**Eric Greene**

**Planet of the Apes** Pierre Boulle, 2011-04-13 The original novel that inspired the films! First published more than fifty years ago, Pierre Boulle's chilling novel launched one of the greatest science fiction sagas in motion picture history. In the not-too-distant future, three astronauts land on what appears to be a planet just like Earth, with lush forests, a temperate climate, and breathable air. But while it appears to be a paradise, nothing is what it seems. They soon discover the terrifying truth: On this world humans are savage beasts, and apes rule as their civilized masters. In an ironic novel of nonstop action and breathless intrigue, one man struggles to unlock the secret of a terrifying civilization, all the while wondering: Will he become the savior of the human race, or the final witness to its damnation? In a shocking climax that rivals that of the original movie, Boulle delivers the answer in a masterpiece of adventure, satire, and suspense.

**Planet of the Apes** Pierre Boulle, 1964 A satiric view of today's society is presented in this portrait of a planet where men and apes have exchanged roles

**Dawn of the Planet of the Apes: The Official Movie Novelization** Alex Irvine, 2014-07-15 A growing nation of genetically evolved apes led by Caesar is threatened by a band of human survivors of the devastating virus unleashed a decade earlier. They reach a fragile peace, but it proves short-lived, as both sides are brought to the brink of a war that will determine who will emerge as Earth's dominant species.

*Planet of the Apes Omnibus 1* Michael Angelo Avallone, Jerry Pournelle, 2017-02-28 When men discovered that the Planet of the Apes was their own Earth, it was only the beginning of the most incredible adventure of all time... **BENEATH THE PLANET OF THE APES** By Michael Avallone Thousands of years from now, in the buried ruins of what was once New York City, dark religious ceremonies pay tribute to the Great Bomb, bringer of life and death. In Ape City, the chimpanzees picket for peace while their gorilla leaders prepare for war. Two ruthless factions are racing towards calamity, as two men who somersaulted across time itself struggle for survival in a world that is no longer their own. **ESCAPE FROM THE PLANET OF THE APES** By Jerry Pournelle The time indicator races back through the years from 3955 to 1973. The spacecraft holds three survivors of a devastating cataclysm: Cornelius, his mate Zira, and Dr Milo. The world of 1973 welcomes the apes at first, pampering them for their unusual qualities. But when the truth of the thinking, speaking descendants that dominated Man and the Earth for centuries comes to light, this hospitality turns to threat.

Planet of the Apes as American Myth Eric Greene,1996 How do political conflicts shape popular culture? This book explores that question by analyzing how the Planet of the Apes films functioned both as entertaining adventures and as apocalyptic political commentary. Informative and thought provoking, the book demonstrates how this enormously popular series of secular myths used images of racial and ecological crisis to respond to events like the Cold War, the race riots of the 1960s, the Civil Rights movement, the Black Power movement, and the Vietnam War. The work utilizes interviews with key filmmakers and close readings of the five Apes films and two television series to trace the development of the series' theme of racial conflict in the context of the shifting ideologies of race during the sixties and seventies. The book also observes that today, amid growing concerns over race relations, the resurgent popularity of Apes and Twentieth Century--Fox's upcoming film may again make Planet of the Apes a pop culture phenomenon that asks who we are and where we are going.

Planet of the Apes Sean Egan,2021-12-01 Planet of the Apes started life in 1963 as a quirky work by Pierre Boulle, the French literary novelist famous for *The Bridge over the River Kwai*. His concept of a world where humans are ruled over by apes proceeded to become one of the biggest multi-media sensations in history. The 1968 Charlton Heston motion-picture adaptation of Boulle's book was celebrated and successful but was just the beginning. By 1973, said picture had spawned four sequels. It then spun off a live-action TV series, which in turn spun off the animated TV show *Return to the Planet of the Apes*. With this, comic books, novelizations, and a tsunami of merchandising, the late '60s and first half of the '70s had a distinctly simian flavor. A new generation was introduced to the concept when, in 2001, Tim Burton's updating of the series

appeared in cinemas. This itself was rebooted a decade later in the form of *Rise of the Planet of the Apes* and its two sequels. Yet despite all the fantasy (and money-chasing), the series has always been marked by thoughtfulness, exploring serious themes alien to most franchises. *Planet of the Apes: The Complete History* explores every aspect of this phenomenon—from books to films, comic books to television shows, and video games to merchandise—providing an overview that is truly definitive. With the help of new and exclusive interviews with *Planet of the Apes* producers, directors, writers, actors, and makeup artists, Sean Egan attempts to gain an understanding of how a media property changed the world.

**War for the Planet of the Apes: Revelations** Greg Keyes, 2017-06-06 Driven from their woodland home, Caesar and his apes are still recovering from the takeover by renegade ape Koba. Caesar is desperate to avoid war with the humans, but this is a faint hope, as his enemies are about to receive military reinforcements headed by the ruthless Colonel McCullough.

**The Making of Planet of the Apes** J. W. Rinzler, 2018-10-23 Take a look behind the scenes of the creation of this classic 1968 science fiction film with exclusive, never-before-seen photographs and concept art. Foreword by Fraser Clarke Heston Based on Pierre Boulle's novel *La Planète de singes*, the original *Planet of the Apes* was one of the most celebrated films of the 1960s and beyond. Starring Hollywood icons Charlton Heston and Roddy McDowall, the movie struck a chord with the world and sparked a franchise that included four sequels, two television series, a reboot film series, and a long-running comic book. Now, New York Times–bestselling author J. W. Rinzler tells the thrilling story of this legendary Hollywood production—a film even Boulle thought would be impossible to make. *The Making of Planet of the Apes* is an entertaining, informative experience that will transport readers back to the strange alternate Earth ruled by apes, and bring to life memorable characters such as Cornelius, Dr. Zira, Dr. Zaius, and Taylor, the human astronaut whose time-traveling sparks an incredible adventure. Meticulously researched and designed to capture the look and atmosphere of the film, *The Making of Planet of the Apes* is also packed with a wealth of concept paintings, storyboards, and never-before-seen imagery—including rare journal pages and sketches from Charlton Heston's private collection—as well as color and black-and-white unit photography, posters, and more unique ephemera. Comprehensive in scope, *The Making of Planet of the Apes* is the definitive look at the original blockbuster film, a must-have for fans, film buffs, and collectors alike.

**Planet of the Apes** Maurice, 2018-10-23 To celebrate the 50th anniversary of the *Planet of the Apes* franchise: an illustrated life story of Caesar, the brave and extraordinary leader of the apes, as told by Maurice, Caesar's best friend. After the events of *War for the Planet of the Apes*, Caesar's tribe has finally found a safe refuge from the last remnants of the humans who wish to see them wiped out. It comes at a cost, however, as Caesar dies before he can see the apes thrive and prosper in their new home. Maurice, as a gift to Caesar's son Cornelius for when he grows older, decides to recount and chronicle Caesar's story so that his son can truly know what a unique and brave ape his father was, and inspire Cornelius in turn. *Caesar's Story* is this chronicle, and tells the story of Caesar from his earliest days under the care of scientist Will

Rodman, as well his life with the ape colony in Muir Woods after the outbreak of the Simian Flu, his interactions with Malcolm and Ellie, the dangerous ape Koba, and his ultimate battle with and imprisonment by the vicious and unstable Colonel. The book also chronicles what happens in-between the events of Rise and Dawn of the Planet of the Apes, as well as the events between Dawn of and War for the Planet of the Apes. The book includes Maurice's personal thoughts and reflections of his long time spent alongside Caesar, and contributions from several other key apes that knew Caesar. The result is a truly one-of-a-kind celebration of the new Planet of the Apes trilogy and the franchise as a whole.

And those who remain are not alone in this strange, inhospitable world. A savage insectile race waits just below the surface, massing to obliterate the unwanted invaders. And the Oberon's last human survivors must look to unlikely allies for help: the apes they carried onboard. Using controversial gene technology, the starship's scientists hope to transform the primates into a powerful army -- strong, agile, subservient...and intelligent. But the consequences of playing God promise to be more devastating than anyone could have ever anticipated, ushering in a dark and terrifying future that will pit slave against master, ape against Man.
