Dorothy Dodge Robbins

Literary Onomastics Dorothy Dodge Robbins, 2023-10-03 *Literary Onomastics* surveys different methods of studying names in works of literature and offers representative works of literary onomastic analysis. Included in this volume are qualitative studies that examine select names as well as quantitative studies that examine entire systems of names. These studies of literary names straddle centuries, cross genres, and defy simple categorization. Leading and emerging scholars in this field provide insight into the namecraft of William Shakespeare, Philip Sidney, John Donne, Julia Alvarez, Ursula K. Le Guin, Zadie Smith, George R. R. Martin, and Britain's Rebel Writers. The theories and methods they employ are associated with cultural, linguistic, rhetorical, feminist, and ethnic studies. Collectively, these scholars demonstrate the many approaches available to the study of names and naming practices in literary works. Additionally, they consider how names function in a variety of genres and mediums, including poetry, novels, science fiction, and fantasy.

Today's teachers are continually looking for resources to help support their literacy instruction in an engaging and effective way while also saving precious instructional hours and planning time. In *Shining a Light on Short Texts*, authors Julie Wright and Elizabeth Keim invite readers into the world of short texts and all they have to offer. With a diverse collection of short texts to use as mentors alongside model planners embedded with ready-to-use lessons, Wright and Keim give teachers everything they need to get started, including: ● Descriptions and illustrations of multiple short text types ● 24 demonstration lessons grounded in 8 comprehension strategies ● Instructional examples built across three grade level bands (K-2, 3-5, and 6-8) ● Ideas for incorporating short texts sets for further study ● An extensive appendix with bonus lessons and resources Teachers need solutions, and short texts are plentiful, low-cost, and come in a variety of interest levels and a wide range of text complexity. *Shining a Light on Short Texts* offers ready-to-use lessons while also establishing practices educators can easily replicate as they ultimately identify their own short text sources and create their own plans, based on their instructional focus and the unique needs of their readers.

Handbook of Research on Advancing Language Equity Practices With Immigrant Communities Cardozo-Gaibisso, Lourdes,Vazquez Dominguez, Max,2020-06-26 Research on linguistically and culturally sustaining education has

recently placed increased attention on the need to rethink the field by promoting more equitable linguistic pedagogical opportunities for all students, including immigrant and newcomer youth. It has been evident for some time that immigration patterns around the globe have been increasingly shifting, posing a new challenge to educators. As a result, there is a gap in the literature that is meant to address educational practices for immigrant communities comprehensively. The Handbook of Research on Advancing Language Equity Practices With Immigrant Communities is a critical scholarly book that explores issues of linguistic and educational equity with immigrant communities around the globe in an effort to improve the teaching and learning of immigrant communities. Featuring a wide range of topics such as higher education, instructional design, and language learning, this book is ideal for academicians, teachers, administrators, instructional designers, curriculum developers, researchers, and students in the fields of linguistics, anthropology, sociology, educational policy, and discourse analysis.

Handbook of Poetic Forms Jessica Bundschuh, Irmtraud Huber, 2025-10-06 This Handbook of Poetic Forms aims to offer historically informed approaches to a wide variety of poetic forms. A particular emphasis will be on considering poetic form in dialogue with the cultural context in which it is being used, as well as within the literary tradition of each form, and to explore the stable as well as the historically variable affordances of each form in such contexts. Hereby, the focus lies on prescriptive forms, that is, on poetic forms which are defined by or at least associated with specific metrical, stanzaic or overall structures (or the absence of such), rather than poetic genres that are primarily characterised by similarities in subject matter (like the elegy or the ode). While this Handbook should be accessible to students, its aim is not to offer basic introductions, but rather to broaden a historical and functional understanding of the poetic forms it covers, and to engage with poetic forms not as givens, but as historically-contingent processes of formation. Above all, this Handbook's formalism is new formalist in emphasising historical awareness and contextualisation.

Obsession Carolyn Beard Whitlow, Marilyn Krysl, 2014-03-04 The sestina (of medieval French origin) is a complex poetic form of 39 lines (six sestets and a three-line envoy) in which the six end-words (teleutons) of the lines of the first sestet stanza are repeated in a specific order as teleutons in the five succeeding sestets. In the envoy, the six teleutons are again

picked up, one of them being buried in, and one finishing, each line. Because of the complexity of the form, the sestina fell out of favor with poets for several decades. However, a twenty-first century revival of the form is underway. This is the first anthology of sestinas that showcases both traditional and innovative examples of the form by modern and contemporary poets, award winners, and emerging writers alike. Organized by such themes as Americana; Art; Love and Sex; and Memory, Contemplation, Retrospection, and Death, the collection also includes sestinas with irregular teleutons and unconventional sestinas. An evocative introduction by Marilyn Krysl acquaints readers with the form. The volume concludes with useful indexes of first lines and teleutons, increasing access to the poems beyond the poets' names.
