención. A lo largo de veinticuatro capítulos, con más de cuarenta expertos del campo académico y aplicado, se abordan problemas psicológicos que, por su frecuencia o por su tratamiento novedoso, contribuyen a la formación de estudiantes y a la actualización de profesionales. Esta obra es una guía para el terapeuta en formación o profesional que quiera conocer, desde un acercamiento científico y riguroso, el proceso de evaluación y tratamiento de los problemas psicológicos.
