Le travail reconnu Michel Lemonnier, 2015-10-01 La réflexion que l'auteur nous propose, à l'occasion de la présente contribution, porte plus particulièrement sur « la reconnaissance du travail » et le concept de l'expérience professionnelle. Nous ne pouvons faire l'économie de la tentative de compréhension de ce qui peut constituer l'expérience. Si le sujet de la philosophie du travail est l'analyse du rapport de l'homme au travail et du rapport du travail à l'homme, l'expérience professionnelle que possède le sujet reste la clé de voute de cette relation.

Analyse du travail et production de compétences collectives Richard Wittorski, 1997-03-15 A partir de l'étude de la mise en place, du fonctionnement et des effets de groupes d'analyse du travail dans un milieu industriel (une entreprise de textile québécoise), cet ouvrage se donne pour objectif de comprendre comment se construisent des compétences collectives qui structurent un processus d'apprentissage individuel, collectif et organisationnel permettant d'accompagner et de gérer un

changement organisationnel. Il s'efforce de montrer également en quoi le recours à des séquences d'analyse des pratiques constitue une nouvelle forme de formation qui articule étroitement travail et formation et modifie dans le même temps les façons de travailler et les individus. A partir d'une approche pluridisciplinaire, il s'intéresse tout particulièrement aux concepts de compétences individuelles, partagées et collectives ainsi qu'aux processus d'évolution des compétences.
