*Telling Tales* Kylie Cardell,Kate Douglas,2017-08-10 Young writers have historically played a pivotal role in shaping autobiographical genres and this continues into the graphic and digital texts which characterise contemporary life writing. This volume offers a selection of pertinent case studies which illuminate some of the core themes which have come to characterise autobiographical writings of childhood, including: cultural and identity representations and tensions, coming into knowledge and education, sexuality, prejudice, war, and trauma. **Worth A Thousand Words** Meryl Jaffe,Talia Hurwich,2018-12-21 Use graphic novels to teach visual and verbal literacy While our kids today are communicating outside the classroom in abbreviated text bursts with visual icons, teachers are required to teach them to critically listen, think, and read and write complex texts. Graphic novels are a uniquely poised vehicle we can use to bridge this dissonance between student communication skills and preferences with mandated educational goals. *Worth a Thousand Words* details how and why graphic novels are complex texts with advanced-level vocabulary, and demonstrates how to read and analyze these texts. It includes practical advice on how to integrate these books into both ELA and content-area classrooms and provides an extensive list of appropriate graphic novels for K-8 students, lesson suggestions, paired graphic/prose reading suggestions, and additional resources for taking these texts

further. Provides research to back up why graphic novels are such powerful educational tools Helps you engage diverse student learners with exciting texts Shows you how to make lessons more meaningful Offers advice on implementing new literary mediums into your classroom Perfect for parents and teachers in grades K-8, Worth a Thousand Words opens up an exciting new world for teaching children visual and verbal literacy.

**Contradictions** Kwi-ja Yang, 2005 Yang Gui-ja is one of Korea's major literary figures of the last generation, with a succession of literary prizes and best-sellers to her credit. Her most representative early work, the 1987 Wonmi-dong saramdeul, is available in English as A Distant and Beautiful Place. In the 1990s her writing took an increasingly personal turn with a series of popular works including Contradictions (Mosun), South Korea's best-selling novel in 1998. Contradictions is a coming-of-age tale that explores the paradoxes and contradictions of the human condition and delves into the meaning of personal happiness. The book opens with a moment of epiphany as the main character An Jin-jin awakens to the realization that her entire energy must be devoted to her own life. She struggles over whom to marry with an awareness of consequences gleaned from seeing the divergence in the lives of twin sisters--her mother and her aunt. A host of binary oppositions is also presented in the lives of the men around her: a wannabe gang boss brother, an Ivy League cousin, an alcoholic schizophrenic father, a steadfast but rigid uncle, and her two suitors. Yang skillfully develops these characters in increasingly complex threads as the novel unfolds in a series of surprises.

**Contemporary Asian Popular Culture Vol. 1** Yeojin Kim, Dharshani Lakmali Jayasinghe, Hiba Aleem, Karen A. Ritzenhoff, 2025-01-08 This first of two volumes explores how contemporary Asian popular culture reflects and critiques social issues. The authors, from different scholarly backgrounds, examine how shows like Squid Game present a scathing critique of oppressive socio-economic structures, conceptualize national heterotopias, utopias, and dystopias, and facilitate understanding of identity formation and discourses of resistance. The volume encompasses chapters discussing themes that intersect gender, race, politics, and social dynamics. It showcases ongoing developments in Asian popular culture in the wake of the global popularity of Squid Game and in anticipation of its second season release in December 2024.

**Intentional Invisibilization in Modern Asian History: Concealing and Self-Concealed Agents** Mònica Ginés-Blasi, 2025-03-03 Scholars from the humanities and social sciences have repeatedly faced the challenge of writing history beyond the constraints and frameworks set by grand narratives and established historiographies. This book addresses the intentional invisibilization and concealment of people, knowledge, and ideas in historiography – both by historians and by the historical actors themselves – as an object of study. It does so through the lens of Asian bondage and dependency in modern and contemporary history. This collective work focuses on ‘concealment’, ‘self-concealment’ and ‘invisibility’ to analyze the asymmetrical agency involved in the act of hiding someone or something from being ‘inscribed’ in the record, and the social

marginalization involved in this process. With studies ranging from imperial, colonial, and postcolonial history, language and translation studies, as well as digital archival sciences, the authors in this book examine ways in which concealment serves as a strategic tool for exercising power and shaping the flow of information. Consequently, this volume urges a fresh awareness of narrative construction, encouraging humanities researchers to think creatively and to historicize independently of dominant narratives.

**The Ultimate Guide to Yin Yang** Antony Cummins, 2021-07-13 WHAT IS YIN YANG? Learn to receive abundance from the universe with this first-ever guide explaining the Chinese concept of opposites in easy-to-understand terms and striking red-black illustrations. Perfect for anyone interested in Daoism, alternative medicine, martial arts, and other Eastern fields of study! The concept of yin yang can be found in some of the oldest writing in the world. It is fundamental to Chinese thought and the route to understanding most Chinese practices, from Traditional Chinese Medicine to Daoism and feng shui. It also offers us ways of enhancing our own lives, establishing greater balance not only in our own environment but also in the wider world if we can work with other people to follow nature's flow. Step by step, with plenty of helpful illustrations and graphics, this guide explores the history and changing uses of yin yang—not forgetting the pronunciation and spelling (why yinyang is actually better than yin yang). The book also makes suggestions for working with yin yang, from observing the landscape to get a sense of the ebb and flow of energy through the world, to studying the patterns of nature in order to take what you need but not too much, to approaching sex as a cosmic ritual. Readers will understand how to position themselves so that yin yang fills their lives with abundance—how to be in the right place at the right time.

*The Sage Handbook of Peace and Conflict Studies* Maia Carter Hallward, Ji Eun Kim, Cécile Mouly, Timothy Seidel, Zubairu Wai, 2025-06-07 The Sage Handbook of Peace and Conflict Studies offers a comprehensive exploration of the complexities of violence, conflict, and peace from a global, interdisciplinary perspective. The handbook addresses the traditional Western-centric approach while emphasizing the need to integrate Global South perspectives to create a more inclusive and transformative understanding of peace and conflict. While important voices in peace and conflict studies have long stressed the need to not only address direct violence but also structural and cultural one, certain strands of the field have upheld conservative knowledge production and reinforced unequal power structures. This volume seeks to challenge these biases by foregrounding critical and decolonial approaches that emphasize gender, race, culture, global history, and political economy. Its diverse chapters invite us to question mainstream assumptions and promote a broader, more inclusive analysis of peace and conflict. The handbook explores the evolution of the field, highlighting the impact of historical events and the role of oppositional knowledge in political change. It offers a critical overview of theoretical approaches, emphasizing reflexivity,

inclusivity, and the importance of local actors in peace and conflict dynamics. Additionally, it examines how cultural and disciplinary assumptions shape peacebuilding and conflict transformation, and it critiques traditional global narratives on issues like governance, climate change, and human rights. Finally, the handbook presents real-world case studies that integrate themes of decoloniality, race, gender, and power inequalities across diverse global contexts. By centering the Global South and integrating interdisciplinary perspectives, this handbook provides valuable insights for scholars and practitioners committed to fostering a more equitable and just world.
