The End of Atlantis John Victor Luce, Luce, 2001-01-01 In the 15th century BC, a volcanic eruption of exceptional violence occurred on the island Thera (Santorini), 75 miles north of Crete. Did this mark the destruction of Atlantis, the story of which Plato gave to the world 11 centuries later? Was there ever such an island as he describes, the home of an advanced culture and the centre of a great empire? If so, where was it, when did its civilisation flourish, and why did it disappear? Mr Luce, with the help of archaeologists, vulcanologists, seismologists and oceanographers, suggests the real truth.

**Ten Discoveries That Rewrote History** Patrick Hunt, 2007-09-25 The world's greatest archaeological finds and what they tell us about lost civilizations Renowned archaeologist Patrick Hunt brings his top ten list of ancient archaeological discoveries to life in this concise and captivating book. The Rosetta Stone, Troy, Nineveh's Assyrian Library, King Tut's Tomb, Machu Picchu, Pompeii, the Dead Sea Scrolls, Thera, Olduvai Gorge, and the Tomb of 10,000 Warriors—Hunt reveals the fascinating stories of these amazing discoveries and explains the ways in which they added to our knowledge of human history and permanently altered our worldview. Part travel guide to the wonders of the world and part primer on ancient world history, *Ten Discoveries That Rewrote History* captures the awe and excitement of finding a lost window into ancient civilization.

**The Origins of Democracy in Tribes, City-States and Nation-States** Ronald M. Glassman, 2017-06-19 This four-part work describes and analyses democracy and despotism in tribes, city-states, and nation states. The theoretical framework

used in this work combines Weberian, Aristotelian, evolutionary anthropological, and feminist theories in a comparative-historical context. The dual nature of humans, as both an animal and a consciously aware being, underpins the analysis presented. Part One covers tribes. It uses anthropological literature to describe the “campfire democracy” of the African Bushmen, the Pygmies, and other band societies. Its main focus is on the tribal democracy of the Cheyenne, Iroquois, Huron, and other tribes, and it pays special attention to the role of women in tribal democracies. Part Two describes the city-states of Mesopotamia, Syria, and Canaan-Phoenicia, and includes a section on the theocracy of the Jews. This part focuses on the transition from tribal democracy to city-state democracy in the ancient Middle East – from the Sumerian city-states to the Phoenician. Part Three focuses on the origins of democracy and covers Greece—Mycenaean, Dorian, and the Golden Age. It presents a detailed description of the tribal democracy of Archaic Greece – emphasizing the causal effect of the hoplite-phalanx military formation in egalitarianizing Greek tribal society. Next, it analyses the transition from tribal to city-state democracy—with the new commercial classes engendering the oligarchic and democratic conflicts described by Plato and Aristotle. Part Four describes the Norse tribes as they contacted Rome, the rise of kingships, the renaissance of the city-states, and the parliamentary monarchies of the emerging nation-states. It provides details of the rise of commercial city states in Renaissance Italy, Hanseatic Germany and the Netherlands.

*Fire in the Sea* Walter Ludwig Friedrich, 2000 When the Greek island of Santorini, or Thera, erupted dramatically in the seventeenth or sixteenth century BC, it produced one of the largest explosions ever witnessed by humankind. The event covered Bronze Age settlements on the island with volcanic ash, and altered the course of civilisation in the region, possibly giving rise to the legend of Atlantis. *Fire in the Sea* blends the thrill of scientific discovery with a popular presentation of the geology, archaeology, history, peoples and environmental setting of Santorini. It is a case study of a natural disaster that will fire the imagination. Excellent colour photographs and illustrations along with easily understandable scientific and historic details make this book highly appealing to a wide audience. It will also be useful as a supplementary text for introductory courses in earth and atmospheric science, geology, volcanology, palaeoclimatology, as well as ancient history and archaeology.

**The Encyclopedia of Tourism and Recreation in Marine Environments** Michael Lück, 2008 Marine tourism has become one of the fastest growing areas within the tourism industry. With the increased use of marine environments comes the need for informed planning and sustainable management as well as for the education and training of planners, managers and operators. Combining the disciplines of marine scientists and tourism researchers, this encyclopedia will bring together the terms, concepts and theories related to recreational and tourism activities in marine settings. Entries range from short definitions to medium and long articles.

*Atlantis* Ignatius Donnelly,1882 Neither an occult book nor a work of fantasy, this 1882 classic offers an erudite blend of evidence from geologic, oceanographic, and anthropologic studies and remains a captivating work of and enthusiasm and imaginative thought. 128 illus. **Flood Legends: Sorted** R. Pilotte,2019-07-16 There are hundreds of ancient flood legends around the world that tells of vast inundations in ancient times caused by catastrophic events. It's often assumed that these legends refer to the flood of Noah and his ark. Although many do mirror this biblical story, some people say these legends simply refer to local floods that only affected the world of the locals, not the whole globe. There are three types of flood legends: global, local, and a confusion of global mixed with local floods. We sorted these legends into categories, presented the evidences, and exhibited the causes of each type. From this discussion emerges a frightful picture of the ancient world where civilizations were affected time and time again by vastly destructive cataclysmic events. The world changed—mountains rose, continents shifted, cities and islands sunk, species were obliterated, and whole populations were wiped off the face of the earth. Legends regularly validate others as true histories. If the floods they spoke of were not global, their effect was. This roller coaster ride of evidence will challenge the worldview of ancient and geologic history that have been taught to us. Legends of the floods often mentioned God or the gods, which were considered to be either responsible for the floods or saved people from them. The age when the gods ruled is associated with advanced technology and flood legends. Atlantis is considered central in flood legends, and many researchers have incorrectly linked its destruction with all flood legends. The gods, too, are related to Atlantis and are frequently tied with floods, which necessitated a section devoted to the age of the gods wherein we discover their origins and who they are.

**Crete Reclaimed** Susan Evasdaughter,1996 Between about 3000 and 1400 BC one of the world's great civilizations flourished on the island of Crete. The distinctive characteristic of this civilization was that it was dominated by an elite of women.
